Fasson® Rapid-Roll® 5 Pt. C1S Integrity Thermal Transfer Spec# 16817

Description:
Fasson® Rapid-Roll® 5 Pt. C1S Integrity™ Thermal Transfer maintains bright white color and premium smoothness along with high-quality, problem-free matte coating for smudge-resistant printing. Ability to use low cost wax ribbons is a plus! This 'hi-yield' thinner profile tag allows more footage on finished rolls to reduce the frequency of roll changes for thermal transfer imprinting customers. Exceptional lay-flat is achieved with a wash coat on the backside specifically designed to control curl. Superior flexographic print quality.

Target Markets:
5 pt. C1S Integrity™ is ideal for the new, smaller portable thermal transfer printers that benefit from using a thinner caliper material that has the feel and stiffness of a tag. Designed to provide premium high-density bar codes at low output print head settings.

End Uses:
Industrial Manufacturing, Inventory Control Tags, Piecework Tickets, Product Identification, Work-in-Process Tags

Physical Property	Typical Value	Test Method
Basis Weight:	87.0 lbs/ream	T410A (500 sheets 25" x 38")
Caliper:	5.0 mils	T411
Yield:	5.46 msi/lb	ASTM D 4321
Tear:	110.0 MD/ 115.0 CD grams	T414 Elmendorf
Tensile:	45.0 MD/ 25.0 CD lbs/in	T494
Smoothness:	40.0 SFU	T538 Sheffield
Gloss:	20.0 gloss units	T480

Shelf Life
Unless specified otherwise in this document, one year when stored at 72°F at 50% RH

Statement of Practical Use
All pressure-sensitive materials should be tested thoroughly under end-use conditions to ensure they meet the requirements of the specific application.

Warranty
All sales and contracts for sale are expressly conditioned on the buyer's assent to Avery Dennison's terms and conditions found on its website at www.na.fasson.com. Avery Dennison hereby objects to any term, different from or additional to Avery Dennison's terms, contained in any buyer communication in any form, unless agreed to in a writing signed by an officer of Avery Dennison.
