SECTION 15. IC 5-10-8-3.1 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 3.1. (a) A public employer that contracts for a group insurance plan or establishes a self-insurance plan for its employees may withhold or cause to be withheld from participating employees' salaries or wages whatever part of the cost of the plan the employees are required to pay. The chief fiscal officer responsible for issuing paychecks or warrants to the employees shall make deductions from the individual employees' paychecks or warrants to pay the premiums for the insurance. Except as provided by section 7(d) of this chapter, the fiscal officer shall require written authorization from state employees, and may require written authorization from local employees, to make the deductions. One (1) authorization signed by an employee is sufficient authorization for the fiscal officer to continue to make deductions for this purpose until revoked in writing by the employee.

(b) A public employer that contracts for a group insurance plan or establishes a self-insurance plan for its retired employees may require that the retired employees pay any part of the cost of the plan that is not paid by the public employer. A retired employee may assign part or all of the retired employee's benefit payable under IC 5-10.3-8, ~~IC 21-6.1-5,~~ **IC 5-10.4-5,** or any other retirement program for this

required payment.

SECTION 16. IC 5-10-8-7 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 7. (a) The state, excluding state educational institutions (as defined by IC 20-12-0.5-1), may not purchase or maintain a policy of group insurance, except:

(1) life insurance for the state's employees;

(2) long term care insurance under a long term care insurance policy (as defined in IC 27-8-12-5), for the state's employees; or

(3) an accident and sickness insurance policy (as defined in IC 27-8-5.6-1) that covers individuals to whom coverage is provided by a local unit under section 6.6 of this chapter.

(b) With the consent of the governor, the state personnel department may establish self-insurance programs to provide group insurance other than life or long term care insurance for state employees and retired state employees. The state personnel department may contract with a private agency, business firm, limited liability company, or corporation for administrative services. A commission may not be paid for the placement of the contract. The department may require, as part of a contract for administrative services, that the provider of the administrative services offer to an employee terminating state employment the option to purchase, without evidence of insurability, an individual policy of insurance.

(c) Notwithstanding subsection (a), with the consent of the governor, the state personnel department may contract for health services for state employees and individuals to whom coverage is provided by a local unit under section 6.6 of this chapter through one (1) or more prepaid health care delivery plans.

(d) The state personnel department shall adopt rules under IC 4-22-2 to establish long term and short term disability plans for state employees (except employees who hold elected offices (as defined by IC 3-5-2-17)). The plans adopted under this subsection may include any provisions the department considers necessary and proper and must:

(1) require participation in the plan by employees with six (6) months of continuous, full-time service;

(2) require an employee to make a contribution to the plan in the form of a payroll deduction;

(3) require that an employee's benefits under the short term disability plan be subject to a thirty (30) day elimination period and that benefits under the long term plan be subject to a six (6) month elimination period;

(4) prohibit the termination of an employee who is eligible for benefits under the plan;

(5) provide, after a seven (7) day elimination period, eighty percent (80%) of base biweekly wages for an employee disabled by injuries resulting from tortious acts, as distinguished from

passive negligence, that occur within the employee's scope of state employment;

(6) provide that an employee's benefits under the plan may be reduced, dollar for dollar, if the employee derives income from:

(A) Social Security;

(B) the public employees' retirement fund;

(C) the Indiana state teachers' retirement fund;

(D) pension disability;

(E) worker's compensation;

(F) benefits provided from another employer's group plan; or

(G) remuneration for employment entered into after the disability was incurred.

(The department of state revenue and the department of workforce development shall cooperate with the state personnel department to confirm that an employee has disclosed complete and accurate information necessary to administer subdivision (6).)

(7) provide that an employee will not receive benefits under the plan for a disability resulting from causes specified in the rules; and

(8) provide that, if an employee refuses to:

(A) accept work assignments appropriate to the employee's medical condition;

(B) submit information necessary for claim administration; or

(C) submit to examinations by designated physicians;

the employee forfeits benefits under the plan.

(e) This section does not affect insurance for retirees under IC 5-10.3 or ~~IC 21-6.1.~~ **IC 5-10.4.**

SECTION 21. IC 5-10.2-2-3, AS AMENDED BY P.L.62-2005, SECTION 1, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 3. (a) The annuity savings account consists of:

(1) the members' contributions; and

(2) the interest credits on these contributions in the guaranteed fund or the gain or loss in market value on these contributions in the alternative investment program, as specified in section 4 of this chapter.

Each member shall be credited individually with the amount of the member's contributions and interest credits.

(b) Each board shall maintain the annuity savings account program in effect on December 31, 1995 (referred to in this chapter as the guaranteed program). In addition, the board of the Indiana state teachers' retirement fund shall establish and maintain a guaranteed program within the 1996 account. Each board may establish investment guidelines and limits on all types of investments (including, but not limited to, stocks and bonds) and take other actions necessary to fulfill its duty as a fiduciary of the annuity savings account, subject to the limitations and restrictions set forth in IC 5-10.3-5-3 and ~~IC 21-6.1-3-9.~~ **IC 5-10.4-3-10.**

(c) Each board shall establish alternative investment programs within the annuity savings account of the public employees' retirement fund, the pre-1996 account, and the 1996 account, based on the following requirements:

(1) Each board shall maintain at least one (1) alternative investment program that is an indexed stock fund and one (1) alternative investment program that is a bond fund.

(2) The programs should represent a variety of investment objectives under IC 5-10.3-5-3.

(3) No program may permit a member to withdraw money from

the member's account except as provided in IC 5-10.2-3 and IC 5-10.2-4.

(4) All administrative costs of each alternative program shall be paid from the earnings on that program or as may be determined by the rules of each board.

(5) A valuation of each member's account must be completed as of:

(A) the last day of each quarter; or

(B) another time as each board may specify by rule.

(d) The board must prepare, at least annually, an analysis of the guaranteed program and each alternative investment program. This analysis must:

(1) include a description of the procedure for selecting an alternative investment program;

(2) be understandable by the majority of members; and

(3) include a description of prior investment performance.

(e) A member may direct the allocation of the amount credited to the member among the guaranteed fund and any available alternative investment funds, subject to the following conditions:

(1) A member may make a selection or change an existing selection under rules established by each board. A board shall allow a member to make a selection or change any existing selection at least once each quarter.

(2) The board shall implement the member's selection beginning the first day of the next calendar quarter that begins at least thirty (30) days after the selection is received by the board or an alternate date established by the rules of each board. This date is the effective date of the member's selection.

(3) A member may select any combination of the guaranteed fund or any available alternative investment funds, in ten percent (10%) increments or smaller increments that may be established by the rules of each board.

(4) A member's selection remains in effect until a new selection is made.

(5) On the effective date of a member's selection, the board shall reallocate the member's existing balance or balances in accordance with the member's direction, based on:

(A) for an alternative investment program balance, the market value on the effective date; and

(B) for any guaranteed program balance, the account balance on the effective date.

All contributions to the member's account shall be allocated as of the last day of that quarter or at an alternate time established by the rules of each board in accordance with the member's most recent effective direction. The board shall not reallocate the member's account at any other time.

(f) When a member who participates in an alternative investment program transfers the amount credited to the member from one (1) alternative investment program to another alternative investment program or to the guaranteed program, the amount credited to the member shall be valued at the market value of the member's investment, as of the day before the effective date of the member's selection or at an alternate time established by the rules of each board. When a member who participates in an alternative investment program retires, becomes disabled, dies, or suspends membership and withdraws from the fund, the amount credited to the member shall be the market value of the member's investment as of the last day of the quarter preceding the member's distribution or annuitization at retirement, disability, death, or suspension and withdrawal, plus contributions received after that date or at an alternate time established by the rules of each board.

(g) When a member who participates in the guaranteed program transfers the amount credited to the member to an alternative investment program, the amount credited to the member in the guaranteed program is computed without regard to market value and is based on the balance of the member's account in the guaranteed program as of the last day of the quarter preceding the effective date of the transfer. However, each board may by rule provide for an alternate valuation date. When a member who participates in the guaranteed program retires, becomes disabled, dies, or suspends membership and withdraws from the fund, the amount credited to the member shall be computed without regard to market value and is based on the balance of the member's account in the guaranteed program as of the last day of the quarter preceding the member's distribution or annuitization at retirement, disability, death, or suspension and withdrawal, plus any contributions received since that date plus interest since that date. However, each board may by rule provide for an alternate valuation date.

SECTION 22. IC 5-10.2-2-17 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 17. Fund records of individual members and membership information are confidential, except for the name and years of service of a fund member. However, this section does not prohibit a board from providing fund records to an association described in IC 5-10.3-8-10 or ~~IC 21-6.1-5-17.~~ **IC 5-10.4-5-14.**

SECTION 23. IC 5-10.2-3-1 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 1. (a) Each member's creditable service, for the purpose of computing benefits under this article, consists of all service in a position covered by a retirement fund plus all other service for which the retirement fund law gives credit.

(b) No member may be required to pay any contributions for service before ~~he~~ **the member** is covered by this article as a condition

precedent to receiving benefits under this article. However, ~~he~~ **the member** must furnish proof of the service to the board of the fund under which ~~he~~ **the member** claims service.

(c) A member who has past service as an employee of the state or a participating political subdivision in a position which was not covered by the retirement fund is entitled to credit for this service if the position becomes covered before January 1, 1985, by the Indiana state teachers' retirement fund, the public employees' retirement fund, or the retirement fund for the state board of accounts and if ~~he~~ **the member** submits proof of the service to the secretary of the fund in which ~~he~~ **the member** claims service.

(d) A member who has past service in a position that was not covered by the retirement fund is entitled to credit for this service if the position becomes covered after December 31, 1984, by a fund while ~~he~~ **the member** holds that position or another position with the same employer and if ~~he~~ **the member** submits proof of the service to the director of the fund in which ~~he~~ **the member** claims service.

(e) The proof required by this section must:

(1) be submitted in a form approved by the director;

(2) contain dates and nature of service and other information required by the director; and

(3) be certified by the governing body or its agent.

(f) A member who is a state employee is entitled to service credit for the time the member is receiving disability benefits under a disability plan established under IC 5-10-8-7.

(g) If a participant in the legislators' defined benefit plan does not become entitled to a benefit from that plan, the PERF board or the TRF board shall include the participant's service in the general assembly in the determination of eligibility for, and computation of, benefits under PERF or TRF at the time the participant would be eligible to receive benefits under PERF or TRF. After benefits commence under PERF or TRF with the general assembly service included, the participant's general assembly service may not be used for the computation of benefits under IC 2-3.5-4.

(h) A member may receive service credit for all or a part of the member's creditable service in another governmental retirement plan under IC 5-10.3-7-4.5 and ~~IC 21-6.1-4-4.5.~~ **IC 5-10.4-4-4.** A member may not receive credit for service for which the member receives service credit in another retirement plan maintained by a state, a political subdivision, or an instrumentality of the state for service that PERF or TRF would otherwise give credit.

(i) A member may use all or a part of the member's creditable service under PERF or TRF in another governmental retirement plan under the terms of the other plan. Creditable service used under the other governmental retirement plan may not be used in PERF or TRF.

SECTION 24. IC 5-10.2-4-3 IS AMENDED TO READ AS

FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 3. (a) Except as provided in subsection (f), in computing the retirement benefit for a nonteacher member, "average of the annual compensation" means the average annual compensation calculated using the twenty (20) calendar quarters of service in a position covered by the retirement fund before retirement in which the member's annual compensation was the highest. However, in order for a quarter to be included in the twenty (20) calendar quarters, the nonteacher member must have performed service throughout the calendar quarter. All twenty (20) calendar quarters do not have to be continuous but they must be in groups of four (4) consecutive calendar quarters. The same calendar quarter may not be included in two (2) different groups.

(b) This subsection does not apply to a teacher member described in subsection (c). In computing the retirement benefit for a teacher member, "average of the annual compensation" means the average annual compensation for the five (5) years of service before retirement in which the member's annual compensation was highest. In order for a year to be included in the five (5) years, the teacher member must have received for the year credit under ~~IC 21-6.1-4-2~~ **IC 5-10.4-4-2** for at least one-half (1/2) year of service. The five (5) years do not have to be continuous.

(c) This subsection applies to a member of the Indiana state teachers' retirement fund who serves in an elected position for which the member takes an unpaid leave of absence. In computing the retirement benefit for a teacher member described in this subsection for years of service to which ~~IC 21-6.1-5-7.5~~ **IC 5-10.4-5-7** does not apply, "average of the annual compensation" means the annual compensation for the one (1) year of service before retirement in which the member's annual compensation was highest. In order for a year to be used, the teacher member must have received for the year credit under ~~IC 21-6.1-4-2~~ **IC 5-10.4-4-2** for at least one-half (1/2) year of service.

(d) Subject to IC 5-10.2-2-1.5, "annual compensation" means:

(1) the basic salary earned by and paid to the member plus the amount that would have been part of that salary but for:

(A) the state's, a school corporation's, a participating political subdivision's, or a state educational institution's (as defined in IC 20-12-0.5-1) paying the member's contribution to the fund for the member; or

(B) the member's salary reduction agreement established under Section 125, 403(b), or 457 of the Internal Revenue Code; and

(2) in the case of a member described in subsection (c) and for years of service to which ~~IC 21-6.1-5-7.5~~ **IC 5-10.4-5-7** does not apply, the basic salary that was not paid during the year but would have been paid to the member during the year under the member's employment contracts, if the member had not taken any unpaid leave of absence to serve in an elected position.

The portion of a back pay award or a similar award that the board determines is compensation under an agreement or under a judicial or an administrative proceeding shall be allocated by the board among the years the member earned or should have earned the compensation. Only that portion of the award allocated to the year the award is made is considered to have been earned during the year the award was made. Interest on an award is not considered annual compensation for any year.

(e) Compensation of ~~no~~ **not** more than two thousand dollars ($2,000) received from the employer in contemplation of the member's retirement, including severance pay, termination pay, retirement bonus, or commutation of unused sick leave or personal leave, may be included in the total annual compensation from which the average of the annual compensation is determined, if it is received:

(1) before the member ceases service; or

(2) within twelve (12) months after the member ceases service.

(f) This section applies to a member of the general assembly:

(1) who is a participant in the legislators' retirement system established under IC 2-3.5;

(2) who is also a member of the public employees' retirement fund or the **Indiana** state teachers' retirement fund; and

(3) whose years of service in the general assembly may not be considered in determining the average of the annual compensation under this section, as provided in IC 2-3.5-1-2(b)(2) or IC 2-3.5-3-1(c).

The board shall use the board's actuarial salary increase assumption to project the salary for any previous year needed to determine the average of the annual compensation.

SECTION 25. IC 5-10.2-4-7 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 7. (a) Benefits provided under this section are subject to IC 5-10.2-2-1.5.

(b) A member who retires is entitled to receive monthly retirement benefits, which are guaranteed for five (5) years or until the member's death, whichever is later. A member may select in writing any of the following nonconflicting options for the payment of the member's retirement benefits instead of the five (5) year guaranteed retirement benefit payments. The amount of the optional payments shall be determined under rules of the board and shall be the actuarial equivalent of the benefit payable under sections 4, 5, and 6 of this chapter.

(1) Joint and Survivor Option.

(A) The member receives a decreased retirement benefit during the member's lifetime, and there is a benefit payable after the member's death to a designated beneficiary during the lifetime of the beneficiary, which benefit equals, at the option of the member, either the full decreased retirement benefit or

two-thirds (2/3) or one-half (1/2) of that benefit.

(B) If the member dies before retirement, the designated beneficiary may receive only the amount credited to the member in the annuity savings account unless the designated beneficiary is entitled to survivor benefits under IC 5-10.2-3.

(C) If the designated beneficiary dies before the member retires, the selection is automatically canceled and the member may make a new beneficiary election and may elect a different form of benefit under this subsection.

(2) Benefit with No Guarantee. The member receives an increased lifetime retirement benefit without the five (5) year guarantee specified in this subsection.

(3) Integration with Social Security. If the member retires before the age of eligibility for Social Security benefits, in order to provide a level benefit during the member's retirement the member receives an increased retirement benefit until the age of Social Security eligibility and decreased retirement benefits after that age.

(4) Cash Refund Annuity. The member receives a lifetime annuity purchasable by the amount credited to the member in the annuity savings account, and the member's designated beneficiary receives a refund payment equal to:

(A) the total amount used in computing the annuity at the retirement date; minus

(B) the total annuity payments paid and due to the member before the member's death.

(c) If:

(1) the designated beneficiary dies while the member is receiving benefits; or

(2) the member is receiving benefits, the member marries, either for the first time or following the death of the member's spouse, after the member's first benefit payment is made, and the member's designated beneficiary is not the member's current spouse or the member has not designated a beneficiary;

the member may elect to change the member's designated beneficiary or form of benefit under subsection (b) and to receive an actuarially adjusted and recalculated benefit for the remainder of the member's life or for the remainder of the member's life and the life of the newly designated beneficiary. The member may not elect to change to a five (5) year guaranteed form of benefit. If the member's new election is the joint and survivor option, the member shall indicate whether the designated beneficiary's benefit shall equal, at the option of the member, either the member's full recalculated retirement benefit or two-thirds (2/3) or one-half (1/2) of this benefit. The cost of recalculating the benefit shall be borne by the member and shall be included in the actuarial adjustment.

(d) Except as provided in subsection (c), a member who files for regular or disability retirement may not change:

(1) the member's retirement option under subsection (b);

(2) the selection of a lump sum payment under section 2 of this chapter; or

(3) the beneficiary designated on the member's application for benefits if the member selects the joint and survivor option under subsection (b)(1);

after the first day of the month in which benefit payments are scheduled to begin. For purposes of this subsection, it is immaterial whether a benefit check has been sent, received, or negotiated.

(e) A member may direct that the member's retirement benefits be paid to a revocable trust that permits the member unrestricted access to the amounts held in the revocable trust. The member's direction is not an assignment or transfer of benefits under IC 5-10.3-8-10 or ~~IC 21-6.1-5-17.~~ **IC 5-10.4-5-14.**

SECTION 26. IC 5-10.2-5-6 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 6. Post-Retirement Increase; Cost of Living Increase. (a) The monthly benefit (B) payable on and after July 1, 1977, to a member, or a survivor or beneficiary of a member, who retired or was disabled before July 2, 1972, shall be increased by an amount equal to the benefit payable (J) in June 1977 times one-half percent (1/2%) times the number of years (y) from the member's date of retirement or disability through June 1977.

Expressed mathematically: $B = (1 + .005_y)J$

This subsection does not apply to persons receiving disability benefits under ~~IC 21-6.1-5-2.~~ **IC 5-10.4-5-2.**

(b) As a cost of living increase, the retirement, disability, and survivor benefit payable on and after July 1, 1978, to a member, or a beneficiary or survivor of a member, who retired before July 2, 1977, shall be increased by three percent (3%). This subsection does not apply to benefits payable in a lump sum.

SECTION 27. IC 5-10.2-5-17 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 17. (a) The pension portion (plus postretirement increases to the pension portion), provided by employer contributions, of the monthly benefit payable after June 30, 1988, to a member, or a survivor or beneficiary of a member, who retired or was disabled:

(1) before July 2, 1970, shall be increased by three percent (3%);

(2) after July 1, 1970, and before July 2, 1976, shall be increased by two percent (2%); and

(3) after July 1, 1976, and before July 2, 1981, shall be increased by one percent (1%).

(b) In addition to the increase specified in subsection (a), the pension portion (plus postretirement increases to the pension portion), provided by employer contribution, of the monthly benefit payable after

June 30, 1988, to a member, or a survivor or beneficiary of a member, who retired or was disabled before July 2, 1986, shall be increased by one percent (1%).

(c) The increases specified in this section:

(1) shall be based upon the date of the member's latest retirement or disability;

(2) do not apply to benefits payable in a lump sum; and

(3) are in addition to any other increase provided by law.

(d) **This subsection does not apply to a person described in IC 5-10.4-6-7.** For the period beginning July 1, 1988, through June 30, 1989, the costs of the postretirement increases provided by this section for members of the **Indiana state** teachers' retirement fund shall be charged to the retired teacher annuity reserve. ~~and do not apply to persons covered by section 18 of this chapter.~~

(b) In each case of a teacher requesting a leave of absence to work in a federally supported educational project, the board must determine that the project is educational in nature and serves state citizens who might otherwise be served by the public schools or public institutions of higher education. The board shall make this determination for a one (1) year period, which is later subject to review and reapproval.

(3) The member has at least ten (10) years of in-state service credit.

The time served by a member in military service for the duration of the hostilities or for the length of active service in the hostilities and the necessary demobilization time after the hostilities is not subject to the one-seventh rule ~~specified~~ **set forth** in ~~section 5~~ **section 7** of this chapter. However, not more than six (6) years of military service credit may be granted under this subsection. ~~In order to be eligible for any military service credit under this subsection, a member must have at least ten (10) years of in-state service credit.~~

(c) This subsection applies to ~~members~~ **a member** who ~~retire~~ **retires** after May 1, 1989. A member who had begun but had not completed four (4) years of approved college teacher education before voluntary or involuntary induction into the military services is entitled to service credit in an amount equal to the duration of the member's active military service if the following conditions are met:

(1) The member has an honorable discharge.

(2) Except as provided in subsection ~~(f),~~ **(e),** the member returns to a four (4) year approved college teacher training program ~~within~~ **not later than** eighteen (18) months after the completion of active military service and subsequently completes that program.

demobilization is not subject to the one-seventh rule set forth in section 7 of this chapter. However, not more than six (6) years of military service credit may be granted under this subsection.

~~(e) The maximum amount of service credit that may be granted to a member who meets the conditions of subsection (c), or (d) is six (6) years. However, for purposes of subsection (c), or (d), the time served by the member in active military service for the length of active service in hostilities and necessary demobilization is not subject to the one-seventh rule specified in section 5 of this chapter.~~

~~(f)~~ **(e)** The board shall extend the eighteen (18) month deadline contained in subsection (b)(2), (c)(2), or (d)(2) if the board determines that an illness, an injury, or a disability related to the member's military service prevented the member from returning to active teaching service or to a teacher education program ~~within~~ **not later than** eighteen (18) months after the member's discharge from military service. However, the board may not extend the deadline beyond thirty (30) months after the member's discharge.

~~(g)~~ **(f)** If a member retires, and the board subsequently determines that the member is entitled to additional service credit due to the extension of a deadline under subsection ~~(f),~~ **(e),** the board shall recompute the member's benefit. However, the additional service credit may be used only in the computation of benefits to be paid after the date of the board's determination, and the member is not entitled to a recomputation of benefits received before the date of the board's determination.

~~(h)~~ **(g)** Notwithstanding any provision of this section, a member is entitled to military service credit and benefits in the amount and to the extent required by the **federal** Uniformed Services Employment and Reemployment Rights Act (38 U.S.C. 4301 et seq.), including all later amendments.

(2) The member serves on active duty in the armed services of the United States for at least six (6) months.

(3) The member receives an honorable discharge from the armed services.

(4) Before the member retires, the member makes contributions to the fund as follows:

(i) the member's salary at the time the member actually makes a contribution for the service credit;

(ii) a rate, determined by the actuary of the fund, that is based on the age of the member at the time the member actually makes a contribution for service credit and computed to result in a contribution amount that approximates the actuarial present value of the benefit attributable to the service credit purchased; **and**

(iii) the number of years of service credit the member intends to purchase.

(B) Contributions for any accrued interest, at a rate determined by the actuary of the fund, for the period from the member's initial membership in the fund to the date payment is made by the member.

However, a member is entitled to purchase service credit under this subsection only to the extent that service credit is not granted for that time under another provision of this section. At least ten (10) years of service in Indiana is required before a member may receive a benefit based on service credits purchased under this section. A member who terminates employment before satisfying the eligibility requirements necessary to receive a monthly allowance or receives a monthly allowance for the same service from another tax supported public employee retirement plan other than under the federal Social Security Act may withdraw the purchase amount plus accumulated interest after submitting a properly completed application for a refund to the fund.

~~(j)~~ **(i)** The following apply to the purchase of service credit under subsection ~~(i).~~ **(h):**

(1) The board may allow a member to make periodic payments of the contributions required for the purchase of the service credit. The board shall determine the length of the period during which the payments must be made.

(i) Subject to the provisions of all applicable statutes, the department of local government finance may increase a political subdivision's tax levy to an amount that exceeds the amount originally fixed by the political subdivision if the increase is:

(1) requested in writing by the officers of the political subdivision;

(2) either:

(A) based on information first obtained by the political subdivision after the public hearing under section 3 of this chapter; or

(B) results from an inadvertent mathematical error made in determining the levy; and

(3) published by the political subdivision according to a notice provided by the department.

(j) The department of local government finance shall annually review the budget by fund of each school corporation not later than April 1. The department of local government finance shall give the school corporation written notification specifying any revision, reduction, or increase the department proposes in the school corporation's budget by fund. imposed by a political subdivision; and

(e) The new maximum rate under a statute listed in subsection (d) is the tax rate determined under STEP SEVEN of the following STEPS:

STEP ONE: Determine the maximum rate for the political subdivision levying a property tax or special benefits tax under the statute for the year preceding the year in which the annual adjustment or general reassessment takes effect.

STEP TWO: Determine the actual percentage increase (rounded to the nearest one-hundredth percent (0.01%)) in the assessed value (before the adjustment, if any, under IC 6-1.1-4-4.5) of the taxable property from the year preceding the year the annual adjustment or general reassessment takes effect to the year that the annual adjustment or general reassessment takes effect.

STEP THREE: Determine the three (3) calendar years that immediately precede the ensuing calendar year and in which a statewide general reassessment of real property does not first take effect.

STEP FOUR: Compute separately, for each of the calendar years determined in STEP THREE, the actual percentage increase (rounded to the nearest one-hundredth percent (0.01%)) in the assessed value (before the adjustment, if any, under IC 6-1.1-4-4.5) of the taxable property from the preceding year.

STEP FIVE: Divide the sum of the three (3) quotients computed in STEP FOUR by three (3).

STEP SIX: Determine the greater of the following:
(A) Zero (0).
(B) The result of the STEP TWO percentage minus the STEP FIVE percentage.

STEP SEVEN: Determine the quotient of the STEP ONE tax rate divided by the sum of one (1) plus the STEP SIX percentage increase.

(f) The department of local government finance shall compute the maximum rate allowed under subsection (e) and provide the rate to each political subdivision with authority to levy a tax under a statute

SECTION 44. IC 6-1.1-18-13 IS ADDED TO THE INDIANA CODE AS A **NEW** SECTION TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: [21-2-15-11(b)] ~~(b)~~ **Sec. 13. (a)** The maximum property tax rate levied **under IC 20-46-6** by each school corporation **for the school corporation's capital projects fund** must be adjusted each time a general reassessment of property takes effect. The adjusted property tax rate becomes the new maximum property tax rate for the levy for property taxes first due and payable in each year:

(1) after the general reassessment for which the adjustment was made takes effect; and

(2) before the next general reassessment takes effect.

[21-2-15-11(c)] ~~(c)~~ **(b)** The new maximum rate under this section is the tax rate determined under STEP SEVEN of the following formula:

STEP ONE: Determine the maximum rate for the school corporation for the year preceding the year in which the general reassessment takes effect.

STEP TWO: Determine the actual percentage increase (rounded to the nearest one-hundredth percent (0.01%)) in the assessed value of the taxable property from the year preceding the year the general reassessment takes effect to the year that the general reassessment is effective.

STEP THREE: Determine the three (3) calendar years that immediately precede the ensuing calendar year and in which a statewide general reassessment of real property does not first become effective.

STEP FOUR: Compute separately, for each of the calendar years determined in STEP THREE, the actual percentage increase (rounded to the nearest one-hundredth percent (0.01%)) in the assessed value of the taxable property from the preceding year.

STEP FIVE: Divide the sum of the three (3) quotients computed in STEP FOUR by three (3).

STEP SIX: Determine the greater of the following:

(A) Zero (0).

(B) The result of the STEP TWO percentage minus the STEP FIVE percentage.

STEP SEVEN: Determine the quotient of the STEP ONE tax rate divided by the sum of one (1) plus the STEP SIX percentage increase.

SECTION 54. IC 6-1.1-20-3.2 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 3.2. If a sufficient petition requesting the application of a petition and remonstrance process has been filed as set forth in section 3.1 of this chapter, a political subdivision may not impose property taxes to pay debt service or lease rentals without completing the following procedures:

(1) The proper officers of the political subdivision shall give notice of the applicability of the petition and remonstrance process by:

(A) publication in accordance with IC 5-3-1; and

(B) first class mail to the organizations described in section 3.1(1)(B) of this chapter.

A notice under this subdivision must include a statement that any owners of real property within the political subdivision who want to petition in favor of or remonstrate against the proposed debt

service or lease payments must file petitions and remonstrances in compliance with subdivisions (2) through (4) not earlier than thirty (30) days or later than sixty (60) days after publication in accordance with IC 5-3-1.

(2) Not earlier than thirty (30) days or later than sixty (60) days after the notice under subdivision (1) is given:

(A) petitions (described in subdivision (3)) in favor of the bonds or lease; and

(B) remonstrances (described in subdivision (3)) against the bonds or lease;

may be filed by an owner or owners of real property within the political subdivision. Each signature on a petition must be dated and the date of signature may not be before the date on which the petition and remonstrance forms may be issued under subdivision (3). A petition described in clause (A) or a remonstrance described in clause (B) must be verified in compliance with subdivision (4) before the petition or remonstrance is filed with the county auditor under subdivision (4).

(3) The state board of accounts shall design and, upon request by the county auditor, deliver to the county auditor or the county auditor's designated printer the petition and remonstrance forms to be used solely in the petition and remonstrance process described in this section. The county auditor shall issue to an owner or owners of real property within the political subdivision the number of petition or remonstrance forms requested by the owner or owners. Each form must be accompanied by instructions detailing the requirements that:

(A) the carrier and signers must be owners of real property;

(B) the carrier must be a signatory on at least one (1) petition;

(C) after the signatures have been collected, the carrier must swear or affirm before a notary public that the carrier witnessed each signature;

(D) govern the closing date for the petition and remonstrance period; and

(E) apply to the carrier under section 10 of this chapter.

Persons requesting forms may not be required to identify themselves and may be allowed to pick up additional copies to distribute to other property owners. The county auditor may not issue a petition or remonstrance form earlier than twenty-nine (29) days after the notice is given under subdivision (1). The county auditor shall certify the date of issuance on each petition or remonstrance form that is distributed under this subdivision.

(4) The petitions and remonstrances must be verified in the manner prescribed by the state board of accounts and filed with the county auditor within the sixty (60) day period described in subdivision (2) in the manner set forth in section 3.1 of this

chapter relating to requests for a petition and remonstrance process.

The county auditor may take an additional five (5) days to review and certify the petition or remonstrance for each additional five thousand (5,000) signatures up to a maximum of sixty (60) days. The certificate must state the number of petitioners and remonstrators that are owners of real property within the political subdivision.

(6) If a greater number of owners of real property within the political subdivision sign a remonstrance than the number that signed a petition, the bonds petitioned for may not be issued or the lease petitioned for may not be entered into. The proper officers of the political subdivision may not make a preliminary determination to issue bonds or enter into a lease for the controlled project defeated by the petition and remonstrance process under this section or any other controlled project that is not substantially different within one (1) year after the date of the county auditor's certificate under subdivision (5). Withdrawal of a petition carries the same consequences as a defeat of the petition.

(7) After a political subdivision has gone through the petition and remonstrance process set forth in this section, the political subdivision is not required to follow any other remonstrance or objection procedures under any other law (including section 5 of this chapter) relating to bonds or leases designed to protect owners of real property within the political subdivision from the imposition of property taxes to pay debt service or lease rentals. However, the political subdivision must still receive the approval of the department of local government finance required by:

(1) IC 6-1.1-18.5-8; or ~~IC 6-1.1-19-8.~~

(2) IC 20-46-7-8, IC 20-46-7-9, and IC 20-46-7-10.

(b) The county fiscal officer shall distribute in a calendar year to

each political subdivision located wholly or in part in the county loan proceeds under subsection (a) for that calendar year in the amount by which the property tax collections of the political subdivision in that calendar year are reduced as a result of the application of the credit under this chapter for that calendar year.

(c) If the county fiscal officer distributes money to political subdivisions under subsection (b), the political subdivisions that receive the distributions shall repay the loan under subsection (a) over the term of the loan. Each political subdivision that receives a distribution under subsection (b):

(A) appropriate for each year in which the loan is to be repaid an amount sufficient to pay the part of the principal and interest on the loan attributable to the distribution received by the political subdivision under subsection (b); and

(d) Property taxes imposed under subsection (c)(1)(B) are subject to levy limitations under IC 6-1.1-18.5 or ~~IC 6-1.1-19.~~ **IC 20-45-3.**

the loan under subsection (a) is not a basis for a political subdivision to obtain an excessive tax levy under IC 6-1.1-18.5 or ~~IC 6-1.1-19.~~ **IC 20-45-6.**

(f) The application of the credit under this chapter results in a reduction of the property tax collections of each political subdivision in which the credit is applied. A political subdivision may not increase its property tax levy to make up for that reduction.

SECTION 59. IC 6-1.1-21.5-6 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 6. (a) The receipt by the qualified taxing unit of the loan proceeds is not considered to be part of the ad valorem property tax levy actually collected by the qualified taxing unit for taxes first due and payable during a particular calendar year for the purpose of calculating the levy excess under IC 6-1.1-18.5-17 and ~~IC 6-1.1-19-1.7.~~ **IC 20-44-3.** The receipt by the qualified taxing unit of any payment of delinquent tax owed by a taxpayer in bankruptcy is considered to be part of the ad valorem property tax levy actually collected by the qualified taxing unit for taxes first due and payable during a particular calendar year for the purpose of calculating the levy excess under IC 6-1.1-18.5-17 and ~~IC 6-1.1-19-1.7.~~ **IC 20-44-3.**

(b) The loan proceeds and any payment of delinquent tax may be expended by the qualified taxing unit only to pay debts of the qualified taxing unit that have been incurred pursuant to duly adopted appropriations approved by the department of local government finance for operating expenses.

(c) In the event the sum of the receipts of the qualified taxing unit that are attributable to:

(1) the loan proceeds; and

(2) the payment of property taxes owed by a taxpayer in a bankruptcy proceeding initially filed in 2000 and payable in 2001;

exceeds sixteen million dollars ($16,000,000), the excess as received during any calendar year or years shall be set aside and treated for the calendar year when received as a levy excess subject to IC 6-1.1-18.5-17 or ~~IC 6-1.1-19-1.7.~~ **IC 20-44-3.** In calculating the payment of property taxes as provided in subdivision (2), the amount of property tax credit finally allowed under IC 6-1.1-21-5 in respect to such taxes is ~~deemed to be~~ **considered** a payment of such property

taxes.

(d) As used in this section, "delinquent tax" means any tax owed by a taxpayer in a bankruptcy proceeding initially filed in 2000 and that is not paid during the calendar year for which it was first due and payable.

SECTION 61. IC 6-1.1-21.8-4, AS AMENDED BY P.L.246-2005, SECTION 66, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 4. (a) The board shall determine the terms of a loan made under this chapter. However, the interest charged on the loan may not exceed the percent of increase in the United States Department of Labor Consumer Price Index for Urban Wage Earners and Clerical Workers during the most recent twelve (12) month period for which data is available as of the date that the unit applies for a loan under this chapter. In the case of a qualified taxing unit that is not a school corporation or a public library (as defined in IC 36-12-1-5), a loan must be repaid not later than ten (10) years after the date on which the loan was made. In the case of a qualified taxing unit that is a school corporation or a public library (as defined in IC 36-12-1-5), a loan must be repaid not later than eleven (11) years after the date on which the loan was made. A school corporation or a public library (as defined in IC 36-12-1-5) is not required to begin making payments to repay a loan until after June 30, 2004. The total amount of all the loans made under this chapter may not exceed twenty-eight million dollars ($28,000,000). The board may disburse the proceeds of a loan in installments. However, not more than one-third (1/3) of the total amount to be loaned under this chapter may be disbursed at any particular time without the review of the budget committee and the approval of the budget agency.

The payment of any installment of principal constitutes a first charge against the property tax revenues described in subdivision (1) that are collected by the qualified taxing unit during the calendar year the installment is due and payable.

(c) The obligation to repay a loan made under this chapter is not a basis for the qualified taxing unit to obtain an excessive tax levy under

IC 6-1.1-18.5 or ~~IC 6-1.1-19.~~ **IC 20-45-6.**

(d) Whenever the board receives a payment on a loan made under this chapter, the board shall deposit the amount paid in the counter-cyclical revenue and economic stabilization fund.

(e) This section does not prohibit a qualified taxing unit from repaying a loan made under this chapter before the date specified in subsection (a) if a taxpayer described in section 3 of this chapter resumes paying property taxes to the qualified taxing unit.

(f) Interest accrues on a loan made under this chapter until the date the board receives notice from the county auditor that the county has adopted at least one (1) of the following:

(2) The county option income tax under IC 6-3.5-6.

STEP TWO: Multiply the STEP ONE amount by one and thirty-one thousandths (1.031).

STEP THREE: Multiply the STEP TWO product by two (2).

STEP FOUR: Add the STEP ONE amount to the STEP THREE product.

However, in the case of a qualified taxing unit that is a school corporation, the amount determined under STEP FOUR shall be reduced by the board to the extent that the school corporation receives relief in the form of adjustments to the school corporation's assessed valuation under ~~IC 21-3-1.6-1.1~~ **IC 20-45-4-7** or IC 6-1.1-17-0.5.

SECTION 63. IC 6-1.1-21.8-6, AS AMENDED BY P.L.4-2005, SECTION 42, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 6. (a) As used in this section, "delinquent tax" means any tax:

Any remaining proceeds of a loan made under this chapter and any payment of delinquent taxes by the taxpayer may be expended by the qualified taxing unit only to pay obligations of the qualified taxing unit that have been incurred under appropriations for operating expenses made by the qualified taxing unit and approved by the department of local government finance.

(d) If the sum of the receipts of a qualified taxing unit that are attributable to:

(1) the loan proceeds; and

SECTION 70. IC 20-17-2 IS ADDED TO THE INDIANA CODE AS A **NEW** CHAPTER TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]:

Chapter 2. Effect of Recodification by the Act of the 2006 Regular Session of the General Assembly

[NEW] **Sec. 1. As used in this chapter, "prior law" refers to the statutes concerning education finance, including provisions related to the Indiana state teachers' retirement fund and public school corporation property tax controls, that are repealed or amended in the recodification act of the 2006 regular session of the general assembly as the statutes existed before the effective date of the applicable or corresponding provision of the recodification act of the 2006 regular session of the general assembly.**

[NEW] **Sec. 2. The purpose of the recodification act of the 2006 regular session of the general assembly is to recodify prior law in a style that is clear, concise, and easy to interpret and apply. Except to the extent that:**

(1) the recodification act of the 2006 regular session of the general assembly is amended to reflect the changes made in a provision of another bill that adds to, amends, or repeals a provision in the recodification act of the 2006 regular session of the general assembly; or

(2) the minutes of meetings of the code revision commission during 2005 expressly indicate a different purpose;

the substantive operation and effect of the prior law continue uninterrupted as if the recodification act of the 2006 regular session of the general assembly had not been enacted.

[NEW] **Sec. 3. Subject to section 2 of this chapter, sections 4 through 9 of this chapter shall be applied to the statutory construction of the recodification act of the 2006 regular session of the general assembly.**

[NEW] **Sec. 4. (a) The recodification act of the 2006 regular session of the general assembly does not affect:**

(1) any rights or liabilities accrued;

(2) any penalties incurred;

(3) any violations committed;

(4) any proceedings begun;

(5) any bonds, notes, loans, or other forms of indebtedness issued, incurred, or made;

(6) any tax levies made or authorized;

(7) any funds established;

(8) any patents issued;

(9) the validity, continuation, or termination of any contracts, easements, or leases executed;

(10) the validity, continuation, scope, termination, suspension, or revocation of:

(A) permits;

(B) licenses;

(C) certificates of registration;

(D) grants of authority; or

(E) limitations of authority; or

(11) the validity of court decisions entered regarding the constitutionality of any provision of the prior law;

before the effective date of the recodification act of the 2006 regular session of the general assembly (July 1, 2006). Those rights, liabilities, penalties, violations, proceedings, bonds, notes, loans, other forms of indebtedness, tax levies, funds, patents, contracts, easements, leases, permits, licenses, certificates of registration, grants of authority, and limitations of authority continue and shall be imposed and enforced under prior law as if the recodification act of the 2006 regular session of the general assembly had not been enacted.

(b) The recodification act of the 2006 regular session of the general assembly does not:

(1) extend or cause to expire a permit, license, certificate of registration, or other grant or limitation of authority; or

(2) in any way affect the validity, scope, or status of a license, permit, certificate of registration, or other grant or limitation of authority;

issued under the prior law.

(c) The recodification act of the 2006 regular session of the general assembly does not affect the revocation, limitation, or suspension of a permit, license, certificate of registration, or other grant or limitation of authority based in whole or in part on violations of the prior law or the rules adopted under the prior law.

[NEW] **Sec. 5. The recodification act of the 2006 regular session of the general assembly shall be construed as a recodification of prior law. Except as provided in section 2(1) and 2(2) of this chapter, if the literal meaning of the recodification act of the 2006 regular session of the general assembly (including a literal application of an erroneous change to an internal reference) would result in a substantive change in the prior law, the difference shall be construed as a typographical, spelling, or other clerical error that must be corrected by:**

(1) inserting, deleting, or substituting words, punctuation, or other matters of style in the recodification act of the 2006 regular session of the general assembly; or

(2) using any other rule of statutory construction;

as necessary or appropriate to apply the recodification act of the 2006 regular session of the general assembly in a manner that does not result in a substantive change in the law. The principle of statutory construction, which states that a court must apply the literal meaning of an act if the literal meaning of the act is unambiguous, does not apply to the recodification act of the 2006 regular session of the general assembly to the extent that the

recodification act of the 2006 regular session of the general assembly is not substantively identical to the prior law.

[NEW] **Sec. 6. Subject to section 9 of this chapter, a reference in a statute or rule to a statute that is repealed and replaced in the same or a different form in the recodification act of the 2006 regular session of the general assembly shall be treated after the effective date of the new provision as a reference to the new provision.**

[NEW] **Sec. 7. A citation reference in the recodification act of the 2006 regular session of the general assembly to another provision of the recodification act of the 2006 regular session of the general assembly shall be treated as including a reference to the provision of prior law that is substantively equivalent to the provision of the recodification act of the 2006 regular session of the general assembly that is referred to by the citation reference.**

[NEW] **Sec. 8. (a) As used in the recodification act of the 2006 regular session of the general assembly, a reference to rules adopted under any provision of this title or under any other provision of the recodification act of the 2006 regular session of the general assembly refers to either:**

(1) rules adopted under the recodification act of the 2006 regular session of the general assembly; or

(2) rules adopted under the prior law until those rules have been amended, repealed, or superseded.

(b) Rules adopted under the prior law continue in effect after June 30, 2006, until the rules are amended, repealed, or suspended.

[NEW] **Sec. 9. (a) A reference in the recodification act of the 2006 regular session of the general assembly to a citation in the prior law before its repeal is added in certain sections of the recodification act of the 2006 regular session of the general assembly only as an aid to the reader.**

(b) The inclusion or omission in the recodification act of the 2006 regular session of the general assembly of a reference to a citation in the prior law before its repeal does not affect:

(1) any rights or liabilities accrued;

(2) any penalties incurred;

(3) any violations committed;

(4) any proceedings begun;

(5) any bonds, notes, loans, or other forms of indebtedness issued, incurred, or made;

(6) any tax levies made or authorized;

(7) any funds established;

(8) any patents issued;

(9) the validity, continuation, or termination of contracts, easements, or leases executed;

(10) the validity, continuation, scope, termination, suspension,

or revocation of:

(A) permits;

(B) licenses;

(C) certificates of registration;

(D) grants of authority; or

(E) limitations of authority; or

(11) the validity of court decisions entered regarding the constitutionality of any provision of the prior law;

before the effective date of the recodification act of the 2006 regular session of the general assembly (July 1, 2006). Those rights, liabilities, penalties, violations, proceedings, bonds, notes, loans, other forms of indebtedness, tax levies, funds, patents, contracts, easements, leases, permits, licenses, certificates of registration, grants of authority, and limitations of authority continue and shall be imposed and enforced under prior law as if the recodification act of the 2006 regular session of the general assembly had not been enacted.

(c) The inclusion or omission in the recodification act of the 2006 regular session of the general assembly of a citation to a provision in the prior law does not affect the use of a prior conviction, violation, or noncompliance under the prior law as the basis for revocation of a license, permit, certificate of registration, or other grant of authority under the recodification act of the 2006 regular session of the general assembly, as necessary or appropriate to apply the recodification act of the 2006 regular session of the general assembly in a manner that does not result in a substantive change in the law.

In all cases, the excess distribution shall be determined upon the assumption that the county tax is one hundred percent (100%) collected and all collections are distributed.

(3) "Assessed valuation per student" of any school corporation means the assessed valuation of any school corporation divided by its ~~average daily attendance~~ **ADA** in grades 1 through 12.

SECTION 129. IC 20-26-11-13, AS ADDED BY P.L.1-2005, SECTION 10, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 13. (a) As used in this section, the following terms have the following meanings:

~~(1) "ADM" means the following:~~

~~(A) For purposes of allocating to a transfer student state distributions under IC 21-1-30 (primetime), "ADM" as computed under IC 21-1-30-2.~~

~~(B) For all other purposes, "ADM" as set forth in IC 21-3-1.6-1.1.~~

~~(2)~~ **(1)** "Class of school" refers to a classification of each school or program in the transferee corporation by the grades or special programs taught at the school. Generally, these classifications are denominated as kindergarten, elementary school, middle school or junior high school, high school, and special schools or classes, such as schools or classes for special education, vocational training, or career education.

~~(3)~~ **(2)** "Special equipment" means equipment that during a school year:

(A) is used only when a child with disabilities is attending school;

(B) is not used to transport a child to or from a place where the child is attending school;

(C) is necessary for the education of each child with disabilities that uses the equipment, as determined under the individualized education program for the child; and

(D) is not used for or by any child who is not a child with disabilities.

~~(4)~~ **(3)** "Student enrollment" means the following:

(A) The total number of students in kindergarten through grade 12 who are enrolled in a transferee school corporation on a date determined by the state board.

(B) The total number of students enrolled in a class of school in a transferee school corporation on a date determined by the state board.

However, a kindergarten student shall be counted under clauses (A) and (B) as one-half (1/2) student. The state board may select a different date for counts under this subdivision. However, the same date shall be used for all school corporations making a count for the same class of school.

(b) Each transferee corporation is entitled to receive for each school year on account of each transferred student, except a student transferred under section 6 of this chapter, transfer tuition from the transferor corporation or the state as provided in this chapter. Transfer tuition equals the amount determined under STEP THREE of the following formula:

STEP ONE: Allocate to each transfer student the capital expenditures for any special equipment used by the transfer student and a proportionate share of the operating costs incurred by the transferee school for the class of school where the transfer student is enrolled.

STEP TWO: If the transferee school included the transfer student in the transferee school's ADM for a school year, allocate to the transfer student a proportionate share of the following general fund revenues of the transferee school for, except as provided in clause (C), the calendar year in which the school year ends:

(A) ~~The following~~ State **tuition support** distributions. ~~that are computed in any part using ADM or other student count in which the student is included:~~

~~(i) Primetime grant under IC 21-1-30.~~

~~(ii) Tuition support for basic programs.~~

~~(iii) Enrollment growth grant under IC 21-3-1.7-9.5.~~

~~(iv) At-risk grant under IC 21-3-1.7-9.7.~~

~~(v) Academic honors diploma award under IC 21-3-1.7-9.8.~~

~~(vi) Vocational education grant under IC 21-3-12.~~

~~(vii) Special education grant under IC 21-3-2.1.~~

(B) Property tax levies.

(C) Excise tax revenue (as defined in ~~IC 21-3-1.7-2)~~ **IC 20-43-1-12)** received for deposit in the calendar year in which the school year begins.

(D) Allocations to the transferee school under IC 6-3.5.

STEP THREE: Determine the greater of:

(A) zero (0); or

(B) the result of subtracting the STEP TWO amount from the STEP ONE amount.

If a child is placed in an institution or facility in Indiana under a court order, the institution or facility shall charge the county office of the county of the student's legal settlement under IC 12-19-7 for the use of

the space within the institution or facility (commonly called capital costs) that is used to provide educational services to the child based upon a prorated per student cost.

(c) Operating costs shall be determined for each class of school where a transfer student is enrolled. The operating cost for each class of school is based on the total expenditures of the transferee corporation for the class of school from its general fund expenditures as specified in the classified budget forms prescribed by the state board of accounts. This calculation excludes:

(1) capital outlay;

(2) debt service;

(3) costs of transportation;

(4) salaries of board members;

(5) contracted service for legal expenses; and

(6) any expenditure that is made out of the general fund from extracurricular account receipts;

for the school year.

(d) The capital cost of special equipment for a school year is equal to:

(1) the cost of the special equipment; divided by

(2) the product of:

(A) the useful life of the special equipment, as determined under the rules adopted by the state board; multiplied by

(B) the number of students using the special equipment during at least part of the school year.

(e) When an item of expense or cost described in subsection (c) cannot be allocated to a class of school, it shall be prorated to all classes of schools on the basis of the student enrollment of each class in the transferee corporation compared with the total student enrollment in the school corporation.

(f) Operating costs shall be allocated to a transfer student for each school year by dividing:

(1) the transferee school corporation's operating costs for the class of school in which the transfer student is enrolled; by

(2) the student enrollment of the class of school in which the transfer student is enrolled.

When a transferred student is enrolled in a transferee corporation for less than the full school year of student attendance, the transfer tuition shall be calculated by the part of the school year for which the transferred student is enrolled. A school year of student attendance consists of the number of days school is in session for student attendance. A student, regardless of the student's attendance, is enrolled in a transferee school unless the student is no longer entitled to be transferred because of a change of residence, the student has been excluded or expelled from school for the balance of the school year or for an indefinite period, or the student has been confirmed to have

withdrawn from school. The transferor and the transferee corporation may enter into written agreements concerning the amount of transfer tuition due in any school year. If an agreement cannot be reached, the amount shall be determined by the state board, and costs may be established, when in dispute, by the state board of accounts.

(g) A transferee school shall allocate revenues described in subsection (b) STEP TWO to a transfer student by dividing:

(1) the total amount of revenues received; by

(2) the ADM of the transferee school for the school year that ends in the calendar year in which the revenues are received.

However, for state **tuition support** distributions ~~under IC 21-1-30, IC 21-3-2.1, IC 21-3-12,~~ or any other ~~statute that computes the amount of a state distribution~~ **state distribution computed** using less than the total ADM of the transferee school, the transferee school shall allocate the revenues to the transfer student by dividing the revenues that the transferee school is eligible to receive in a calendar year by the student count used to compute the state distribution.

(h) Instead of the payments provided in subsection (b), the transferor corporation or state owing transfer tuition may enter into a long term contract with the transferee corporation governing the transfer of students. The contract may:

(1) be entered into for a period of not more than five (5) years with an option to renew;

(2) specify a maximum number of students to be transferred; and

(3) fix a method for determining the amount of transfer tuition and the time of payment, which may be different from that provided in section 14 of this chapter.

(i) If the school corporation can meet the requirements of ~~IC 21-1-30-5,~~ **[QUERY: IC 21-1-30-5 IS REPEALED.]** it may negotiate transfer tuition agreements with a neighboring school corporation that can accommodate additional students. Agreements under this section may:

(1) be for one (1) year or longer; and

(2) fix a method for determining the amount of transfer tuition or time of payment that is different from the method, amount, or time of payment that is provided in this section or section 14 of this chapter.

A school corporation may not transfer a student under this section without the prior approval of the child's parent.

(j) If a school corporation experiences a net financial impact with regard to transfer tuition that is negative for a particular school year as described in ~~IC 6-1.1-19-5.1,~~ **IC 20-45-6-8,** the school corporation may appeal for an excessive levy as provided under ~~IC 6-1.1-19-5.1.~~ **IC 20-45-6-8.**

Chapter 3. General Computations; Amounts Used in State Tuition Support Calculations

[21-3-1.7-7] Sec. ~~7.~~ **1.** If a computation under this ~~chapter~~ **article** results in a fraction and a rounding rule is not specified, the fraction shall be rounded as follows:

(1) All tax rates shall be computed by rounding the rate to the nearest one-hundredth of a cent ($0.0001).

(2) All tax levies shall be computed by rounding the levy to the nearest dollar amount ($1).

(4) If a calculation is not covered by subdivision (1), (2), or (3), the result of the calculation shall be rounded to the nearest ten-thousandth (.0001).

[21-3-1.7-2(a)] Sec. 2. (a) ~~As used in this chapter,~~ **This subsection does not apply to a charter school. A school corporation's** excise tax revenue ~~means~~ **is** the sum of:

The department ~~of education~~ may rely on the excise tax revenue amounts certified by the department of local government finance under this ~~subsection~~ **section** in making calculations under this ~~chapter.~~ **article.**

[21-3-1.7-3.1] Sec. ~~3.1.~~ **4.** (a) ~~As used in this chapter,~~ **A school corporation's** previous year revenue ~~for calculations with respect to a school corporation~~ equals **the amount determined under STEP TWO of the following formula:**

~~(1)~~ **STEP ONE: Determine the sum of the following:**

[21-3-1.7-6.6] Sec. ~~6.6.~~ **7.** (a) This subsection does not apply to a charter school. When calculating adjusted ADM for 2006 distributions, this subsection, as effective after December 31, 2005, shall be used to calculate the adjusted ADM for the previous year rather than the calculation used to calculate adjusted ADM for 2005 distributions. For purposes of this ~~chapter,~~ **article,** a school corporation's "adjusted ADM" for the current year is the result determined under the following formula:

STEP ONE: Determine the sum of the following:

(A) The school corporation's ADM for the year preceding the current year by four (4) years multiplied by two-tenths (0.2).

(B) The school corporation's ADM for the year preceding the current year by three (3) years multiplied by two-tenths (0.2).

(C) The school corporation's ADM for the year preceding the current year by two (2) years multiplied by two-tenths (0.2).

(D) The school corporation's ADM for the year preceding the current year by one (1) year multiplied by two-tenths (0.2).

(E) The school corporation's ADM for the current year multiplied by two-tenths (0.2).

Round the result to the nearest five-tenths (0.5).

STEP TWO: Determine the sum of:

(A) the school corporation's ADM for the year preceding the current year; plus

(B) the product of:

(i) the school corporation's ADM for the current year minus the clause (A) amount; multiplied by

(ii) seventy-five hundredths (0.75).

Round the result to the nearest five-tenths (0.5).

STEP THREE: Determine the greater of the following:

(A) The STEP ONE result.

(B) The STEP TWO result.

(b) A charter school's adjusted ADM for purposes of this ~~chapter~~ **article** is the charter school's current ADM.

Chapter 9. Primetime Program

[21-1-30-1 (part)] Sec. 1. The primetime program is established to provide money to encourage school corporations to lower the pupil/teacher ratio in kindergarten through ~~third grade.~~ **grade 3.**

[21-1-30-3(b) (part)] ~~(b)~~ **Sec. 2.** The amount received under this chapter shall be devoted to reducing class size in kindergarten through grade 3.

[21-1-30-1 (part)] **Sec. 3.** The **primetime** program shall be administered by the ~~Indiana~~ state board. ~~of education.~~

[21-1-30-2] Sec. ~~2.~~ **4.** For purposes of computation under this chapter, the following shall be used:

~~(1) Kindergarten pupils shall be counted as five-tenths (0.5). All~~

~~other pupils shall be counted as one (1).~~

~~(2) The number of pupils shall be the number of pupils used in determining ADM as defined by IC 21-3-1.6, for the current year.~~

~~(3)~~ **(1)** The staff cost amount for a school corporation is sixty-nine thousand eight hundred eleven dollars ($69,811).

~~(4)~~ **(2)** The guaranteed **primetime** amount for a school corporation is the primetime allocation, before any penalty is assessed under this chapter, that the school corporation would have received under this chapter for the 1999 calendar year or the first year of participation in the program, whichever is later.

~~(5)~~ **(3)** The following apply to determine whether amounts received under this chapter have been devoted to reducing class size in kindergarten through grade 3 as required by ~~section 3(b)~~ **section 7** of this chapter:

(A) Except as permitted under ~~section 5.5~~ **section 8** of this chapter, only a licensed teacher who is an actual classroom teacher in a regular instructional program is counted as a teacher.

(B) If a school corporation is granted approval under ~~section 5.5~~ **section 8** of this chapter, the school corporation may include as one-third (1/3) of a teacher each classroom instructional aide who meets qualifications and performs duties prescribed by the ~~Indiana~~ state board. ~~of education.~~

~~(6) The complexity index is the index determined under IC 21-3-1.7-6.7.~~

[21-1-30-2.5 (a)] Sec. ~~2.5.~~ **5.** ~~(a)~~ In order to receive a distribution under this chapter, a school corporation must implement the primetime program in the following order:

(1) Grade 1.

(2) Grade 2.

(3) Grade 3 or kindergarten.

(4) The grade not chosen under subdivision (3).

[21-1-30-3(a)] Sec. ~~3.~~ **6.** ~~(a) The amount to be distributed to~~ A school ~~corporation~~ **corporation's primetime distribution for a calendar year** under this chapter is the amount determined by the following formula:

STEP ONE: ~~For a calendar year beginning after December 31, 2004,~~ Determine the applicable target pupil/teacher ratio for the school corporation as follows:

(A) If the school corporation's complexity index is less than one and one-tenth (1.1), the school corporation's target pupil/teacher ratio is eighteen to one (18:1).

(B) If the school corporation's complexity index is at least one and one-tenth (1.1) but less than one and two-tenths (1.2), the school corporation's target pupil/teacher ratio is fifteen (15) plus the result determined in item (iii):

(i) Determine the result of one and two-tenths (1.2) minus the school corporation's complexity index.

(ii) Determine the item (i) result divided by one-tenth (0.1).

(iii) Determine the item (ii) result multiplied by three (3).

(C) If the school corporation's complexity index is at least one and two-tenths (1.2), the school corporation's target pupil/teacher ratio is fifteen to one (15:1).

STEP TWO: Determine the result of:

(A) the ADM of the school corporation ~~as determined under section 2(2) of this chapter,~~ in kindergarten through grade 3 for the current school year; divided by

(B) the school corporation's applicable target pupil/teacher ratio, as determined in STEP ONE.

STEP THREE: Determine the result of:

(A) the total ~~regular general fund~~ **target** revenue ~~(the amount determined in STEP ONE of IC 21-3-1.7-8.2(e) for 2005 and STEP ONE of IC 21-3-1.7-8.2(a)~~ for 2006 and 2007 multiplied by seventy-five hundredths (0.75); divided by

(B) the school corporation's total ADM.

STEP FOUR: Determine the result of:

(A) the STEP THREE result; multiplied by

(B) the ADM of the school corporation ~~as determined under section 2(2) of this chapter~~ in kindergarten through grade 3 for the current school year.

STEP FIVE: Determine the result of:

(A) the STEP FOUR result; divided by

(B) the staff cost amount.

STEP SIX: Determine the greater of zero (0) or the result of:

(A) the STEP TWO amount; minus

(B) the STEP FIVE amount.

STEP SEVEN: Determine the result of:

(A) the STEP SIX amount; multiplied by

(B) the staff cost amount.

STEP EIGHT: Determine the greater of the STEP SEVEN amount or the school corporation's guaranteed **primetime** amount.

STEP NINE: A school corporation's amount under this STEP is the following:

(A) If the amount the school corporation received under this chapter in the previous calendar year is greater than zero (0), the amount under this STEP is the lesser of:

(i) the STEP EIGHT amount; or

(ii) the amount the school corporation received under this chapter for the previous calendar year multiplied by one hundred seven and one-half percent (107.5%).

(B) If the amount the school corporation received under this chapter in the previous calendar year is not greater than zero

(0), the amount under this STEP is the STEP EIGHT amount.

[21-1-30-3(b) (part)] ~~(b)~~ **Sec. 7.** A school corporation shall compile class size data for kindergarten through grade 3 and report the data to the department ~~of education~~ for purposes of maintaining compliance with this chapter.

[21-1-30-5.5] Sec. ~~5.5.~~ **8.** (a) The ~~Indiana~~ state board ~~of education~~ shall approve the counting of classroom instructional aides as teachers under this chapter if the school corporation can substantiate each year that providing adequate classroom space for the attainment of the school corporation's target pupil/teacher ratio creates an unreasonable hardship for that school corporation.

(b) If a school corporation qualifies under subsection (a) for classroom instructional aides, the school corporation shall present to the ~~Indiana~~ state board ~~of education~~ a plan concerning that school corporation's instructional aides program.

[21-1-30-7(a)] Sec. ~~7.~~ **9.** ~~(a)~~ School corporations shall apply for money under this chapter:

(1) on a form prescribed; ~~by~~ **and** ~~the Indiana state board of education on~~

(2) on or before the date designated;

by the ~~Indiana~~ state board. ~~of education.~~

[21-1-30-8] Sec. ~~8.~~ **10.** The ~~Indiana~~ state board ~~of education~~ shall evaluate the effectiveness of the **primetime** program ~~implemented under this chapter~~ and shall monitor compliance by school corporations with this chapter.

[21-1-30-9] Sec. ~~9.~~ **11.** The ~~Indiana~~ state board ~~of education~~ shall adopt rules under IC 4-22-2 to implement this chapter.

Chapter 10. Other Tuition Support Grants

[21-3-1.7-9.8(a) part)] Sec. ~~9.8.~~ **1.** ~~(a)~~ In addition to ~~the distributions~~ **a basic tuition support** ~~under section 8.2 of this chapter,~~ **distribution,** a school corporation is eligible for **the grants provided under this chapter.**

[21-3-1.7-9.8(a) part)] ~~an~~ **Sec. 2. (a) A school corporation's academic** honors diploma award ~~in~~ **for a calendar year is** the amount determined under STEP TWO of the following formula:

STEP ONE: Determine the number of the school corporation's eligible pupils who successfully completed an academic honors diploma program in the school year ending in the previous calendar year.

STEP TWO: Multiply the STEP ONE amount by nine hundred dollars ($900).

(b) An amount received by a school corporation as an honors diploma award may be used only for:

(1) any:

(A) staff training;

(B) program development;

(C) equipment and supply expenditures; or
(D) other expenses;
directly related to the school corporation's academic honors diploma program; and
(2) the school corporation's program for high ability students.

(c) A governing body that does not comply with this section for a school year is not eligible to receive an **academic honors diploma** award ~~under this section~~ for the following school year.

~~STEP THREE:~~ **(c)** This ~~STEP~~ **subsection** applies only if the ~~amount determined in STEP SEVEN of the formula in section 6.7(c) of this chapter~~ **school corporation's guaranteed minimum revenue for the calendar year** is equal to the ~~STEP ONE result~~ **school corporation's foundation amount revenue for a calendar year** and the **STEP ONE** result ~~of clause (A)~~ is greater than zero (0). ~~Determine~~ **The school corporation's tax rate floor for the calendar year is** the result under ~~clause (G)~~ **STEP SEVEN** of the following formula:

~~(A)~~ **STEP ONE:** Add the following:

~~(i)~~ **(A)** An amount equal to the annual decrease in federal aid to impacted areas from the year preceding the ensuing calendar year by three (3) years to the year preceding the ensuing calendar year by two (2) years.

~~(ii)~~ **(B)** The part of the ~~maximum general fund~~ **unadjusted tuition support** levy for the year that equals the original amount of the levy imposed by the school corporation to cover the costs of opening a new school facility during the preceding year.

~~(B)~~ **STEP TWO:** Divide the ~~clause (A)~~ **STEP ONE** result by the school corporation's current ADM.

~~(C)~~ **STEP THREE:** Divide the school corporation's assessed valuation by the school corporation's current ADM.

~~(D)~~ **STEP FOUR:** Divide the ~~clause (C)~~ **STEP THREE** result by ten thousand (10,000).

~~(E)~~ **STEP FIVE:** Determine the greater of the following:

~~(i)~~ **(A)** The ~~clause (D)~~ **STEP FOUR** result.

~~(ii)~~ **(B)** Thirty-six dollars and thirty cents ($36.30).

~~(F)~~ **STEP SIX:** Divide the ~~clause (B)~~ **STEP TWO** result by the ~~clause (E)~~ **STEP FIVE** amount.

~~(G)~~ **STEP SEVEN:** Divide the ~~clause (F)~~ **STEP SIX** result by one hundred (100).

[21-3-1.7-6.8(b) (part)] ~~STEP FOUR: This STEP applies to all school corporations. Determine~~ **Sec. 6. A school corporation's target property tax rate for a calendar year is** the sum of:

~~(A)~~ **(1)** seventy-two ~~and~~ cents ($0.72) in 2006 and seventy-two

and ninety-two hundredths cents ($0.7292) in 2007; plus

~~(B)~~ **(2)** if applicable, the ~~STEP TWO or STEP THREE result.~~ **school corporation's minimum equalization tax rate.**

[6-1.1-19-1.5(a)(part)] ~~(2)~~ **Sec. 7. A school corporation's** adjusted target property tax rate ~~means:~~ **for a calendar year is equal to:**

~~(A)~~ **(1)** the school corporation's target ~~general fund~~ property tax rate; ~~determined under IC 21-3-1.7-6.8;~~ multiplied by

~~(B)~~ **(2)** the school corporation's adjustment factor.

[6-1.1-19-1.5 (b)] ~~(b) Except as otherwise provided in this chapter,~~ **Sec. 8.** A school ~~corporation may not impose a general fund ad valorem property tax levy which exceeds the following:~~

~~STEP ONE: Determine~~ **corporation's equalization tax rate limit for a calendar year is** the result of:

~~(A)~~ **(1)** the school corporation's adjusted target property tax rate; minus

~~(B)~~ **(2)** the school corporation's previous year property tax rate.

[6-1.1-19-1.5 (b)] ~~STEP TWO:~~ **Sec. 9. (a) A school corporation's equalization tax rate for a calendar year is the tax rate determined under this section.**

(b) If the school corporation's adjusted target property tax rate ~~(A)~~ exceeds the school corporation's previous year property tax rate, the ~~result under this STEP for the~~ school ~~corporation~~ **corporation's equalization tax rate for a calendar year** is the school corporation's previous year property tax rate after increasing the rate by the lesser of:

~~(i)~~ **(1)** the ~~STEP ONE result;~~ **school corporation's equalization tax rate limit for the calendar year;** or

~~(ii)~~ **(2)** three cents ($0.03). ~~or (B)~~

(c) If the school corporation's adjusted target property tax rate is less than the school corporation's previous year property tax rate, the ~~result under this STEP~~ **school corporation's equalization tax rate for a calendar year** is the school corporation's previous year property tax rate after reducing the rate by the lesser of:

~~(i)~~ **(1)** the absolute value of the ~~STEP ONE result;~~ **school corporation's equalization tax rate limit**; or

~~(ii)~~ **(2)** eight cents ($0.08); ~~or (C)~~

(d) If the school corporation's adjusted target property tax rate equals the school corporation's previous year property tax rate, the ~~result under this STEP~~ **school corporation's equalization tax rate for a calendar year** is the school corporation's adjusted target property tax rate.

[6-1.1-19-1.5 (b)] **Sec. 10. A school corporation's equalized levy for a calendar year is the result determined under STEP TWO of the following formula:**

STEP ~~THREE:~~ **ONE:** Divide the school corporation's total assessed value by one hundred dollars ($100).

STEP ~~FOUR:~~ **TWO:** Multiply the ~~STEP TWO result~~ **school**

corporation's equalization tax rate by the STEP ~~THREE~~ **ONE** result.

[6-1.1-19-1.5 (b)] ~~STEP FIVE: Determine~~ **Sec. 11. A school corporation's tuition support levy for a calendar year is** the sum of the following:

(A) The ~~STEP FOUR result.~~ **school corporation's equalized levy for the calendar year.**

(B) An amount equal to the annual decrease in federal aid to impacted areas from the year preceding the ensuing calendar year by three (3) years to the year preceding the ensuing calendar year by two (2) years.

(C) The part of the maximum ~~general fund~~ **permissible tuition support** levy for the year that equals the original amount of the levy by the school corporation to cover the costs of opening a new school facility or reopening an existing facility during the preceding year.

(D) The amount determined under ~~item (iv)~~ **STEP FOUR** of the following formula:

~~(i)~~ **STEP ONE:** Determine the target revenue per ADM ~~under IC 21-3-1.7-6.7~~ for each charter school that included at least one (1) student who has legal settlement in the school corporation in the charter school's current ADM.

~~(ii)~~ **STEP TWO:** For each charter school, multiply the ~~item (i)~~ **STEP ONE** amount by the number of students who have legal settlement in the school corporation and who are included in the charter school's current ADM.

~~(iii)~~ **STEP THREE:** Determine the sum of the ~~item (ii)~~ **STEP TWO** amounts.

~~(iv)~~ **STEP FOUR:** Multiply the ~~item (iii)~~ **STEP THREE** amount by thirty-five hundredths (0.35).

~~In determining the number of students for purposes of this clause, each kindergarten pupil shall be counted as one-half (1/2) pupil.~~

Chapter 4. Review by County Board of Tax Adjustment or County Auditor; Appeals

[6-1.1-19-2(a)] Sec. ~~2.~~ **1.** ~~(a)~~ A county board of tax adjustment may not approve or recommend the approval of an excessive tax levy.

to determine the net financial impact of transfer tuition on the

particular school corporation for the school year ending in the calendar year immediately preceding the ensuing calendar year or the calendar year that precedes the ensuing calendar year by two (2) years, or both. If the school corporation determines from the analysis that the amount of revenue received by the school corporation under subdivision (2) is less than the amount of transfer tuition payments made by the school corporation under subdivision (1), the school corporation may include the amount attributable to the difference between the subdivision (1) and subdivision (2) amounts in the school corporation's appeal for an excessive **tax** levy under ~~this chapter.~~ **IC 6-1.1-19.** However, a school corporation may not include the amount of a particular deficit in more than one (1) appeal.

~~(d)~~ **(4)** That modification in the present statutory provisions pertaining to the levying of tax rates for school purposes for ~~such~~ **the** areas ~~as~~ **that** qualify within the definitions in this chapter is essential to carry out the purposes of IC 20-23-4, and to that end it is the intent of ~~this~~ **the** general assembly, by this chapter, to make provision for a more satisfactory use of the taxable wealth of counties that qualify under this chapter for the promotion, betterment, and improvement of their educational systems.

[21-2-11.6-4(b) (part)] ~~(2)~~ **Sec. 2. As used in this chapter,** "excessive tax levy" has the meaning set forth in ~~IC 6-1.1-19-1.~~ **IC 20-45-1-11.**

[NEW] **Sec. 3. As used in this chapter, "fund" refers to the referendum tax levy fund.**

[NEW] **Sec. 4. As used in this chapter, "levy" refers to the property tax levy imposed under this chapter.**

[NEW] **Sec. 5. As used in this chapter, "referendum" refers to a referendum under this chapter.**

[21-2-11.6-3(b)] ~~(b)~~ **Sec. 6.** A school corporation may impose a referendum tax levy **for the school corporation's fund** in the amount allowed under: ~~IC 6-1.1-19-4.5(c) for the school corporation.~~

(1) section 7 of this chapter; or

(2) sections 8 through 19 of this chapter;

or both.

[21-2-11.6-4 (part)] Sec. ~~4.~~ **7.** (a) This section applies to a school corporation that added an amount to the school corporation's base tax levy before 2002 as the result of the approval of an excessive tax levy by the majority of individuals voting in a referendum held in the area served by the school corporation under IC 6-1.1-19 **(before its repeal).**

~~(c)~~ **(b)** A school corporation may adopt a resolution before September 21, 2005, to transfer the power of the school corporation to levy the amount described in subsection (a) from the school corporation's general fund to the school corporation's ~~referendum tax levy~~ fund. A school corporation that adopts a resolution under this section shall, as soon as practicable after adopting the resolution, send a certified copy of the resolution to the department of local government finance and the county **auditor.** A school corporation that adopts a resolution under this ~~subsection~~ **section** may, for property taxes first due and payable after 2005, levy an additional amount for the ~~referendum tax levy~~ fund that does not exceed the amount of the ~~excess~~ **excessive** tax levy added to the school corporation's base tax levy before 2002.

Upon receipt of the certified resolution, the tax control board shall proceed in the same manner as the tax control board would for any other ~~referendum tax~~ levy being reimposed or extended under ~~IC 6-1.1-19-4.5(c).~~ **this chapter.** However, if requested by the school corporation in the resolution adopted under subdivision (1), the question of reimposing or extending a ~~referendum tax~~ levy transferred to the ~~referendum tax levy~~ fund under this section may be combined with a question presented to the voters to reimpose or extend a ~~referendum tax~~ levy initially imposed after 2001. A ~~referendum tax~~ levy reimposed or extended under this subsection shall be treated for all purposes as a ~~referendum tax~~ levy reimposed or extended under IC 6-1.1-19-4.5(c) **(before its repeal) and this chapter, after June 30, 2006.**

~~(e)~~ **(d)** The school corporation's ~~referendum tax~~ levy under ~~subsection (c)~~ **this section** may not be considered in the determination of the school corporation's state tuition support under ~~IC 21-3-1.7~~ **IC 20-43** or the determination of the school corporation's maximum ~~general fund tax~~ **permissible tuition support** levy under ~~IC 6-1.1-19 and IC 21-3-1.7.~~ **IC 20-45-3.**

(b) In addition to, or in lieu of, any recommendation that the tax control board may make ~~under this section,~~ **in an appeal,** the tax control board may recommend that the appellant school corporation be permitted to make a ~~referendum tax~~ levy for the ensuing calendar year under this ~~subsection. The~~ **chapter.**

[6-1.1-19-4.5(c) (part)] **Sec. 9. A tax control board** recommendation **under this chapter** may ~~not~~ be put into effect ~~until~~ **only if:**

~~(1) Whenever:~~

~~(A) the tax control board recommends to the department of local government finance that the appellant school corporation be permitted to make a referendum tax levy for the ensuing calendar year if a majority of the individuals voting in a referendum held in the appellant school corporation approves the appellant school corporation's making a referendum tax levy;~~

~~(B)~~ **(2)** the department of local government finance ~~gives the board's written approval of~~ **approves** the recommendation **in writing;** and

[6-1.1-19-4.5(c) (part)] ~~(3)~~ **Sec. 12.** The tax control board shall act under IC 3-10-9-3 to certify the question to be voted on at the

(1) the amount determined by multiplying:

(A) the school corporation's levy for the ~~school transportation~~ fund for the previous year **under IC 21-2-11.5 (before its repeal) or this chapter,** as that levy was determined by the department of local government finance in fixing the civil taxing unit's budget, levy, and rate for that preceding calendar year under IC 6-1.1-17 and after eliminating the effects of temporary excessive levy appeals and any other temporary adjustments made to the levy for the calendar year; by

The department of local government finance may grant a maximum operating costs levy increase that is less than the increase requested by the school corporation.

Chapter 3. Borrowing; Indianapolis Public Schools

[NEW] **Sec. 1. This chapter applies only to a school city to which IC 20-25 applies.**

[NEW] **Sec. 2. As used in this chapter, "board" has the meaning set forth in IC 20-25-2-5.**

[NEW**] Sec. 3. As used in this chapter, "school city" has the meaning set forth in IC 20-25-2-12.**

[20-25-4-6] Sec. ~~6.~~ **4.** (a) The board may periodically, as the need arises, borrow money and issue school building bonds to supply the school city with funds:

(1) to buy real estate;

(2) to erect buildings for school or administrative purposes;

(3) to enlarge, remodel, and repair school buildings; or

(4) for one (1) or more of the purposes described in subdivisions (1) through (3).

The proceeds of the sale of bonds under this subsection may not be used for a purpose other than a purpose described in subdivisions (1) through (4).

(b) The board may periodically, as the need arises, issue school funding bonds to take up and retire the principal and accrued interest of any outstanding bonds of the school city. School funding bonds may be issued only if the board determines it is to the advantage of the

school city to refund the outstanding bonds of the school city. A school funding bond may not be issued and the proceeds of a school funding bond may not be used for a purpose other than to refund or take up and discharge outstanding bonds of the school city. Any preexisting bonds for which the school city is liable under **IC 20-25-4,** this chapter, **or a predecessor law** are outstanding bonds of the school city under this subsection.

(c) Before school building bonds may be issued under subsection (a), the board shall, by a resolution entered into the record in the board's corporate minutes, demonstrate a particular need for the money and the inability of the school city to supply the money from any other applicable fund under the control of the board. Before school funding bonds may be issued under subsection (b), the board shall, by a resolution entered into the record of the board's corporate minutes, provide a description of the bonds to be taken up, including the kind, date, date of maturity, and amount of the bonds.

(d) Bonds issued under this section must:

(1) be serial bonds;

(2) bear interest at a rate payable semiannually; and

(3) mature at a time or times fixed in the resolution of the board.

(e) A bond to be issued under this section may not be delivered until the price of the bond is paid to the treasurer of the school city in:

(1) money for school building bonds; or

(2) money or bonds to be refunded for school funding bonds.

A bond issued under this section may not accrue interest before its delivery.

(f) A bond issued under this section must be payable to bearer and be of the general form usual in municipal bonds.

(g) Before offering bonds authorized by this section for sale, the board must give three (3) weeks notice of the date fixed for the sale of the bonds. The notice must include a description of the bonds and invite bids for the bonds. The notice shall be given by three (3) advertisements, one (1) time each week for the three (3) consecutive weeks immediately preceding the day of sale in a newspaper published and with a general circulation in Indianapolis. Notice may also be required in other advertisements if ordered by the board.

(h) The board shall sell the bonds to the highest and best bidder and has the right to reject any bid. The proceeds arising from the sale shall be used only for the purpose declared in the resolution of the board.

[20-25-4-7] Sec. ~~7.~~ **5.** (a) The board may, if the board's general fund is exhausted or in the board's judgment is in danger of exhaustion, make temporary loans for the use of the board's general fund to be paid out of the proceeds of taxes levied by the school city for the board's general fund. The amount borrowed for the general fund must be paid into the board's general fund and may be used for any purpose for which the board's general fund lawfully may be used. A temporary loan

must:

(1) be evidenced by the promissory note or notes of the school city;

(2) bear interest that is payable, according to the note or notes, periodically or at the maturity of the note or notes and at not more than seven percent (7%) per annum; and

(3) mature at a time or times determined by the board, but not later than one (1) year after the date of the note or notes.

Loans made in a calendar year may not be for a sum greater than the amount estimated by the board as proceeds to be received by the board from the levy of taxes made by the school city for the board's general fund. Successive loans may be made to aid the general fund in a calendar year, but the total amount of successive loans outstanding at any time may not exceed the estimated proceeds of taxes levied for the board's general fund.

(b) A loan under this section may not be made until notice asking for bids is given by newspaper publication. Notice must be made one (1) time in a newspaper published in the school city at least seven (7) days before the time the bids for the loans will be opened. A bidder shall name the amount of interest the bidder agrees to accept, not exceeding seven percent (7%) per annum. The loan shall be made to the bidder or bidders bidding the lowest rate of interest. The note, notes, or warrants may not be delivered until the full price of the face of the loan is paid to the treasurer of the school city, and interest does not accrue on the loan until delivery.

[20-25-4-8] Sec. ~~8.~~ **6.** (a) A school city wishing to make a temporary loan for its general fund under this section may temporarily borrow money, without payment of interest, from the school city's treasury if the school city has in its treasury money derived from the sale of bonds that cannot or will not in the due course of the business of the school city be expended in the near future. A school city shall, by its board, take the following steps required by law to obtain a temporary loan under this section:

(1) Present to the department of local government finance and the state board of accounts:

(A) a copy of the corporate action of the school city concerning the school city's desire to make a temporary loan;

(B) a petition showing the particular need for a temporary loan;

(C) the amount and the date or dates when the general fund will need the temporary loan or the installments of the loan;

(D) the date on which the loan and each installment of the loan will be needed;

(E) the estimated amounts from taxes to come into the general fund;

(F) the dates when it is expected the proceeds of taxes will be

received by the school city for the general fund;

(G) the amount of money the school city has in each fund derived from the proceeds of the sale of bonds that cannot or will not be expended in the near future; and

(H) a showing of when, to what extent, and why money in the bond fund will not be expended in the near future.

(2) Request the department of local government finance and the state board of accounts to authorize a temporary loan from the bond fund for the general fund.

(b) If:

(1) the department of local government finance finds and orders that there is need for a temporary loan and that it should be made;

(2) the state board of accounts finds that the money proposed to be borrowed will not be needed during the period of the temporary loan by the fund from which it is to be borrowed; and

(3) the state board of accounts and the department of local government finance approve the loan;

the business manager and treasurer of the school city shall, upon the approval of the state board of accounts and the department of local government finance, take all steps necessary to transfer the amount of the loans as a temporary loan from the fund to be borrowed from to the general fund of the school city. The loan is a debt of the school city chargeable against its constitutional debt limit.

(c) The state board of accounts and the department of local government finance:

(1) may fix the total amount that may be borrowed on a petition; and

(2) shall determine:

(A) at what time or times;

(B) in what installments; and

(C) for what periods;

the money may be borrowed.

The treasurer and business manager of the school city, as money is collected from taxes levied in behalf of the general fund, shall credit the amount of money collected from taxes levied to the loan until the amount borrowed is fully repaid to the lending fund. The treasurer and business manager of the school city shall at the end of each calendar month report to the board the amounts applied from taxes to the payment of the loan.

(d) The school city shall, as often as once a month, report to both the state board of accounts and the department of local government finance:

(1) the amount of money borrowed and unpaid;

(2) any anticipated similar borrowings for the current month;

(3) the amount left in the general fund; and

(4) the anticipated drafts on the bond fund for the purposes for

which the fund was created.

(e) The state board of accounts and the department of local government finance, or either acting independently:

(1) if it appears that the fund from which the loan was made requires the repayment of all or part of the loan before maturity; or

(2) if the general fund no longer requires all or some part of the proceeds of the loan;

may require the school city to repay all or part of the loan. A school city shall, if necessary to repay all or part of a loan under this subsection, exercise its power to obtain a temporary loan from others under ~~section 7~~ **section 5** of this chapter to raise the money needed to repay the bond fund the amount ordered repaid.

[20-25-4-9] Sec. ~~9.~~ **7.** A school city shall provide for the payment and retirement of debt obligations of the school city in the manner provided under ~~IC 21-2-21-5,~~ ~~IC 21-2-21-10,~~ **IC 20-46-7, IC 20-48-1-6,** and ~~IC 21-2-4.~~ **IC 20-48-1-11.**

an adjusted value of the taxable property within each political subdivision. The department of local government finance may request a certification of net assessed valuation from the county auditor in order to make a calculation under this section.

SECTION 191. IC 36-7-15.1-26.9 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2006]: Sec. 26.9. (a) The definitions set forth in section 26.5 of this chapter apply to this section.

(b) The fiscal officer of the consolidated city shall publish in the newspaper in the county with the largest circulation all determinations

made under section 26.5 or 26.7 of this chapter that result in the allowance or disallowance of credits. The publication of a determination made under section 26.5 of this chapter shall be made not later than June 20 of the year in which the determination is made. The publication of a determination made under section 26.7 of this chapter shall be made not later than December 5 of the year in which the determination is made.

(c) If credits are granted under section 26.5(g) or 26.5(h) of this chapter, whether in whole or in part, property taxes on personal property (as defined in IC 6-1.1-1-11) that are equal to the aggregate amounts of the credits for all taxpayers in the allocation area under section 26.5(g) and 26.5(h) of this chapter shall be:

(1) allocated to the redevelopment district;

(2) paid into the special fund for that allocation area; and

(3) used for the purposes specified in section 26 of this chapter.

(d) The county auditor shall adjust the estimate of assessed valuation that the auditor certifies under IC 6-1.1-17-1 for all taxing units in which the allocation area is located. The county auditor may amend this adjustment at any time before the earliest date a taxing unit must publish the unit's proposed property tax rate under IC 6-1.1-17-3 in the year preceding the year in which the credits under section 26.5(g) or 26.5(h) of this chapter are paid. The auditor's adjustment to the assessed valuation shall be:

(1) calculated to produce an estimated assessed valuation that will offset the effect that paying personal property taxes into the allocation area special fund under subsection (c) would otherwise have on the ability of a taxing unit to achieve the taxing unit's tax levy in the following year; and

(2) used by the county board of tax adjustment, the department of local government finance, and each taxing unit in determining each taxing unit's tax rate and tax levy in the following year.

(e) The amount by which a taxing unit's levy is adjusted as a result of the county auditor's adjustment of assessed valuation under subsection (d), and the amount of the levy that is used to make direct payments to taxpayers under section 26.5(h) of this chapter, is not part of the total county tax levy under IC 6-1.1-21-2(g) and is not subject to IC 6-1.1-20.

(f) The ad valorem property tax levy limits imposed by IC 6-1.1-18.5-3 and ~~IC 6-1.1-19-1.5~~ **IC 20-45-3** do not apply to ad valorem property taxes imposed that are used to offset the effect of paying personal property taxes into an allocation area special fund during the taxable year under subsection (d) or to make direct payments to taxpayers under section 26.5(h) of this chapter. For purposes of computing the ad valorem property tax levy limits imposed under IC 6-1.1-18.5-3 and ~~IC 6-1.1-19-1.5,~~ **IC 20-45-3,** a taxing unit's ad valorem property tax levy for a particular calendar year does not

include that part of the levy imposed to offset the effect of paying personal property taxes into an allocation area special fund under subsection (d) or to make direct payments to taxpayers under section 26.5(h) of this chapter.

(g) Property taxes on personal property that are deposited in the allocation area special fund:

(1) are subject to any pledge of allocated property tax proceeds made by the redevelopment district under section 26(d) of this chapter, including but not limited to any pledge made to owners of outstanding bonds of the redevelopment district of allocated taxes from that area; and

(2) may not be treated as property taxes used to pay interest or principal due on debt under IC 6-1.1-21-2(g)(1)(D).
