

## Frequently Asked Questions

- **Why is there a need for participant titration?**
  - Titration prepares participants for paying their recovery residence housing without assistance. Utilizing titration allows the participant to slowly ease into self-pay, without having the burden of full housing costs all at once.
- **When should titration happen?**
  - All participants must begin titration in month four of treatment. Please see the titration schedule under the Resource tab available on the Recovery Works website.
- **Is titration a new Recovery Works practice?**
  - Titration has always been a part of the Recovery Works model. Recovery Works is seeking to bring more awareness to titration and guide providers on how to successfully implement a titration system.
- **Are all providers required to utilize the Recovery Works Titration System?**
  - All providers are required to utilize the stated Recovery Works titration system.
- **What should agencies do if a participant has been receiving treatment/recovery residence four over four (4) months and titration has not started?**
  - A titration plan should be developed with the participant immediately (effective 1/1/2024) and the participant should begin titrating down according to the schedule titration schedule.
- What is an example of a titration schedule?
  - **Month 1** – RW Full payment
  - Month 2** – RW Full payment
  - Month 3** – RW Full payment
  - Month 4** – Participant pays 1 week/RW pays 3
  - Month 5** – Participant pays 1 week/RW pays 3
  - Month 6** – Participant pays 2 weeks/RW pays 2

**Month 7** – Participant pays 2 weeks/RW pays 2

**Month 8** – Participant pays 3 weeks/RW pays 1

**Month 9** – Participant pays 3 weeks/RW pays 1

**Month 10** – Participant pays full stay

**Month 11**– Participant pays full stay

**Month 12** – Participant pays full stay
