Eco-Friendly Fire Starters -

Adults need to supervise cooking and pouring in this craft

You will need:

- Old candles (scented or unscented)
- Empty cardboard egg carton
- Dryer lint
- An old pot
- Scissors

Directions:

- In the pot, melt candle pieces completely over low heat
- Mix in enough dryer lint to make mixture appear lumpy
- Carefully pour the mixture into the egg receptacle areas of the egg cartons and let cool completely
- Cut out the wax filled holes into individual pieces
- Use these in your fireplace to start your winter fire— put them under the wood and light your fire.
