IDEM

INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

EST. 1986

Catching the bus. Eating peas. The dark. Lots of things can seem scary to a child, but there's something no kid should have to worry about—environmental safety at a child care facility. So the next time you drop me off, ask your provider if they are a member of Indiana's 5-Star Environmental Recognition Program. It's a voluntary program that lets you know I'll be protected from things like lead-based paint and other unseen environmental hazards. To learn more call 800-988-7901 or visit online at www.idem.IN.gov/childcare.
