Re: FY 2010-2013 INSTIP Transit Amendments #1 and #2

Dear Mr. Buckel:

This letter responds to your two (2) letters, dated February 5 and 23, 2010, requesting to amend the FY 2010 - 2013 Indiana Statewide Transportation Improvement Program (INSTIP). The amendments incorporate programming revisions made to the Northwestern Indiana Regional Planning Commission's FFY 2009 – 2013 Transportation Improvement Program, and the Area Plan Commission of Tippecanoe County's FY 2010 - 2014 Transportation Improvement Program. The attached tables include only the FY 2010 projects that have been submitted to the FTA for approval. (Note: Administrative Modifications do not require FTA approval.) Projects in program years beyond FY 2010, that remain as viable and fiscally-restrained projects, will be included in the approved and published Annual Elements of those TIPs and STIPs for the subsequent fiscal years.

We have determined that all of the FY 2010 transit projects included in these STIP amendments are financially constrained, and that the projects are consistent with the MPOs' and the State's Transportation Plans. We also find that the above TIPs are the result of Metropolitan Transportation Planning processes that substantially comply with the requirements of 23 CFR 450. In accordance with 23 CFR 450.220, we approve these STIP amendments.

If you have any further questions concerning this approval, please contact Steve Polito at 312-353-1552.

Sincerely,

Marisol R. Simón
Regional Administrator

Attachment: FY 2010 INSTIP Amendments #1 and #2
