Ms. Mary Woodley, Env. Manager
Heidelberg Materials Midwest Agg., Inc.
1136 Morgantown Rd.
Russellville, KY 42276

Dear Ms. Woodley:

Re: IDEM Approval of Transfer of NPDES
Outfall 006 from Permit #IN0002071 to
General Permit Coverage #ING490162
Aggrock Quarry
5421 SR 403
Charlestown, IN - Clark County

Our office received your Notice of Intent (NOI) August 26, 2023, regarding the above-referenced facility. You informed us that Aggrock Quarry will be operating separately from the Speed Concrete Plant, which is currently decommissioned and will likely remain so. Under NPDES Permit #IN0002071, these two facilities had been covered or permitted as one entity.

Per your request, the current NPDES individual permit will be modified to remove Outfall 006 and you will instead have permit coverage for Outfall 006 under the NPDES general permit ING490000 for discharges of process-generated wastewater from facilities involved in sand, gravel, dimension stone, and crushed stone operations.

We are pleased to inform you that the submittal is sufficient to comply with the NOI requirements for the NPDES General Permit ING490000 and that Aggrock Quarry, including Outfall 006, will be covered by this NPDES permit. The Speed Concrete Plant will retain its existing NPDES individual coverage under permit # IN0002071 that is being retained in case the plant becomes active again.

As of **April 1, 2024**, general permit coverage is in effect, and you are required to follow all terms and conditions of ING490000 for Outfall 006. The individual NPDES permit #IN0002071 is being modified as noted above concurrently. Please note that the expiration date for general permit coverage is September 30, 2025. In order to receive authorization to discharge beyond the expiration date, you are required to submit a renewal NOI to IDEM no later than ninety (90) days prior to the date of expiration. The expiration date for the individual NPDES Permit # IN0002071 remains unchanged.

The NPDES general permit coverage number assigned to this facility is referenced above. This number shall be used as an identification number and should be included on all correspondence submitted to IDEM in relation to this NPDES general permit for this site. This approval of coverage for the facility will include all outfalls listed in Attachment 1 to this approval letter. The effluent limitations and monitoring requirements are set forth in Attachment 2.

You may obtain a copy of permit ING490000 and other related documents by visiting <https://www.in.gov/idem/cleanwater/resources/permits-on-notice/> or you may contact the permit manager listed below to request a copy be sent to you. You are responsible for following the permit requirements contained therein.

One condition of your permit requires periodic reporting of several effluent parameters. You are required to submit both federal discharge monitoring reports (DMRs) and state Monthly Monitoring Reports (MMRs) on a routine basis. IDEM has also developed a Quarterly Monitoring Report (QMR) form which you may find to be a more useful alternative form for the quarterly reporting requirements of ING490000. Both the MMR form and the QMR form can be found on IDEM's web site at <https://www.in.gov/idem/cleanwater/wastewater-compliance/wastewater-reporting-forms-notices-and-instructions/>. All NPDES permit holders are required to submit their monitoring data to IDEM using NetDMR. See <https://www.in.gov/idem/cleanwater/resources/netdmr/> or contact Helen Demmings at (317) 232-8815 for more information on NetDMR.

IDEM shall serve notice of its decision to accept your facility for coverage under the general permit in accordance with the requirements of 327 IAC 5-3-14. It should also be noted that any appeal must be filed under procedures outlined in IC 13-15-6, IC 4-21.5, and the enclosed Public Notice. The appeal must be initiated by filing a petition for administrative review with the Office of Environmental Adjudication (OEA) within fifteen (15) days of the emailing of an electronic copy of this letter or within eighteen (18) days of the mailing of this letter. A copy must also be served upon IDEM. Addresses are as follows:

Director
Office of Environmental Adjudication
Indiana Government Center North
Room 501
100 North Senate Avenue
Indianapolis, IN 46204

Commissioner
Indiana Department of Environmental Management
Indiana Government Center North
Room 1301
100 North Senate Avenue
Indianapolis, IN 46204

The Office of Environmental Adjudication will provide parties who request review of this acceptance for coverage with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the Office of Environmental Adjudication.

Ms. Mary Woodley, Env. Manager
Page 3 of 5

If you have any questions regarding this letter, please contact Ms. C. Anne Burget of my staff at (317) 234-8745 or via email at owqwwper@idem.IN.gov.

Sincerely,

Catherine Hess, Chief
Permits Administration Section
Office of Water Quality

HEIDELBERG MATERIALS MIDWEST AGG., INC.
AGGROCK QUARRY

NPDES GENERAL PERMIT APPROVAL # ING490162

EFFECTIVE DATE : **APRIL 1, 2024**

ATTACHMENT 1

AUTHORIZED OUTFALLS

The following outfalls are authorized for coverage under this general permit approval:

OUTFALL	LATITUDE	LONGITUDE	RECEIVING WATER
006	38° 25' 19.8"	-85° 43' 49.3"	SILVER CREEK

PLANT CLASSIFICATION

The permittee shall have the wastewater treatment facilities under the responsible charge of an operator certified by the Commissioner in a classification corresponding to the classification of the wastewater treatment plant as required by IC 13-18-11-11 and 327 IAC 5-22-5. In order to operate a wastewater treatment plant, the operator shall have qualifications as established in 327 IAC 5-22-7. Since stone quarries typically utilize sedimentation basins to settle solids, IDEM has determined that your facility is a **Class A-SO** industrial wastewater treatment plant classification.

ATTACHMENT 2

EFFLUENT LIMITATIONS AND MONITORING REQUIREMENTS

Based upon IDEM review of the NOI for this facility, we have determined that the following effluent limitations and monitoring requirements shall be applicable to the discharge:

Table 1

Parameter	Quantity or Loading			Quality or Concentration			Monitoring Requirements	
	Quarterly average	Quarterly maximum	Number per quarter	Units	Daily maximum	Units	Measurement frequency	Sample type
Flow [1]	Report	Report		MGD			1 x Monthly	Estimated
Total Flow		Report		Mgal/Qtr			1 x Quarterly	Recorder total [2]
TSS [3]					30	mg/l	1 x Quarterly	Grab
Days of Discharge [5]			Report	Days			Daily	Count

Table 2

Parameter	Quality or Concentration		Units	Monitoring Requirements	
	Daily minimum	Daily maximum		Measurement frequency	Sample type
pH [3][4]	6.0	9.0	s.u.	1 x quarterly	Grab

[1] Measurement of flow is required; flow volume may be estimated. An “estimated” sample type means a reasonable approximation of the average daily flow based on a method approved by the Department. Pump rates can be utilized in this calculation, but the permittee must have a reliable means of determining the total monthly flow volumes. The permittee is required to record the monthly flow volumes and calculate the monthly average flow on the Monthly Monitoring Reports (State Form 30530).

The Quarterly Average flow is determined by taking the total flow volume for the 3-month period divided by the number of days in the quarter.

The Quarterly Maximum flow is the highest monthly average flow volume during that quarter.

[2] “Recorder Total” means that the permittee must monitor and cumulatively total all daily flow values in MGD for all days during the quarter when discharging. The permittee must report the number of days per quarter that a discharge occurs. Mathematically, the recorder total should be equal to the estimated quarterly average MGD times the days of discharge.

[3] A minimum of one sample shall be collected, analyzed, and the results reported each calendar quarter. The monitoring results shall be reported on the March, June, September, and December DMR forms. The Monthly Monitoring Reports (MMRs) or the Quarterly Monitoring Reports (QMRs) shall denote the actual day(s) on which the monitoring occurred.

[4] The pH shall be reported in standard units (s.u.)

[5] The permittee must monitor and report the number of days of discharge for each quarter.

**STATE OF INDIANA
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT**

PUBLIC NOTICE NO. 20240328 – ING490162 –GP

DATE OF NOTICE: MARCH 28, 2024

The Office of Water Quality approves the following NPDES GENERAL PERMIT coverage:

APPROVAL OF NEW GENERAL PERMIT COVERAGE

HEIDELBERG MATERIALS MIDWEST AGG, INC. - AGGROCK QUARRY, NPDES General Permit Coverage No. ING490162 and individual NPDES Permit No. IN0002071, located at 5421 SR 403, Charlestown, IN (CLARK COUNTY). This facility is a sand and gravel operation that was previously used to provide materials for an adjoining concrete plant. Both entities have been operating under NPDES Permit # IN0002071. The applicant submitted a Notice of Intent seeking new general permit coverage for Outfall 006 under ING490000, the NPDES General Permit for Sand, Gravel, Dimension Stone and Crushed Stone Operations and also a request for modification of the current NPDES individual permit to remove that outfall from its coverage. Outfall 006 discharges to Silver Creek. This new general permit coverage shall become effective on April 1, 2024. For more information regarding these permit actions, please contact Ms. C. Anne Burget at (317) 234-8745 or via email at owqwwper@idem.IN.gov.

Notice of Right to Administrative Review

If you wish to challenge this permit, you must file a Petition for Administrative Review with the Office of Environmental Adjudication (OEA) and serve a copy of the petition upon IDEM. The requirements for filing a Petition for Administrative Review are found in IC 4-21.5-3-7, IC 13-15-6-1 and 315 IAC 1-3-2. A summary of the requirements of these laws is provided below.

A Petition for Administrative Review must be filed with the Office of Environmental Adjudication (OEA) within fifteen (15) days of the issuance of this notice (eighteen (18) days if you received this notice by U.S. Mail), and a copy must be served upon IDEM. Addresses are:

Director
Office of Environmental Adjudication
Indiana Government Center North
Room N103
100 North Senate Avenue
Indianapolis, Indiana 46204

Commissioner
Indiana Department of Environmental Management
Indiana Government Center North
Room 1301
100 North Senate Avenue
Indianapolis, Indiana 46204

The petition must contain the following information:

1. The name, address and telephone number of each petitioner.
2. A description of each petitioner's interest in the permit.
3. A statement of facts demonstrating that each petitioner is:
 - a. a person to whom the order is directed;
 - b. aggrieved or adversely affected by the permit; or
 - c. entitled to administrative review under any law.
4. The reasons for the request for administrative review.
5. The particular legal issues proposed for review.
6. The alleged environmental concerns or technical deficiencies of the permit.
7. The permit terms and conditions that the petitioner believes would be appropriate and would comply with the law.
8. The identity of any persons represented by the petitioner.
9. The identity of the person against whom administrative review is sought.
10. A copy of the permit that is the basis of the petition.

11. A statement identifying petitioner's attorney or other representative, if any.

Failure to meet the requirements of the law with respect to a Petition for Administrative Review may result in a waiver of your right to seek administrative review of the permit. Examples are:

1. Failure to file a Petition by the applicable deadline;
2. Failure to serve a copy of the Petition upon IDEM when it is filed; or
3. Failure to include the information required by law.

If you seek to have a permit stayed during the administrative review, you may need to file a Petition for a Stay of Effectiveness. The specific requirements for such a Petition can be found in 315 IAC 1-3-2 and 315 IAC 1-3-2.1.

Pursuant to IC 4-21.5-3-17, OEA will provide all parties with notice of any pre-hearing conferences, preliminary hearings, hearings, stays, or orders disposing of the review of this action. If you are entitled to notice under IC 4-21.5-3-5(b) and would like to obtain notices of any pre-hearing conferences, preliminary hearings, hearings, stays, or orders disposing of the review of this action without intervening in the proceeding you must submit a written request to OEA at the address above.

If you have procedural or scheduling questions regarding your Petition for Administrative Review, please refer to OEA's website at <https://www.in.gov/oea>.

RE: Heidelberg Materials Midwest Agg, Inc
Aggrock Quarry

Dear Ms. Hess;

Please find enclosed an application for a discharge point at Heidelberg's Aggrock Quarry. This discharge was previously permitted on Heidelberg's Speed Cement Plant (IN0002071) as Discharge 006. The cement plant has ceased operations and will only maintain a cement terminal and slag drying operation. Due to the nature of the operations and the site conditions, it is not anticipated that there will be any discharge from the cement site going forward. Discharge 006, receives water from the quarry operations associated with the Aggrock Quarry, therefore, we are applying for a permit for our Aggrock Quarry to be responsible for any discharge to Silver Creek. This was discussed with Nicole Gardner of IDEM, Richard Hamblin (Industrial NPDES Permit Section Chief), Catherine Hess (Permits Administration Section Chief), and Sierra Alberts (IDEM Counsel) and all agree that as long as the discharge to the outfall in question is solely from the aggregate plant then it can have its own permit. The permit fee of \$100.00 will be paid electronically.

Should you have any questions, please feel free to contact me at 270-878-0896 or by email at Mary.Woodley@HeidelbergMaterials.com.

Sincerely,

A handwritten signature in blue ink that reads "Mary Woodley".

Mary Woodley
Environmental Manager
Heidelberg Materials Midwest Agg, Inc.

**NOTICE OF INTENT (NOI) LETTER
FOR ING490000 SAND AND GRAVEL
GENERAL NPDES PERMIT**

State Form 55917 (R2 / 6-22)
Approved by State Board of Accounts, 2022
INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

A scanned copy of all completed documents may be sent via e-mail to OWQ@idem.IN.gov. Online fee payments may be made at <https://www.in.gov/idem/resources/e-services/>.

Alternatively, this form, the fee payment, and required attachments may be mailed to:

**INDIANA DEPARTMENT OF ENVIRONMENTAL
MANAGEMENT**
Office of Water Quality, NPDES General Permits
100 North Senate Avenue, IGCN Room 1255
Indianapolis, IN 46204-2251

INSTRUCTIONS

- This form must be used to apply for coverage under the General NPDES Permit for wastewater from sand, gravel, dimension stone, and crushed stone operations pursuant to NPDES Permit No. ING490000.
- This form must be completed fully.
- If you do not use a computer to complete this form, please type or print in ink. Do not use white-out to correct errors.
- Further item-specific instructions are provided in Appendix A at the end of this form.

For questions regarding this form, the required attachments, and permit requirements, contact IDEM General NPDES Permits staff at (317) 234-8745 or (800) 451-6027, ext. 48745 (within Indiana). Questions may also be sent via e-mail to OWQWWPER@idem.IN.gov.

ELIGIBILITY REQUIREMENTS

This general permit regulates process generated wastewater discharges from sand, gravel, dimension stone, and crushed stone operations which are subject to 40 CFR 436 Subparts A thru C. These discharges are subject to effluent limitations which typically involve sedimentation basin treatment, so the regulated discharges are for the pit dewatering. The process generated wastewater which enters the pit may come from channel machines, broaching, jet piercing, scrubber water from wet scrubbers used for air pollution control, dust suppression spray water, wash water from spray bars for final screening operations, and noncontact cooling water for cooling of crusher bearings, drills, saws, dryers, pumps, and air compressors.

The following discharges are not authorized by this permit:

1. Direct discharges to any water designated as an Outstanding National Resource Water defined at IC 13-11-2-149.5 or an Outstanding State Resource Water (OSRW) defined at IC 13-11-2-149.6 and listed at 327 IAC 2-1.3-3(d);
2. discharges to a waterbody when the discharge results in an increase in the ambient concentration of a pollutant which contributes to the impairment of the water body for that pollutant as identified on the current 303(d) list of impaired waters at <https://www.in.gov/idem/nps/watershed-assessment/water-quality-assessments-and-reporting/section-303d-list-of-impaired-waters/> ;
3. discharges containing water treatment additives that have not received prior written approval from IDEM for the specific additive, use, and dosage at the particular facility for which this Notice of Intent (NOI) is being submitted;
4. discharges from crushed stone operations utilizing flotation agents to remove impurities from marble or other carbonaceous rock. Flotation agents include organic amines, fatty acids, and pine oils;
5. industrial sand operations utilizing any or all of the following materials and/or methods:
 - a) acid flotation to effect removal of iron oxide and ilmenite impurities;
 - b) alkaline flotation to remove aluminate bearing materials; and
 - c) hydrofluoric acid flotation for removal of feldspar;
6. industrial sand operations utilizing the acid leaching process. This process pertains to the removal of iron from feldspathic sand for use in glass manufacturing;
7. storm water discharges associated with construction or industrial activity. However, if the storm water runoff from the site commingles with the process generated wastewater in the sedimentation treatment basin, then such discharges may be permitted by this general permit (see Appendix A);
8. discharges to combined or sanitary sewer systems;
9. discharges of sanitary wastewater;
10. discharges that are commingled with hazardous wastes or hazardous materials;
11. discharges that contain pollutants classified as bioaccumulative chemicals of concern (BCCs); and
12. discharges for which the Commissioner requests an individual permit application.

By checking this box, I certify that this facility meets all eligibility requirements of this general permit.

APPLICATION TYPE

Application type: New Renewal Modification

PERMIT NUMBER, IF APPLICABLE

Delegation of Authority
for
Indiana Department of Environmental Management
Division of Water

I, J. Craig Morgan, affirm by my signature below that I am Vice President/General Manager of Heidelberg Materials Midwest Agg Inc, which includes the Aggrock Quarry, located at 5421 State Road 403, Charlestown, IN. I hereby authorize Mary Woodley, Environmental Manager for Heidelberg Materials Midwest Agg Inc, to sign and submit any and all documents related to the above IDEM permit.

I understand that to terminate this delegation of authority, it must be done in writing to the Indiana Department of Environmental Management, Division of Water.

J. Craig Morgan, Vice President/General Manager

Sworn before me and subscribed in my presence this 14th day of June, 2023.

RE: Heidelberg Materials Midwest Agg, Inc
Aggrock Quarry

Dear Ms. Hess;

Per Part E of the NPDES application and Part E Items 20 & 21 (3), Heidelberg Materials Midwest Agg Inc – Aggrock Quarry would like to request a waiver from the testing of the parameters listed in Part # except for Total Suspended Solids and pH. Heidelberg has no reason to believe that any of the other pollutants would be present except TSS & pH.

Should you have any questions, please feel free to contact me at 270-878-0896 or by email at Mary.Woodley@HeidelbergMaterials.com.

Sincerely,

A handwritten signature in blue ink that reads "Mary Woodley".

Mary Woodley

Environmental Manager

Heidelberg Materials Midwest Agg, Inc.

PART G: IDENTIFICATION OF POTENTIALLY AFFECTED PERSONS

25. Pursuant to IC 4-21.5 and IC 13-15-3-1, each applicant for general permit coverage is required to provide a listing of all persons who are potentially affected by the discharge(s) to be covered under the general permit. **PLEASE NOTE THAT ACTUAL MAILING LABELS ARE ALSO REQUIRED WITH THIS SUBMITTAL.** (See instructions in Appendix A).

Please list here any and all persons whom you have reason to believe have a substantial or proprietary interest in this matter or could otherwise be considered to be potentially affected under the law. Failure to notify any person who is later determined to be potentially affected could result in voiding our decision on procedural grounds. To ensure conformance with the Administrative Orders and Procedures Act (AOPA) and to avoid reversal of a decision, please list all such parties. Attach additional names and addresses on a separate sheet of paper, as needed. Note: E-mail addresses for potentially affected persons are NOT required, however, their inclusion is very helpful in assuring that these people are contacted.

PART H: ADDITIONAL REQUIRED ATTACHMENTS

26. PROOF OF PUBLICATION

The NOI letter must also contain proof of publication of the following statement in a newspaper of largest circulation in the area of the discharge:

(Facility name, address, address of the location of the discharging facility) "is submitting a Notice of Intent to notify the Indiana Department of Environmental Management of our intent to comply with the requirements under National Pollutant Discharge Elimination System (NPDES) general permit ING490000 to discharge process wastewater from a sand, gravel, crushed stone or dimensional stone operation. Discharge will be to *(name(s) of the stream(s) or other water body(ies) receiving the discharge(s))*"

"Any person wishing further information about this discharge may contact *(facility contact person's name and telephone or e-mail address)*. The decision to issue coverage under this NPDES general permit for this discharge is appealable as per IC 4-21.5 and IC 13-15-6. Any person who would like to be informed of IDEM's decision regarding coverage to this facility under this NPDES permit, and who would like to be informed of procedures to appeal the decision, may contact IDEM's offices at OWQWWPER@idem.IN.gov to be placed on a mailing list to receive notification of IDEM's decision."

This publication must be in the newspaper for a minimum of one day. Be advised that notices without the proper information will not suffice, and IDEM will require that a new public notice be placed in the newspaper. If the proof of publication is not available, a legible photocopy of the article that contains the name of the newspaper and the date the article was run is also acceptable. Please include proof of publication from the newspaper with the NOI.

27. REQUIRED MAPS

- A. A topographical map must be submitted with this NOI. The map must include the following items:
 - (A) the location of the operation shown clearly and identified by name and by mark;
 - (B) the location of each numbered outfall shown clearly and identified by number and by mark;
 - (C) the receiving streams to which each outfall discharges shown clearly and identified by name; and
 - (D) any existing permanent structures or roads in the area shown clearly and identified by name.
- B. A site map must be submitted with this NOI as well. The site map must show and identify at least two crossing streets near the property, the significant structures, including all sedimentation basins, all outfall and sampling locations, and any flow paths from basin to the outfall.
- C. A flow schematic diagram for each outfall that is to be permitted must be submitted with this NOI. This diagram should show the path that the process wastewater travels through the facility to the point where it is discharged. If multiple outfalls will follow essentially the same path, these outfalls may be included on one diagram. Please illustrate the diagrams with applicable text describing the nature of the discharge from each outfall. This diagram may be part of the site map.

PART I: APPLICATION FEE

28. As required by 327 IAC 5-3-17, a \$100 fee is required to be submitted with this NOI for a new permit or renewal of a permit. The \$50 fee is applicable for a modification request. (Updates to information in Parts B and C shall not be subject to the \$50 fee for modifications.) Checks or money orders shall be made payable to IDEM. Alternatively, credit card and e-check payments may be made at <https://www.in.gov/idem/resources/e-services/online-payment-options/>.

PART J: SIGNATORY CERTIFICATION STATEMENT

29. The NOI must be signed by the Responsible Official (as identified in Part B, item 10. Also see Appendix A):

"I certify under penalty of law that this document and all its attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

I swear or affirm, under penalty of perjury as specified under IC 35-44.1-2-1 and other penalties specified by IC 13-30-10 and IC 13-15-7-1(3), that the statements and representations in this NOI are true, accurate, and complete."

PART K: 30. Please use the address at the top of page 1 of the NOI form to submit completed NOI form, attachments, and fee.

**Proof of
Publication**

Heidelberg Materials Midwest Agg Inc - Aggrock Quarry located 5421 State Road 403, Charlestown, Indiana is submitting a Noitce of Intent to notify the Indiana Department of Environmental Management of our intent to comply with the requirements under National Pollutant Discharge Elimination System (NPDES) General Permit ING490000 to discharge process wastewater from a sand, gravel, crushed stone or dimensional stone operation. Discharge will be to Muddy Fork Creek to Silver Creek. Any person wishing further information about this discharge may contact Brian Harrison at 812-246-8240. The decision to issue coverage under this NPDES General Permit for this discharge is appealable as per IC 4-21.5 and IC 13-15-6. Any person who would like to be informed of IDEM's decision regarding coverage to this facility under this NPDES permit, and who would like to be informed of procedures to appeal the decision, may contact IDEM's offices at OWQWWPER@idem.IN.gov to be placed on a mailing list to receive notification of IDEM's decision. hspaxp
