Summary:

HOMEBUILDERS® is an evidence-based program designed to strengthen families in order to prevent unnecessary out-of-home placement or return children from foster care, group care, psychiatric hospitals, or correctional institutions. Families served by this intensive, in-home, family therapy model have children in imminent risk of placement, or have children in placement who cannot be reunified without intensive services. The presenting problems may include child abuse, neglect, family conflict, juvenile delinquency, and child or parental developmental disabilities and/or mental health problems.

This program follows a specific evidence based program that must be adhered to by all contracted providers for this service.
