Dear Ms. Gramelspacher:

RE: 2008 Annual Adjustment Ratio Study

The Department of Local Government Finance has reviewed the information and data you originally submitted for the Dubois County 2008 ratio study as well as the supplemental information. The Department hereby approves the ratio study results based on the study presented without verifying the actual data in order to allow the preparation and delivery of the real property list to the County Auditor pursuant to IC 6-1.1-5-14.

Further studies may be warranted in order to ensure that the annual adjustment process was followed. Additionally, we would encourage you to use all possible sales, which lend greater validity to the sales ratio study.

In conjunction with our Data Analysis section, please continue to ensure your sales disclosure file database is compliant. For assessment year 2009, your 2007 and 2008 sales disclosure data files must be compliant with the rules of the DLGF.

If you have any questions or concerns, please feel free to contact Barry Wood, the Assessment Division Director, at (317) 232-3762 or by e-mail at Bwood@dlgf.in.gov.

Sincerely,

Cheryl A.W. Musgrave
Commissioner

Dear Barry,

We have completed the ratio study for the 2008 Dubois County trending. All sales that we deemed valid were used, including multi-parcel sales and land sales that have since been improved. Also, a few older sales were used on the Commercial side in areas where we lacked current sales. These were time adjusted to 1/1/07 using a 2% increase on the sale price.

Residential and Ag Homesites

The rural townships were grouped by school district in an effort to create a better market comparison. This allowed us to include all sales in a similar area, rather than basing land rates on one or two sales. Rates have been changed where necessary. Some additional neighborhoods were created due to new subdivisions. Also, trending factors have been added to help bring the median ratios closer to 1.00.

Commercial and Industrial

There were very few sales in the rural areas. Because of this we used some older sales in our ratio study. As stated earlier, they were time adjusted to 1/1/07 using a 2% increase on the sale price. The construction types and sizes for the Commercial and Industrial are very similar so these two categories were grouped together when we were developing trending factors. Just like the Residential, land rates have been changed where needed. Trending factors were added to help bring the median ratios closer to 1.00.

Summary

Overall, we saw approximately a 5%-10% increase in Residential properties and a 1% increase in Commercial and Industrial properties. Due to the fact that most land available for sale in Dubois County is in row crop, there are very few Commercial and Industrial unimproved land sales. If you have any questions feel free to contact me.

Sincerely,

Gail Gramelspacher
