From link above: H.R. 1957 is the legislative vehicle for the Great American Outdoors Act. On June 17, 2020 this landmark legislation passed the Senate with bipartisan support 73-25. On July 22nd, 2020, the Great American Outdoors Act passed the House 310-107, with bipartisan support. On August 4, 2020, President Donald J. Trump signed the Great American Outdoors Act – ensuring LWCF will be funded at \$900 million annually.

Here's a good review of how the GAOA passed with such broad support in a time of severe political polarization. <https://news.harvard.edu/gazette/story/2020/07/the-likely-impact-of-great-american-outdoors-act/>

I was at the last meeting and I did not understand that the alliance would be paired down to an advisory council. How was that decided? Who selected the council members?

[3:08 PM] Julie Lowe (Guest)

Thank you all very much.

[3:08 PM] Jackson, Elizabeth A (Guest)

The advisory council was clear to me at the last meeting. There was a list that was discussed of members and some were added based on that discussion, like Tom Hougham.

Mr. Seifert,

Thank you for the opportunity to participate in the advisory council meeting. As a lifelong Hoosier, I have shared a passion with our woodlands and urban forests with my family and students. I am excited to see that urban forest concerns are becoming more significant to the IDNR. The significance of urban forests in the new strategic plan indicates an increased involvement in obtaining those strategic goals. Urban Forestry is grossly underrepresented in the council, according to the current list. In fact, there isn't really an official organization that firmly represents this area of our Hoosier lands.

I would like to formally request that the Indiana Arborist Association be considered as a partner and contributor to the council to better represent the urban forest interest.

Please let me know how we might move forward with the process.

Thank you,

Lindsey Purcell, Executive Director
