Property Tax Management System
Code List Manual

Purpose

The *50 IAC 26 Computer Standards for a Uniform and Common Property Tax Management System* refers to the Property Tax Management System Code List Manual which provides a comprehensive code list for the property tax management system. The Property Tax Management System Code List Manual encompasses codes required for data submission to the Department of Local Government Finance (DLGF) and Legislative Services Agency (LSA) by local governments for property tax management datasets.

Code lists are provided in numeric order and may be updated periodically to meet legislative and/or agency rule requirements.

Code List Instructions

The following rules apply to all code lists:

1. All numeric fields must have leading zeros if field value does not utilize all available spaces.
2. When capturing data as designated by a code list, the item must adhere to the designated code list.
3. Alpha characters must be capitalized.

If a county needs a code list to be modified they must notify the DLGF and LSA for consideration.

Code List 1 - Property Class Codes

Applied to the following fields for data submission to DLGF and LSA:
