

Indiana Family Preservation  
Data Overview

Department of Child Services

August 10, 2021

**Instructions:**

- The numbers contained in this report focus on all child and families involved in the Indiana Family Preservation Services. Total children is a count of unique children ID numbers. Total families is a count of unique case ID numbers.
- Overall numbers are differentiated from services that have lasted 90 days. Indiana Family Preservation Service Standard allows providers 90 days to address the symptoms of why a family is involved with the Indiana Department of Child Services
- Percentage calculations are calculated over two different populations, total children and children that have received the service for at least 90 days:
- **TOTAL CALCULATIONS**
  - *Percentage of Children with Removal* =  $\frac{\text{Total Children with Removal}}{\text{Total Children in Care}}$
  - *Percentage of Families with Removal* =  $\frac{\text{Total Families with Removal}}{\text{Total Families in Care}}$
- **90 DAY CALCULATIONS**
  - *Percentage of Children that have reached 90 days with removal* =  $\frac{\text{Total Children that have reached 90 days with removal}}{\text{Total Children that have reached 90 days}}$
  - *Percentage of Families that have reached 90 days with removal* =  $\frac{\text{Total Families that have reached 90 days with removal}}{\text{Total Families that have reached 90 days}}$
- *Note:* Regional calculations use totals of children / families within the specific region and the time period.
