**Why are the Division’s numbers different from those provided by the community mental health center?**

Community Mental Health Centers only submitted data to the Division for those individuals that meet the Division’s income eligibility and diagnostic criteria.

**Outcome Data**

The Mental Health Statistics Improvement Program (MHSIP) survey is a nationally used survey and measures satisfaction of adults receiving services. This survey was handed out to all individuals receiving services during at least a one week period between September 3 and September 21 in 2018; 283 surveys were completed. Surveys were completed anonymously. Below are the questions asked regarding outcomes of services.

The Youth Services Survey for Families (YSS-F) is a nationally used survey and measures satisfaction of parents of youth receiving services. This survey was handed out to all individuals receiving services during at least a one week period between September 3 and September 21 in 2018; 200 surveys were completed. Surveys were completed anonymously. Below are the questions asked regarding outcomes of services.
