**County Rurality Index ranked by three factors**

**Population Density, non-urban population, and unincorporated population**

**Population Density Score:**

Total county population divided by total county square miles. Ranked 1 (most dense) through 92 (least dense). Ranking equals

**Non-Urban Population Score**

# Rurality Index

## 2009

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| | Percentage of county population outside of urban definition (cities of 50k or more). 1 point for each percentage | | | | | | |
| | | | | | | | |
| | **Unincorporated Population Score:** | | | | | | |
| | Percentage of county population outside of incorporated cities and towns. 2 points for each percentage | | | | | | |
| | | | | | | | |
| | All data from Stats Indiana using 2007 US Census Bureau. | | | | | | |
| | STATS Indiana is the information utility for the State of Indiana and receives major support from the State through the Indiana Department of Workforce Development and f | | | | | | |
