Department of Natural Resources

DNR 30-DAY PUBLIC NOTICE

The Department of Natural Resources serves the DNR 30-Day Public Notice in order to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3.

The DNR 30-Day Public Notice is published weekly to serve notice of the latest permit applications received at the DNR, Division of Water. This Notice can be viewed on the web at http://www.in.gov/dnr/water/ and can be provided by email upon written request. To receive the DNR 30-Day Public Notice as a weekly email attachment, email your full name and a valid email address to DNRPublicNoticeRecipient@dnr.IN.gov.

The permit applications and supporting documentation is available for public viewing on-line at https://dowunity.dnr.in.gov/#. For questions concerning a permit application, contact the Division of Water, Technical Services Section, at (317) 232-4160 or toll free at 1-877-928-3755 and select 1 during the recorded menu narrative.

Petition for Public Hearing

A pre-action public hearing on an application may be requested by filing a written petition. For a petition to be considered valid it must:
1. contain the typed or legibly printed name and complete mailing address of each petitioner;
2. be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. affirm that each signatory to the petition satisfies the requirements of item 2; and
4. identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted. To request a pre-action public hearing, send the petition by email to water_inquiry@dnr.in.gov or by mail to:

IDNR, Division of Water
Technical Services Section
402 West Washington Street, Room W264
Indianapolis, Indiana 46204-2641

Notification of Department Action

A person may request that the Department notify them when a Department Action is issued. To be notified of a Department Action, send a request that includes the permit application number or the applicant name, project description and county to email address water_inquiry@dnr.in.gov or by mail to the address above.

Permit Application Numbers with a prefix of:
FW are being reviewed under the Flood Control Act, IC 14-28-1 and the Flood Plain Management Rule, 312 IAC 10
PL are being reviewed under the Lake Preservation Act, IC 14-26-2 and the Public Freshwater Lake Rule, 312 IAC 11
DR are being reviewed under the Lowering of the Ten Acre Lake Act, IC 14-26-5
NW are being reviewed under the Navigable Waterways Act, IC 14-29-1
LM are being reviewed under the Navigable Waterways Act, IC 14-29-1 related to Lake Michigan
SG are being reviewed under the Sand and Gravel Permits Act, IC 14-29-3
AC are being reviewed under the Construction of Channels Act, IC14-29-4

DNR 30-DAY PUBLIC NOTICE

Date: 3/31/2021

Application #: FW-30882-0 Received Date: 1/14/2021
Waterbody: Falling Timber Branch County: Ripley
Applicant: Federal Highway Administration, US Department of Transportation, Kevin Rose, 22001 Loudoun County Parkway, Building E-2, Suite 200, , IN

Project Description: The existing Falling Timbers Bridge will be replaced with a new structure on essentially the same alignment to restore natural hydrology. The new structure will be a 40 foot-span bridge. All bridge specifications are in the FW BIOA 12(1) plan set (September 2020). The existing structure will be completely removed. The Federal government project is federally funded.
Project Location: Shaped Charge Road stream crossing of Falling Timber Branch near Holton

Application #: FW-30948-0 Received Date: 2/17/2021
Waterbody: Ohio River County: Posey
Applicant: Zach Schoenherr, 8401 Highway 69 South, Mount Vernon, IN, 47620

Project Description: A new levee system will be constructed to create a 73 acre wetland area within Hovey Lake Fish and Wildlife Area. The levee will be approximately 4,723' long by 12' wide and will have a 6:1 sideslopes with a final elevation of 351.0' NAVD88. A borrow pit area will be utilized at the southern portion of the site. Within the wetlands area will be an approximately 4,450' long by 40' wide ditch system. A culvert at the northeast corner of the site will be removed and replaced with a 24" diameter steel pipe with riprap placed on top of geotextile fabric approximately 1.5' deep at the inlet. A spillway will also be constructed and will be approximately 300' wide and 1' deep.
Project Location: Beginning approximately 680' north of the intersection of Base Road and County Road 1400 South and continuing approximately 2,450' south near Mount Vernon

Application #: FW-30949-0 Received Date: 2/17/2021
Waterbody: Unnamed Tributary Flat Creek County: Dubois
Applicant: Norfolk Southern Railway, Nicholas Bayer, 1200 Peachtree Street, Northeast, Atlanta, GA, 30309

Project Description: An existing railway bridge will be removed and replaced with a 135'-7 1/2" long single-span, ballast-deck bridge with drilled shaft foundations, cast-in-place concrete caps and pre-cast abutment components. There will be two bridge piers outside of the ordinary high water mark. Temporary impacts to the floodway include 2 causeways with approximate dimensions of 50' long by 16' wide that will be installed just north and south of the bridge. All temporary impacts will be removed and restored to pre-construction conditions at the end of construction.
Project Location: Beginning approximately 315' southwest of the intersection of State Road 64 and South Club Road and continuing approximately 200' south near Huntingburg

Application #: FW-30961-0 Received Date: 2/23/2021
Waterbody: East Fork Little Wildcat Creek County: Howard, Howard
Applicant: City of Kokomo Engineering and Traffic, Bennett Stranahan, 100 South Union Street, , , Kokomo, IN, 46901

Project Description: A multi-use paved trail measuring approximately 1.9 miles will be constructed (Des. No. 1901304). In addition to the trail, the existing 42' long, 9.5' by 6.5' twin elliptical pipe culvert structure carrying Center Road over the East Fork of Wildcat Creek will be extended 26' downstream to accommodate the trail. New wingwalls with riprap scour protection will be installed along the stream banks near the structure.
Project Location: Beginning approximately 400' south from the South Park Road stream crossing, extending approximately 4,750' further upstream at Kokomo

Application #: FW-30962-0 Received Date: 2/23/2021
Waterbody: West Fork Little Wildcat Creek County: Howard, Howard
Applicant: City of Kokomo, Carey Stranahan, City Hall, 100 South Union Street, Kokomo, IN, 46901

Project Description: A multi-use paved trail measuring approximately 1.9 miles will be constructed (Des. No. 1901304). The proposed trail will connect to the existing sidewalk along West 300 South.
Project Location: At the West 300 South stream crossing at Kokomo

Application #: LM-244-0 Received Date: 2/17/2021
Waterbody: Lake Michigan County: Lake
Applicant: BP Products North America Inc, Donnie Brown, 2815 Indianapolis Boulevard, Whiting, IN, 46394

Project Description: Two existing intake structures (1911 Intake and 1942 Intake) for the Whiting Refinery will be updated. Under the EPA 316(b) Rule, applicable facilities with cooling water intake structures (CWIS) are required to locate, design, and operate their CWIS to minimize adverse environmental impact from impingement and entrainment mortality. The BP Intake Structure Rule Compliance Project will modify the 1911 Intake crib to increase the open area of the entrance to the cooling water intake structure to reduce intake velocity at the intake face thereby minimizing adverse environmental impact from impingement mortality pursuant to 40 CFR 125.94(c)(3). A portion of the existing 1911 structure will be removed and replaced. Leveling course (gravel), concrete, and armor stone will be put in place around the structure for integrity. The vertical profile of the intake is not planned to change. Underwater construction activities will be limited as much as possible. The new intake structure crib will be constructed on land in segments. A barge will ferry the segments to the project location where they will be assembled below the water. Other project material required for leveling or structural integrity will also be transported via barge to the project location.
Project Location: The two water intake structures are located approximately 1,330' (1911 Intake) and 1,440' (1942 Intake) off-shore at a depth between 15' – 20', approximately 300' apart at Whiting

Application #: PL-24217-0 Received Date: 1/21/2021
Waterbody: Lake Manitou County: Fulton
Applicant: Mike Bowyer, 2121 Westside Drive, , , Rochester, IN, 46975

Project Description: An existing concrete seawall will be refaced across 70' of the shoreline. The refacing will consist of 6' vinyl sheet piling which will be driven
to allow 3' exposure above the lakebed, have a maximum thickness of 6", and be anchored to deadman anchors 12' into the property. The area behind the wall will backfilled with clean peastone 70' x 1' x 3'.
Project Location: 2121 Westside Drive

Parcel ID: 250716285004000009

Legal Description:
LOT 19 LESS 3' TRI STRIP FOX PARK LOT 20 FOX PARK 12' N SIDE LOT 21 FOX PARK 18' SS LOT 21& 20' N.S. near Rochester

Application #: PL-24233-0 Received Date: 2/9/2021
Waterbody: Snow Lake County: Steuben
Applicant: Robert Walti, 7503 Bardston Drive, Dublin, OH, 43017

Project Description: An existing glacial stone seawall will be removed and replaced with a concrete seawall along 50' of the shoreline. The lakeward face of the wall will be along the lakes legal shoreline.
Project Location: 140 Lane 820 B Snow Lake at Fremont

Application #: PL-24255-0 Received Date: 3/15/2021
Waterbody: Big Barbee Lake County: Kosciusko
Applicant: Justin Davis, 13 EMS B20B, , , Pierceton, IN, 46562

Project Description: Mechanically dredging 130' of channel connected to Big Barbee Lake. The channel will be dredged 46' wide and to a depth of 6'.
Project Location: 13 EMS B20B Lane at Pierceton
