House Rule: Recency Requirements for Horseshoe Indianapolis | This House Rule will supersede IHRC Regulation 71 IAC 7.5-4-1 as it applies specifically to a horse that has not started for a period of two hundred and forty (240) days or more. A horse that has not started in the previous 240 days is not eligible to start at Horseshoe Indianapolis until it has successfully completed a racing soundness examination administered by the Regulatory or Track Veterinarian. If the Regulatory or Track Veterinarian conducting the racing soundness examination finds the results of the examination to be unsatisfactory or inconclusive as to the racing soundness of the horse, the Veterinarian may, at his or her sole discretion, place the horse on the Veterinarian's List and establish conditions for removal from the list including, but not limited to, laboratory testing of biological samples and an official workout of a specified distance completed within a specified minimum time.

ATTENTION TRAINERS: Please make certain you, your owners and your employees have completed the Indiana Horse Racing Commission licensing process for 2023. In addition, please be aware that the entire ownership for your horse(s) racing must be taken care of prior to race day. Indiana does not have a temporary license (as in other jurisdictions) and they have limited hours. IHRC direct dial (317.713.3350).

With the start of the HIWU drug testing program on Monday, May 22, 2023, Thoroughbred trainers are strongly encouraged to send two (2) attendants with each horse that is required to go to the IHRC Test Barn.

Reminder: Crops with flat poppers are no longer permitted during training, for any breed. The only permissible riding crops are those that meet the HISA standards and have a 360-degree foam popper. If a rider attempts to enter the track with a non-permitted crop, he or she will be turned away and may face other penalties.
