

Problem-Solving Courts and Pre-Trial Services

The Indiana Department of Correction (IDOC) and the Indiana Office of Court Services (IOCS) are collaborating on Grant Applications for Problem-Solving Courts and Pre-Trial Services. These directions are only for Problem-Solving Court and Pre-Trial entities applying for **BOTH** IDOC and IOCS funding.

If your court or agency plans to apply for funding from **BOTH** IOCS and IDOC Community Corrections for a Problem-Solving Court Grant or Pretrial Services Grant you will only need to complete the IDOC grant application for the applying entity. The budget document within the IDOC grant application indicates a column to enter the requested funding amount from IOCS separate from IDOC. The column is the third to last column. Please see below.

The funding request for IDOC should be requested in the "Grant" column and the funding request for IOCS should be requested in the "IOCS Grant" column.

IOCS will use the Problem-Solving Court and/or Pretrial IDOC CC section(s) of that application to determine grant awards and will use those sections as the exhibits for the IOCS grant agreements.

If your Problem-Solving Court or Pre-Trial Services entity is only applying for funds through IOCS, please complete the IOCS Application and included budget.

If applying for more than one grant, **please complete a separate application for each entity.**
