**7. DESCRIPTION OF REQUESTED VARIANCE**

Name of code or standard and edition involved

2014 Building Code

Specific code section

1008.1.9.7

Nature of non-compliance (Include a description of spaces, equipment, etc. involved as necessary.)

Request to install delayed egress locks complying with section 1008.1.9.7; provision 6 notwithstanding; to prevent elopement of students with autism spectrum disorders and other special needs.

**8. DEMONSTRATION THAT PUBLIC HEALTH, SAFETY, AND WELFARE WILL BE PROTECTED**

Select one of the following statements:

- Non-compliance with the rule will not be adverse to the public health, safety or welfare; or
- Applicant will undertake alternative actions in lieu of compliance with the rule to ensure that granting of the variance will not be adverse to public health, safety, or welfare. Explain why alternative actions would be adequate (*be specific*).

Facts demonstrating that the above selected statement is true:

- 1) Room is located in a structure with a sprinkler system and fire alarm system with smoke detection.
- 2) Ratio of staff to students in these classrooms is typically very low.
- 3) Training will be provided to staff and administration in the building on the correct use of the equipment and documentation.
- 4) Numerous school systems have requested and been granted similar variances.

**9. DEMONSTRATION OF UNDUE HARDSHIP OR HISTORICALLY SIGNIFICANT STRUCTURE**

Select at least one of the following statements:

- Imposition of the rule would result in an undue hardship (*unusual difficulty*) because of physical limitations of the construction site or its utility services.
- Imposition of the rule would result in an undue hardship (*unusual difficulty*) because of major operational problems in the use of the building or structure.
- Imposition of the rule would result in an undue hardship (*unusual difficulty*) because of excessive costs of additional or altered construction elements.
- Imposition of the rule would prevent the preservation of an architecturally or a historically significant part of the building or structure.

Facts demonstrating that the above selected statement is true:

Despite careful supervision there have been numerous incidents of elopement and elopements that have led to this request. Installation of delayed egress locks on the classrooms primarily serving these special needs students is the least restrictive means of preventing future occurrences.

August 21, 2016

Mr. Lightner,

I acknowledge receipt of requests for variances at the following locations within our jurisdiction:

Maple Grove Elementary  
3623 West Whiteland Road  
Bargersville, IN 46106

BCFD has no objection to these variances being approved as submitted. We do request the following condition be placed on the final paperwork:

- Delayed egress hardware shall only be installed on special needs classroom doors

We appreciate the opportunity to work with you on this project.

Sincerely,

Kevin Killinger

Mike, Kevin, & Wes,

Attached please find copies of the variance forms and the school floor plans that we are seeking delayed egress variances for in two classroom locations per building. I need, what hopefully will be your concurrence back, as documentation that I need to send in with each of the variance application packets. Again, we need the ability to put in 1 or 2 of these at each school location that I have provided floor plans for. I have not, as yet, specifically identified the actual rooms, but again, it will only be 1 or 2 per building for the actual door delay hardware, etc. that will be tied to the fire panel.
