Mr Loomis refers to the letter submitted by Dr Leib in reference to his findings.
Mr Loomis asks is there a time where you believe that you left an impression that you
were angry, and he apologizes for that. States English is not his first language and did
not mean to come across as angry

State objects

Sustained.

Asks why he did not have counsel when this first started and respondent states he did
not have the financial means at that time

Respondent eels he has learned from his experience, and he feels he can practice

Mr Loomis has no further questions at this time

State call respondent

Asks if he is licensed as a BHHS and he says no and mental health coaching is not a
licensed BHHS and acts as a spiritual counselor

State asks about the award of psychology and asks if he is licensed in Indiana as a
psychologist and he says no and he feels he does not need to hold a license in Indiana
to offer an online platform in counseling

Since your suspension he has no source of income

You testified that you did agree to the terms of the PSA and there were some items he
did not fully understand and agreed to them just to move the proceedings along.

Do you agree that you understood the PSA and he said yes, he did understand?

the terms. Were you informed during the conversations to obtain counsel but
he did not have the funds to do so

state asks again if he did not fully understand the terms of the PSA

he agreed to the first suspension but did not know they could extend the
suspension and he felt that he met the requirements.

How will your practice as a PT be impacted or changed if at all if the
board reinstates the license

It will change drastically just from leaning from this experience. It will make him fully
aware of ethics

If the board chooses to reinstate, are you amenable to having it place on probation. He
leaves that decision to the board. He would prefer his license was free and clear.

Would you be ok with the board monitoring his practice and he says yes.

Would you be willing to come in for PAs to discuss updates on his practice?

He said yes, he would

State asks if he completed the 18 hours of CEU's and he stated he did

State has no further questions for respondent at this time

Board member Certo asks respondent what he has learned from the CEUs, and he says
he has learned to practice and apply the ethical code.

Elaborate on what you were able to take away from the boundary course and he states
patient space not only physically but mentally

Do you believe it is your duty to follow this and he states yes

He does not plan on meeting with individuals, and he will only be doing online
advisory and there would be no fee charged.
