

Cost Assumptions, Conditions and Constraints

The respondent should list and describe as part of its Cost Proposal any special cost assumptions, conditions, and/or constraints relative to, or which impact, the prices presented on the Cost Schedules. It is of particular importance to describe any assumptions made by the respondent in the development of the respondent's Technical Proposal that have a material impact on price. It is in the best interest of the respondent to make explicit the assumptions, conditions, and/or constraints that underlie the values presented on the Cost Schedules. Assumptions, conditions or constraints that conflict with the RFP requirements are not acceptable. **Please compose and return this document in a PDF format, labeled as “Cost Assumptions, Conditions and Constraints”.**

We are assuming that utilizing, for the purpose of this project, a single LMS will be necessary. The cost proposal has allocated \$[REDACTED] to contract with an LMS. The proposal amount reflects input an LMS provider for use across 5,000 students per year. The \$[REDACTED] in intended to be allocated to purchase an enterprise license and LMS that meets user needs based upon committee feedback.
