ASTHMA STUDY

SEEKING VOLUNTEERS

Principal Investigator:
Michael Busk, MD

Dr. Michael Busk of the St.Vincent Asthma Clinical Research Center is conducting a study on asthma and the use of continuous positive airway pressure (CPAP) to reduce airway reactivity.

You may be eligible to participate if you:

- Are 15-60 years of age
- Are male or female
- Have a diagnosis of asthma

Participation includes:

- 6 clinic visits
- Physical exam
- Breathing tests
- Questionnaires
- Blood and urine tests
- Reimbursement for time and effort
