ASTHMA & SMOKING COHORT STUDY

Do you have asthma and smoke?

Dr. Michael Busk of the St.Vincent Asthma Clinical Research Center is conducting a study to learn more about the differences in people with asthma who smoke and people with asthma who do not smoke.

We are looking for participants who:

- Are male or female
- Are 18-50 years of age
- Have asthma
- Smoke cigarettes

Participation includes:

- Questionnaires
- Physical exams
- Breathing tests
- Two clinic visits total
- Reimbursement for time and effort
