Re: Update to WARN Act Notice

To Whom It May Concern:

We previously informed you by letter dated May 30, 2017 that St. Vincent Health, Inc. would be undergoing the elimination of certain Revenue Cycle Operations positions at 2015 Jackson Street, Anderson, Indiana 46016. This letter is an update to that notice.[1]

At the time, we used the best information available regarding the timing of the plant closing. However, in light of unforeseen operational changes impacting the plant closing, St. Vincent Health, Inc. is extending the separation dates for all of the employees listed in Schedule A. Specifically, the Patient Access Representatives affected by this extension were initially notified that their employment would terminate during the 14-day period of August 31, 2017 through September 13, 2017. However, due to operational needs related to the transition, these employees will now be terminated during the 14-day period of October 16, 2017 through October 29, 2017. All affected employees have been notified of this planned extension.
