
Cost Assumptions – BAFO

1. Transfer Volume – cost initial transfer of 5,000 pallets for receipt and tagging is comprised of single-product, full pallets.
2. LSL will be purchasing new, equipment, fixtures, and materials to support the requirements of this program. LSL will construct the necessary Conditioning and Build Out at its cost.
3. The capacity of the proposed biomedical equipment support team is unknown and will depend on the finalized list of devices and equipment and related servicing requirements / volume. The team size / capacity can be adjusted based on the finalized specifications of the program. Material, parts, supplies, shipping, and transport services are not included but are available through LSL's network at vendor preferred rates plus a standard 20% mark up.
4. Operating costs includes necessary licenses, permits and support contracts to support the program.
