BASEMENT FLOOR EVACUATION PLAN

Evacuation Routes

1. Evacuation Routes
2. Tornado Shelter

Safety Equipment Location

1. Safety Shower and Emergency Eye Wash Station SS
2. Emergency Eye Wash Station EW
3. Fire Extinguisher FE
4. Fire Blanket FB
5. First Aid Kit FA
6. Emergency Chemical or Microbiological Spill Cleanup Kit SK
7. Fume Hood FH
8. Safety Glasses SG

Building Safety

1. Natural Gas Shut Off Valves
2. Fire Protection Partial Sprinkler Shut Off
3. Bulk Gas Shut Off
4. Circuit Breaker Panel CB
5. Fire Alarm Pulls FP
6. Security System Panels SP
7. Elevator E
8. Power Distribution & Back-up Power
9. Generator G
10. IT Communications Room IT
11. Emergency Hatch to Penthouse P

Hazards

1. Flammable Solvent Storage FSS (Noted in RED)
2. Concentratred Acid Storage CAS
3. Compressed Gas Cylinders:
   Helium He
   Nitrogen N
   Carbpm Dioxide Co2
   Methane + Argon MAr
   Hydrogen H (Noted in RED)
4. Bulk Liquid Storage
   Nitrogen LN
   Argon LAr
   Helium LHe
5. Chemical Waste Collection:
   Organic Solvent (Noted in RED)
   Cyanide water solution
   Mercury Oxide water solution
6. High Voltage FSS
7. Chemical Storage FSS
8. Autocalve FSS
9. IT Server Room - Has firewall dry chemical agent Fire Suppression System
10. Nitrogen gas shut off valves NL
