

Postpartum Hemorrhage (PPH) Simulation Debriefing Questions

Select debriefing questions that meet your learning objectives or team needs.

*Importance of debriefing after live event - Hemorrhage debriefing form is available from Indiana toolkit:

<https://www.in.gov/health/ipgic/files/Hemorrhage-Debrief-Form.pdf>

Questions to consider using for debriefing: *(This list does not reflect all possible debriefing questions.)*

1. *Tell me what happened in the scenario*
2. *How did this feel to you?*
3. *Did you have all the equipment and personnel you needed? If not, what would you have needed?*
4. *Did you know how to put together and utilize the equipment?*
5. *What went well?*
6. *What would you do differently?*
7. *What resources did you utilize? Are there resources available that you could have used?*
8. *What was one take-away?*
9. *Any system issues or changes affecting this scenario?*
10. *Were roles identified? Did everyone know their role?*
11. *Tell me about the communication during this scenario.*
12. *Can you reflect on the dynamics of the team?*
13. *This patient needed MBTP; what does that mean for you/your facility? Is the patient stable enough to remain in your facility or do they need to be transferred to a higher level of care?*
14. *When initiating MBTP, what should you consider (what blood products are available/what is the algorithm/are the recommendations in your protocol OB specific)?*
15. *What resources are available to assist you in knowing your blood product ratios and MBTP process?*
16. *When thinking about this patient, what are some other important considerations? (i.e., unit staffing/medical provider/ancillary support availability)*
17. *How did you provide holistic care during this scenario? Was patient/family communication provided?*
