Share, Build, Collaborate

Coalition Building 101 is a half-day experience designed to teach the lessons and practices of community collaboration and build collective capacity. Facilitated by John Burnett & Jack Hess of the Institute for Coalition Building, the objective of this workshop is to create a common language and a set of shared practices among leadership teams and key stakeholders.

The outcomes for the workshop are to:

1. Teach the lessons and practices of community collaboration;
2. Share a set of collaborative tools and frameworks for engaging stakeholders; and
3. Help the group assess its own development in conducting collaborative work.

Dates & Locations
