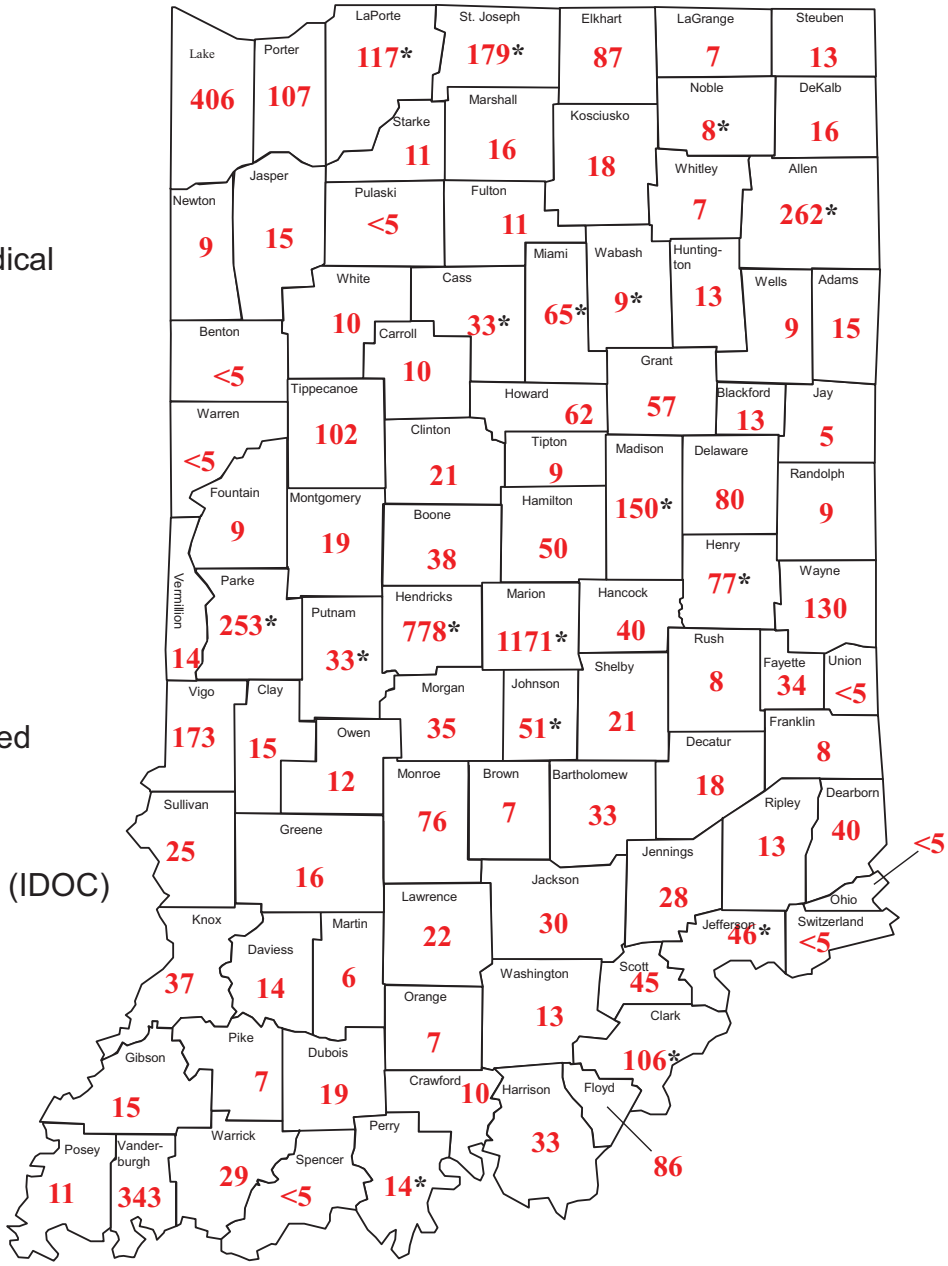
HEPATITIS C

January 1, 2009 – December 31, 2009

NOTE:
Data are provisional and should be finalized later in 2011.

Hepatitis C (HCV) cases may reflect county of medical provider and not residence of individual due to reporting system limitations.

State of Indiana:
Reported in 2009 = 6,101

Label definition:
HCV Cases reported in 2009. Suspected, probable, and confirmed cases based on case investigations.


(*) Counties with Indiana Department of Correction (IDOC) facilities.
