IN RE: PLAINVILLE WATERFLOOD UNIT

**PETITION OF CENTAUR PETROLEUM CORPORATION FOR
THE INTEGRATION OF LEASEHOLD INTERESTS LOCATED IN
SECTION 2, TOWNSHIP 4 NORTH, RANGE 7 WEST IN DAVIESS
COUNTY, INDIANA.**

PETITION FOR INTERGRATION OF OIL AND GAS INTERESTS

NOW COMES, Petitioner, **CENTAUR PETROLEUM CORPORATION**, a Texas Corporation, for its Petition For Integration of Oil and Gas Interests, pursuant to Indiana Code Section 14-37-9-1(a) and 312 IAC 29-19-1 of the Indiana Administrative Code as follows:

1. Petitioner, **CENTAUR PETROLEUM CORPORATION**, (Petitioner), is a Texas Corporation, with offices located at 3724 W. 7th Street, Fort Worth, Texas 76107 and a mailing address of PO Box 270 Fort Worth, Texas 76101, and a local facility at 102 Johns Street, Hwy 57 W, Plainville, Indiana, 47568.
2. Petitioner is the operator and a working interest owner of certain oil and gas leases comprising Tracts 1 through 11 located in Daviess County, Indiana, more particularly described on “**EXHIBIT A**”, attached hereto and has historically been referred to as the Plainville Pool, or portions thereof. Said leases comprising Tracts 1 through 11 are hereinafter described collectively as the “**Tracts**”. Oil and Gas Leases described on “**EXHIBIT A**” control the entire fee Oil and Gas interests in the “**Tracts**” of the proposed **PLAINVILLE WATERFLOOD UNIT**.
3. Petitioner seeks to unitize said “**Tracts**” to form an integrated production unit designated as the **PLAINVILLE WATERFLOOD UNIT** for the purposes of continued secondary and/or other enhanced recovery methods of the oil and gas reserves underlying therein and consolidation of operations for the purposes as follows.
 - a.) To enhance the efficiency of the existing secondary recovery of the Oil and Gas Reserves.
 - b.) To minimize the surface area environmental footprint by consolidation of above ground storage and gathering facilities and appurtenances thereto.

- c.) To increase the productive economic longevity of the recoverable Oil and Gas Reserves for the continued benefit of the Royalty and Working Interest owners.
 - d.) To increase the efficiency of waterflood operating maintenance and reduce the environmental impact and Carbon Footprint (GHG).
4. The subject **“Tracts”** have been continually producing since 1949, and Petitioner has operated the **“Tracts”** for the past 37 years, and all **“Tracts”** are in pay status.
 5. Attached hereto as **“EXHIBIT B”** is a plat and an aerial view map showing the boundaries of the proposed **PLAINVILLE WATERFLOOD UNIT** and Tracts 1 through 11 thereof.
 6. Petitioner has attached hereto as **“EXHIBIT C”** a proposed percentage allocation of production from the proposed **PLAINVILLE WATERFLOOD UNIT**. The methodology used to calculate the allocation of the produced Oil and Gas Reserves to each tract is the percentage ratio of each Tract’s historic contribution to the cumulative total of all Tracts combined over the previous four-year period which is considered representative of each tract’s long established production decline history and is indicative of a now marginal and depleted oil and gas reservoir. The Tracts have produced continuously for 72 years, and each has maintained a proportionate oil to water ratio of 1.5%. This methodology used to determine Tract percentage contribution is in the best interest of all Royalty, Overriding Royalty and Working Interest owners and treats each equitably and fairly.
 7. Attached **“EXHIBIT D”** is a chart showing the division of Royalty and Working Interest for each of the **“Tracts”** as identified by their respective pay sheets generated by Countrymark Refining and Logistics, LLC., as the purchaser and payor of all produced Oil and Gas Reserves that will be subject to the proposed unit contribution percentage as outline on said **“EXHIBIT C”**.
 8. A description of the potential producing zones and potential hydrocarbons Petitioner believes or have produced within the unit are as follows:

Aux Vases Zone	680’-730’
McClosky Zone	740’-800’
Salem Zone	1100’-1200’
Devonian Zone	1930’-2000’
Unknown Potentially Productive Zones	0’-2500’
 9. There are no non-consenting working Interest Owners and accordingly a summary of estimated costs for such plans is not necessary as determination of the two working interest owners of 100 % working interest in the proposed Plainville waterflood Unit.
 10. Petitioner is prepared to submit a summary, if requested, of proposed integrated operations to the division director.
 11. Following integration of the Plainville Waterflood Unit, ownership of the Working, Overriding and Royalty interests will be under uniform control. Petitioner may additionally request approval of the drilling at a greater density that may be otherwise permissible and off standard spacing under 312 IAC 29-13-7. Petitioner would assert that following approval of Integration, this petition and its exhibits demonstrate:

- a. The proposed drilling pattern within the area of common ownership or control is reasonably necessary for the efficient recovery of Oil, Gas, or coal bed methane.
- b. Unnecessary wells will not be drilled.
- c. Proposed well(s) will maintain the required distance from other wells on adjacent drilling units outside the area of common ownership or control producing from the same formation.

12. Attached hereto as “**EXHIBIT E**” is the Plainville Waterflood Unit Pooling Agreement

WHEREFORE, Petitioner respectfully requests:

- A. An “**ORDER FOR INTEGRATION OF INTERESTS**” of the proposed **PLAINVILLE WATERFLOOD UNIT** comprising Tracts 1 through 11 to integrate the separately owned interests in the oil and gas and associated hydrocarbons within the lands as set forth with participation factors in “**EXHIBIT D**”, in so far as said leases cover the following described lands in “**EXHIBIT A**”.
- B. That the Plainville Waterflood Unit be designated a unit exempted from standard spacing under 312 IAC 29-13-7 (a).
- C. Implement any further terms and provisions in accordance with the law of the State of Indiana as the Division, in its discretion, deem desirable and proper.

DATED this _____ day of _____, 2021.

EXHIBIT E

UNIT AGREEMENT

PLAINVILLE WATERFLOOD UNIT

DAVISS COUNTY, INDIANA

THIS AGREEMENT, is made and entered into by the parties who have signed the original of this instrument, a counterpart thereof, or other instrument agreeing to be bound by the provisions hereof:

WITNESSETH

WHEREAS, the hereinafter described unitized are has been developed for oil and gas, and the parties hereto desire that operations in the unitized are for secondary recovery by water flooding and other methods be carried out, and realize that such operations can most satisfactorily and efficiently be conducted by operating such lands as a single unit.

Indiana Code Section 14-37-9-1(a) and 312 IAC 29-19-1 of the Indiana Administrative Code and authorizes the owners of separately owned tracts of land to validly agree to integrate their interests to develop their interests in land as a drilling unit or to unitize the production for purposes of conducting secondary, tertiary, other enhanced recovery methods, or for shared facilities among tracts;

WHEREAS, 312 IAC 29-2-95 of the Indiana Administrative Code defines "owner" as the person who has the right to drill into and produce from a pool, and to appropriate the oil and gas produced from the pool for (1) the person or others; or (2) the person and others; and

WHEREAS, to promote the conservation of oil, gas, and unitized substances, to prevent waste, to insure the greatest ultimate recovery of unitized substances, and to insure to each and every party interested in the Unit his/her/its fair and equitable share of unitized substance produced under and by virtue of the terms of this agreement, it is deemed necessary and desirable to unitize the lands, oil and gas leases, formations and substances hereinafter described for secondary recovery operations.

NOW, THEREFORE, in consideration of the anticipated benefits to be gained by pooling and unit operation as hereinafter provided, the receipt and sufficiency of which is hereby acknowledged, the undersigned owners of the Unit hereto agree as follows:

1. CREATION OF UNIT

The real estate, mineral estate and leasehold estates hereinafter described as the Unit shall be operated for the production of oil and gas in all respects as if the entire Unit were covered by a single oil and gas lease, and operations on ay part of the Unit shall be considered as for the benefit of all parties thereof; without regard to the division or differences of ownership thereof or therein, and without liability by reason thereof.

That clause in any lease or leases covering any part of the Unit which provides, in substance, that if the leased premises were or are owned in severalty, the premises nevertheless should be developed and operated as one lease and that royalty should be apportioned upon an acreage basis shall be inoperative, as between the lands covered by said lease lying outside the Unit and the lands covered by said lease lying within the Unit, so that the Owners of

mineral interests only under lands outside the Unit shall not participate in production from the Unit, and Owners of mineral interests only under lands lying in the Unit shall not participate in production from lands outside the Unit.

2. UNIT AREA AND UNITIZED FORMATION

The Unit shall consist of and cover the lands and leases situated in Daviess County, Indiana, including all mineral estates and leasehold estates therein, which lands and leases are described in "Exhibit A," "Exhibit B & B1," and "Exhibit C," attached hereto and made a part hereof by this reference. Exhibit B consists of a plat of the unitized area. Exhibit C consists of lease and tract descriptions. Exhibit D consists of tract participation factor percentages.

The Unitized Formations is that portion of the Aux Vases Lime formation, the McClosky Lime, the Salem Lime, and the Devonian Lime outlined on the plat attached hereto and marked "Exhibit B and B1."

The Unit shall also include any and all oil-bearing subsurface formations and horizons, as well as, all non-oil-bearing subsurface formations, horizons or aquifers which are water bearing or which are suitable for water disposal within the limits of the line outlining the land shown on the plat marked "Exhibit B & B1."

3. POWER TO UNIT OPERATOR

The unit operator is hereby designated as Centaur Petroleum Corporation. The unit operator shall be authorized to use any wells now existing or hereinafter drilled on any part of the lands within the Unit, in its discretion, and without liability for damage other than to growing crops, timber, fences, improvements and structures, for the production of oil and gas, or either of the, the production of water for use in connection with operations hereunder, or the injection of water or other substances. Said unit operator shall have the right to inject fresh water and/or salt water from any source or formation produced on or off the Unit; and said unit operator is hereby granted such easements and powers as may be necessary or desirable for the purposes of effecting such production or injection. Said unit operator shall have no liability by reason of the possible migration of oil and gas from the Unit, or any part thereof, by reason of the exercise of the rights herein granted.

4. PARTICIPATION

Allocation of production from the Unit shall be computed according to the tracts and the leases covering said tracts as described and set forth in Exhibit C and in the proportions specified in Exhibit D. The portion allocated to each lease shall be considered to be the total production obtained from said lease for all purposes, and each of the undersigned hereby agrees to accept payment for royalty, overriding royalty, or working interest, as the case may be, so computed in full satisfaction for all rights to such payments with respect to production from the Unit accruing to him/her/it under the terms of any lease described in Exhibit C.

5. EFFECTIVE DATE

The effective date of participation in the Unit shall be the date this agreement is filed in the Office of the Recorder of Daviess County, Indiana, or the date declared by the unit operator in the memorandum of this agreement.

6. CHANGES IN UNIT

Notwithstanding any provisions to the contrary herein, it is agreed that the Working Interest Owner shall have the right, by written notice filed in the Office of the Recorder of Daviess County, Indiana, to re-define the area of the Unit by reducing or enlarging the same, but changes in participation factors specified in Exhibit D shall be made proportionately using the same methodology as was used to determine the original participation factors.

7. TERM

This agreement shall become effective and binding on the date of the execution hereof, whether or not this agreement shall have been executed by any other party and shall remain in effect as long as oil or gas is produced from any part of the Unit or reworking or other operations are prosecuted without cessation for more than one (1) year unless sooner terminated by agreement of the Working Interest Owner.

8. COUNTERPARTS

This agreement may be executed in any number of counterparts, each of which shall be considered as an original instrument as if all parties to the aggregate counterparts had signed the same instrument. The unit operator shall not be required to execute more than one recorded counterpart, and if unit operator shall also record a memorandum stating the names of all parties by whom all executed counterparts have been executed, the recording of such counterpart and such memorandum shall for all purposes be equivalent to the recording of all executed counterparts.

9. RATIFICATION OF LEASES

The undersigned hereby ratify the Oil and Gas Leases described in Exhibit C attached hereto as the same are hereby altered and amended and agree that the same shall continue in effect as to all lands covered in such leases for so long as this agreement remains in effect and should this agreement terminate then as to each individual lease so long thereafter as oil or gas is produced from any of the lands covered thereby or operations for production are continued. In the event any of the Oil and Gas Leases described on Exhibit C have lapsed due to non-production or otherwise, the undersigned royalty owners of the Oil and Gas Leases hereby lease the lands of said Oil and Gas Leases upon the same terms as provided in the said leases, naming the working interest owners of said Oil and Gas Leases as the lessees of said leases in the proportion of their interests in the former leases.

10. DIVISION ORDERS

The parties hereto hereby modify and amend the existing Division Orders and Transfer Orders covering the leases described in Exhibits A, B and B1, C & D, hereto which are in force at the said effective date, to the extent necessary to provide for the purchase thereunder of the oil

and gas allocated to each such lease in lieu of the purchase of the oil and gas actually produced therefrom, and agree to indemnify the purchasers of such oil and hold them harmless in the issuance of payment from and after said effective date in accordance with the provisions of this agreement, without the necessity of issuance of new Division Orders or Transfer Orders.

11. RECORDING OF MEMORANDUM

The parties to this Unit Agreement hereby empower Centaur Petroleum Corporation to record a memorandum on behalf of all parties in the Office of the Recorder of Daviess County, Indiana which recites that the various leases hereunder have been unitized as indicated herein.

IN WITNESS WHEREOF, the undersigned has hereunto set their hands and seals on the date opposite their names.
