Appendix A - Productions and Attractions of Commodities, 1993

The state-level productions and attractions presented in this appendix are drawn primarily from the *1993 Commodity Flow Survey*. County-level values here are allocated using employment or similar related data as a pattern for the allocation. The reader should consult the text of the report for more detail on this procedure. The sum of the flows into and out of the counties of Indiana have been adjusted to equal the sum of these values for the state of Indiana.
