## A Celebration of the Hoosier State

*Indiana at 200 - A Celebration of the Hoosier State* is the official bicentennial book. This edition is a patchwork quilt of images, prose and poetry commemorating our bicentennial. Incorporating a wide variety of Hoosier voices – individual, yet bound together by a common Hoosier heritage – this book reflects the thoughts of business and community leaders, artists, athletes, writers, farmers, religious leaders, children and poets. These voices, along with many of the more than 6,000 photos submitted by amateur and professional photographers throughout the state, present a picture of who we are as Hoosiers, as well as our dreams and aspirations. Hardbound 9 x 12-inch publication with color dust jacket, 248 pages, indexed.
