To whom it may concern,

The Bloomington Fire Department is opposed to this variance due to the nature of the occupancy and the associated occupancy below being A 2 restaurant. Also the close proximity of buildings in this area increases the hazard from a single fire spreading to multiple buildings. The buildings in this area are old single-family residence that have been converted to apartments and restaurants.

This occupancy was previously 3 sleeping units with no kitchen facilities. The proposed remodel would increase this to 4 bedrooms and add a kitchen, effectively changing this into an apartment.
