To Governor Mitch Daniels

2009

Ernest Yelton
Executive Director

THE INDIANA GAMING COMMISSION

Tim Murphy (Chairman) of Carmel is the retired Chief Financial Officer of the Irwin Mortgage Corporation, formerly a subsidiary of the Irwin Financial Corporation. Prior to joining Irwin he was a Special Agent with the FBI, serving in the Indianapolis and Chicago field offices. Mr. Murphy graduated from Indiana University in 1973 with a degree in Accounting and is a Certified Public Accountant in the State of Indiana.

Mr. Murphy was appointed to the Commission in December 2005.

Tom Swihart (Vice-Chair) of Valparaiso is a Certified Public Accountant and has worked in the firm of Weichmann and Associates in Munster, Indiana for the past sixteen years. He graduated from Valparaiso University in 1968 with a degree in Business Administration. Mr. Swihart has also earned a Masters degree in Public Administration and Urban Planning from Pepperdine University and a MBA in Accounting and Tax from Fairleigh Dickinson University.

Mr. Swihart was appointed to the Commission in July 2006.

Marc D. Fine (Secretary) of Evansville is a founding partner of the law firm of Rudolph, Fine, Porter & Johnson, LLP. Mr. Fine graduated from Indiana University in 1981 with a degree in Finance, with distinction, and graduated from the University of Illinois College of Law in 1984. He was one of the founders of American Community Bancorp and the Bank of Evansville, where he is a member of the Board of Directors and also serves as the corporate Secretary.

Mr. Fine was appointed to the Commission in October 2007.

Mary H. Shy of Lawrenceburg is the PMO/Quality Manager of Omnicare, which provides pharmaceutical services to long term health care centers. She retired from the information technology industry with over twenty-five years experience with Procter & Gamble and Hewlett-Packard. She has extensive experience in global expansion, service management, and quality improvement. Ms. Shy graduated from the University of Cincinnati in 1977 with a degree in Marketing.

Ms. Shy was appointed to the Commission in September 2007.

Robert Morgan of Schererville studied Labor/Management Relations at Confederation College in Thunder Bay, Canada. After college, Mr. Morgan worked for the Ontario Housing Corporation. In 1981, Mr. Morgan joined Thomas Equipment Ltd., a subsidiary of McCain Foods, Inc., in various regional management positions. In 1999, Mr. Morgan left McCain and founded his own business, Docu-tech Services, Inc., which currently provides litigation support services to large law firms throughout the U.S.

Mr. Morgan was appointed to the Commission in July 2008.

Justin Christian of Indianapolis is the President/CEO of Bucher + Christian Consulting. Bucher + Christian is an Indianapolis-headquartered, 600-person, global business solutions firm. After Mr. Christian graduated from DePauw University, he spent three years as a systems analyst for Eli Lilly prior to founding Bucher + Christian. Mr. Christian currently serves on various boards including the Indianapolis Bond Bank, Greater Indianapolis Progress Committee, and Goodwill of Central Indiana.

Mr. Christian was appointed to the Commission in December 2008.

EXECUTIVE DIRECTOR'S REPORT

While the nation's casinos continued to struggle in FY 2009 due to the recession and other factors, Indiana's gaming revenues were buoyed as a result of capital investment by our licensees.

Ernest E. Yelton
Executive Director

Economic Development

Horseshoe Hammond opened a new \$500 million facility in August. The new 350,000 square foot gaming vessel has 4,223 gaming positions, a 700-seat buffet, and a 2,500-seat multipurpose entertainment facility.

In March, Indiana Live in Shelbyville opened its permanent casino, a \$200 million facility with 2,000 machines, including electronic blackjack, roulette, and three-card poker. The 233,000 square foot casino also features six dining and entertainment venues.

In Lawrenceburg, the new \$336 million Hollywood Casino opened in June, replacing the former Argosy property, including a name change and complete re-branding.

The new vessel has 150,000 of casino square footage, 4,400 gaming positions, and a 108-seat restaurant.

In addition to new casinos, other major projects were also completed. Blue Chip opened its new \$130 million, 22-story hotel in January. The Spa Blu Tower has 302-rooms, including sixty suites, and it is complemented by new dining and entertainment venues, including the new Stardust Event Center, a 20,000 square-foot, multi-purpose entertainment venue that holds up to 1,200 guests. French Lick Resort Casino opened its new Pete Dye golf course in April and was selected to host the 43rd PGA Professional National Championship in 2010. The previously refurbished Donald Ross course will also be used for this event. In addition, French Lick completed substantial renovations to its casino floor to accommodate non-smoking patrons and continued to modify its exterior aesthetics.

Legislation

This year was an unusually busy legislative session for the Gaming Commission ("Commission"). During the regular session, there were two charity gaming bills that passed. The first, SEA 414, allows workers at a festival event to participate in events except in the one that he or she is conducting and prohibits workers from participating in any PPT event during the calendar day he or she conducts the event. The act also requires charity gaming patrons to provide their names, signatures, and dates of birth upon winning \$250 or more on any PPT and allows qualified organizations to share reusable licensed supplies that were acquired prior to January 1, 2009. Finally, the act allows individuals to serve as operators for three qualified organizations per month rather than only one.

HEA 1286 removes civic organizations from the eligibility list for an annual charity game night license, but added fraternal organizations. This act also allows qualified organizations which totally restructure to be eligible for licensure without waiting five years and limits the use of facilities and locations for annual charity gaming nights to only three calendar days per week. The act also makes qualified and winner take all drawings eligible for roll-overs under specific conditions that do not increase the frequency of the drawing or the maximum limit of award. Lastly, driver's license information acquired by the Commission is now deemed confidential.

HEA 1285 authorizes the Commission to require identification of a trustee for each casino licensee to be poised to assume operational control of any casino that has a license revocation, a license non-renewal or a failure to transfer the license in a block sale of other casinos. It is patterned after the process used in Evansville by agreement between the Commission and Tropicana. HEA 1285 also clarifies that only one supplier license is required to conduct business with both casinos and racinos and increased the annual supplier license fee from \$5,000 to \$7,500. Finally, it authorizes the Commission to issue occupational licenses for periods of one, two, or three years rather than only one and required the horse racing integrity fund assessed to the racinos to be paid directly to the Horse Racing Commission rather than the Gaming Commission.

The last bill was SEA 160. In 2005, Governor Daniels' Probe Report for Efficiency in Government recommended, among many other changes, the relocation of the Boxing Commission from the Professional Licensing Agency to the Commission. SEA 160 abolished the Boxing Commission and created the State Athletic Commission which will license and regulate not only boxing but mixed martial arts. While the new commission is independent of the Gaming Commission, it will be staffed by existing agency personnel, with minimal new staff. The Athletic Commission is funded by a new dedicated fund center consisting of license fees, penalties, and a percentage of gate receipts.

Because the legislature failed to pass a budget during the regular session, Governor Daniels called a special session in June. Inserted in the budget that ultimately passed and was signed by the governor were provisions related to a study committee for gaming-related issues. The gaming study committee was charged with examination of seventeen topics. They are as follows:

- 1) Admission taxes for riverboats.
- 2) Competition from out of state gaming entities.
- 3) Waivers for gaming tournaments.
- 4) Land-based gaming.
- 5) Non-smoking accommodations.
- 6) Restrictions on alcohol prizes.
- 7) Authority to regulate type 2 gaming in for-profit ventures.
- 8) A referendum concerning gaming in the city of Fort Wayne.
- 9) Competition from tribal-operated casinos.
- 10) Issues related to the riverboat in French Lick, including modification of trust payments, subsidies paid by other gaming facilities, and land based gaming.
- 11) The movement of riverboats in the city of Gary to new locations.
- 12) The need to retain United States Coast Guard compliant marine navigation systems.
- 13) Whether permit holders holding a gambling license issued under IC 4-35-5 (racinos) are properly promoting and supporting horse racing activities at the site.
- 14) Issues related to permit holders holding a gambling game license issued under IC 4-35-5 (racinos) including table games, double taxation, amounts

- paid to horsemen's associations, bonds, slot machines, and satellite locations.
- 15) Gaming license fees and suppliers' license fees.
 - 16) Parity of confidentiality rules for riverboat gaming licensees and permit holders holding a gambling game license issued under IC 4-35-5 (racinos).
 - 17) Campaign contribution ban for riverboat gaming licensees.

I have been asked to serve as an *ex officio* member of this commission, whose work is scheduled to be completed prior to the beginning of the 2010 legislative session.

Staff Update

In the Controller Division, Drewella Anderson was hired as an Account Clerk. Darlene Johnson was hired as Receptionist and Patricia Poteet was hired as Clerical Assistant in Charity Gaming. In the Audit Division, Ellana Nelson and Anne Rady were hired as Field Auditors. Jeffrey Neuenschwander was hired as a Staff Attorney in the Legal Division. Wade Lowhorn transferred from a Deputy Director position at the Indiana Professional Licensing to become the Director of the newly created State Athletic Commission.

Julien Agnew was promoted to Director of License Control and Marian Coffey transferred from the Front Desk Receptionist to Secretary of Gaming Control Division. In the Enforcement Division, Mark Mathews transferred from Supervisor to Investigator in the Central Region and Anthony Chapa was promoted from Agent at Ameristar to Supervisor at Grand Victoria. In addition, 15 Gaming Agents were hired to fill vacancies throughout the State.

Every year presents new challenges for the Commission, and 2010 will not be an exception. It is anticipated that the Legislative Gaming Study Committee will propose several initiatives for the General Assembly to debate. Breathing life into the State Athletic Commission and creating mixed martial arts rules will demand considerable effort while keeping an eye on gaming competition in Illinois, Ohio, Michigan, and Kentucky is in and of itself a full-time job. I am confident that our professional, knowledgeable, and diligent staff will continue to rise to the occasion and serve the interests of the State of Indiana admirably.

Respectfully Submitted,

FY 2009 TAX OVERVIEW

MBE/WBE UTILIZATION

Jennifer Reske
Deputy Director

The Riverboat Gambling Act and Indiana Code 4-35 contain provisions regarding the use of minority business enterprises (“MBE”) and women’s business enterprises (“WBE”) in the casino industry. Only purchases made from a certified MBE or WBE may be counted toward credit for statutory compliance. The Department of Administration’s Minority and Women’s Business Enterprise Division is the agency responsible for certification of MBEs and WBEs. The casinos are required to file both quarterly reports and a report with the Commission in January of each year containing a summary of expenditures made in the previous calendar year. Within these reports, each casino details the amount of its overall expenditures paid to certified MBEs and WBEs. The following page contains MBE and WBE utilization information for CY 2008.

AUDIT DIVISION

Frank T. Brady
Audit Director

During FY 2009, the Audit Division has conducted unannounced program audits and follow up audits at each Indiana casino. During an unannounced program audit, auditors travel to a casino and check all departments within that casino for compliance. If discrepancies are found, the Division performs a follow-up audit within ninety days to ensure that the casino made the necessary changes to guarantee compliance with state regulations for casino operations. There are currently three members of the Audit Division serving on the Compliance Committee.

Special audits are conducted as the need arises. In the past year these have included admission taxes, MBE, and WBE audits, as well as audits in a number of other areas. Desk audits of the daily RG-1's are performed pursuant to the Audit Plan. The results of these reviews are provided on a bi-monthly basis to various state agencies and are published in monthly revenue reports. Audits may result in adjustments or referrals to the Compliance Committee.

Charles Vonderschmitt
Lead Auditor

Larry C. Rhoades
Lead Auditor

Quarterly Internal Audit Managers Meetings are held during which current compliance issues and best practices are discussed. In FY 2009, the Audit Division participated in the openings of three new permanent facilities: Horseshoe, Hammond; Hollywood Casino, Lawrenceburg; and Indiana Live, Shelbyville.

COMPLIANCE DIVISION

Chris Gray
Director of Compliance

The Compliance Division is comprised of the Director of Compliance, the Assistant Director of Compliance, the Promotions/Compliance Coordinator, the Problem Gaming Coordinator and the Electronic Gaming Device (“EGD”) Manager. The Compliance Division is responsible for the regulation of promotions and tournaments, EGDs, table games, the Voluntary Exclusion Program, and patron complaints. The Director of Compliance heads the Compliance Committee.

The Compliance Committee contains members of the Compliance Division, as well as representatives from the Audit, Legal, and Enforcement Divisions. The Committee meets regularly with the goal of optimizing the efficiency and effectiveness of the regulatory process. During FY 2009, the Committee made recommendations on all pending regulatory waivers and violations. The Committee issued 150 recommendations on waiver requests and disciplinary actions against casino and supplier licensees. The Committee was also involved in recommendations on rule changes and policy directives.

Angela Bunton
Assistant Director of Compliance

In FY 2009, there were nine table games submitted for approval. Two new games and seven variations or side bets to pre-existing table games were reviewed and approved. There are currently two new table games pending review. In addition to the new table game approvals, numerous table games moves and shipments have been reviewed and approved.

Electronic Gaming Devices

George Carey
Electronic Gaming Device Manager

Fiscal Year 2009 marks the fourth year that the Compliance Division was responsible for oversight of the Electronic Gaming Device System (“EGDS”). The EGDS contains a catalogue of all gaming laboratory tested and approved hardware as well as associated software. Compliance staff also monitors and approves all movements, purchases, and sales of EGDS, ensuring that only authorized parties are involved in these processes.

The Compliance staff stays in frequent contact with EGD manufacturers and gaming laboratories to ensure that the Commission is abreast of the latest technologies in electronic gaming. Compliance’s communications with gaming laboratories, EGD departments at the properties, and the Enforcement Division, ensures that all EGDs are in compliance at Indiana’s properties.

Tracy Sanders
Promotions/Compliance Coordinator

Promotions

In order to maintain the integrity of casino gaming in Indiana, all promotional activities conducted by casino licensees are subject to review by the Commission. All gaming related promotional activities, such as any tournaments involving EGDs or table games, must be approved by the Promotions/Compliance Coordinator. Any non-gaming related promotional activities, such as concerts, giveaways, or parties, must be reviewed by the Promotions Coordinator.

In FY 2009, the Compliance staff received 1,206 submissions.

Non-Gaming Related (Reviewed)	901
Gaming Related (Approved)	299

VOLUNTARY EXCLUSION PROGRAM

Matthew Shouse
VEP Coordinator

Through the Voluntary Exclusion Program (“VEP”), individuals may voluntarily exclude themselves from Indiana casinos by requesting to enter the VEP.

The primary goal of the VEP is to address problem gambling in Indiana, allowing those with such a problem to exclude themselves from all casinos within the State.

The Commission has administered the VEP since its inception in 2003. Individuals wishing to exclude themselves from Indiana casinos can do so in person at the Commission office in Indianapolis or at any Indiana casino. In order to qualify, the interested individual must fill out the “Request for Voluntary Exclusion” form in the presence of a gaming enforcement agent or a Commission staff member. The request form must be completed voluntarily, and may not be completed while under the influence of alcohol, controlled substance, or prescription medication. The individual may elect an exclusion period of one year, five years, or for life. The request form and the identity of the applicant remains confidential. It is the participant’s responsibility to avoid gambling.

A person electing the one-year or five-year exclusion option may request to be removed from the program at the end of the exclusion period. Participants wishing to be removed must complete a removal form in the presence of a gaming agent or a Commission staff member. After Commission approval, the participant will be removed from the exclusion list. To date, 482 individuals have been removed from the voluntary exclusion list.

During FY 2009, 651 new participants enrolled in the VEP and 176 participants chose to remove themselves from the program. This past year, the Commission amended the current VEP forms, including both the enrollment and removal applications.

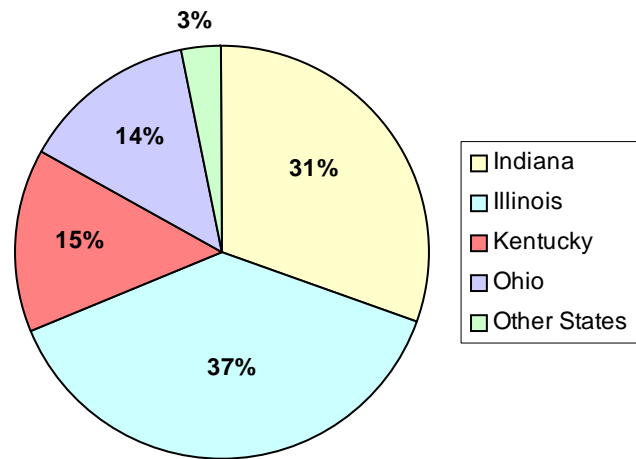

VEP STATISTICS

There were 3,609 active members from twenty-two different states in the Voluntary Exclusion Program as of June 30, 2009. The graphs below display the program participants, categorized by age, sex, home state, and length of exclusion.

LEGAL DIVISION

Phil Sicuso
General Counsel

In FY 2009, the Legal Division continued to provide comprehensive legal and advisory services to the agency. In addition to its customary functions, in FY 2009 the Division completed several special projects, underwent a partial reorganization resulting in the provision of legal services to the Charity Gaming Division through the assistance of the License Control Counselor, and even began crafting draft regulations in preparation for the effective date of SEA 160 and the incorporation of the State Athletic Commission into the Commission's purview.

Occupational Licensing

In coordination with the Compliance Division, the Legal Division has renewed its mission to take appropriate action against occupational licensees who do not comply with Indiana gaming laws and regulations. Legal Division attorneys regularly review Gaming Agent reports to identify instances of material wrongdoing, track disciplinary actions through the occupational licensee database, and focus on encouraging compliance through awareness by issuing reprimand letters to

Adam Packer
Deputy General Counsel

occupational licensees who commit certain first-time violations. In FY 2009, Division attorneys also pursued penalties against occupational licensees determined to be repeat offenders as well as individuals who committed more egregious first-time offenses.

Supplier Licensing

The Legal Division is the initial contact for all prospective supplier licensees. If the Commission receives an inquiry about becoming a supplier licensee, the Division will determine whether a supplier license is necessary by analyzing the company and applicable gaming laws, regulations, and Commission policies. In FY 2009, the Legal Division created a supplier inquiry form to assist in processing and responding to licensure inquiries from companies wishing to do

business with Indiana casinos. The form is available on the Commission website (at <http://www.in.gov/Commission/2619.htm>), and it allows the Legal Division to make quicker and better informed decisions regarding whether Indiana law requires a company to acquire a supplier's license. To date, the Commission has received twenty-nine inquiries. Of those, the Legal Division determined that six would need to be licensed before they could sell their products and services to casinos.

Administrative Rules

The Legal Division continued to review the Commission's regulations to reflect updated policies, new technologies, and changing industry standards.

Kesha Rich
Occupational Licensing Coordinator

The Legal Division researched, drafted, and guided seven final rules through the full promulgation process as well as three other rules through the emergency rule process during FY 2009. The rules included: an update of MBE and WBE standards; an overhaul of the exclusion process; junketeer certification procedures; standards for patron counting systems; charity gaming updates; a new civil fine system for regulatory violations; and other general language updates.

Kyle Shapiro
Secretary

Exclusion

The exclusion list is comprised of individuals who have been barred by the Commission from entering any Indiana casino as a result of their actions while at an Indiana gaming facility. The Legal Division conducts a regular review of all criminal case reports filed by gaming agents and takes administrative action to exclude individuals as deemed appropriate by the Executive Director. After placement on the exclusion list, an individual must wait three years before applying for removal. To date, the Commission has excluded 108 individuals for offenses ranging from cheating at a gambling game to theft from another patron. In FY 2009, the Commission added nine individuals to the exclusion list and granted one application for removal.

Public Records

During FY 2009, the Division, primarily through the efforts of the Commission's Information Analyst, received and responded to approximately forty public records requests, resulting in about 3,500 pages of disclosed documents. The Information Analyst also researched and drafted several substantive updates to the Commission's records retention schedule with plans to fully implement the changes in FY 2010.

Andrew Means
Information Analyst

Junket Operators and Junketeers

In FY 2009, the Commission created a pilot program for the certification of junket operators and junketeers. In addition to drafting forms and regulations regarding certification standards, the Legal Division administers the junket operator and junketeer certification program on an ongoing basis. During the fiscal year, a total of eight junket operator and junketeer certifications were issued.

CHARITY GAMING DIVISION

Diane Freeman
Director of Charity Gaming

Indiana Code 4-32.2 allows bona fide religious, educational, senior citizens, veterans, fraternal, civic organizations, hospitals, health facilities, psychiatric facilities, and political organizations to apply for qualification to conduct charitable gaming in Indiana.

The Charity Gaming Division is responsible for the licensing and regulatory enforcement of charity gaming in Indiana. Its goal is to ensure compliance with applicable statutes and regulations in a manner that promotes the integrity of charitable gaming in Indiana.

The staff is dedicated to providing instruction and guidance to organizations so that they may utilize charitable gaming to meet their fundraising needs for the furtherance of their lawful purposes.

During FY 2009, eight charitable gaming seminars were conducted to educate non-profit organizations regarding legislative changes, regulation updates, financial reporting, qualification, and license requirements. Seminars were held in Indianapolis and attended by approximately 581 representatives either from qualified organizations or organizations seeking information about how to become qualified and conduct their allowable events.

Currently, 3,032 organizations are qualified to conduct charity gaming in Indiana. Of that number, 227 organizations became qualified during FY 2009. The Division issued 3,189 gaming licenses, eighteen manufacturer and forty-six distributor licenses during FY 2009. Three hundred-fifty eight approval notices for non-licensed events were issued for the same period.

Larry Delaney
Deputy Director of Charity Gaming

The National Association of Fundraising Ticket Manufacturers has rated Indiana fifth out of all gaming states in gross income reported. Gross income reported by Indiana qualified organizations for FY 2009 was \$542,954,567, with total prize payouts of \$435,764,498.

The field staff conducted 103 compliance investigations, eighty-seven pre-license investigations, which are required when obtaining an annual bingo or annual charity game night license, and thirty-nine site inspections. Based on the violations cited during these investigations and inspections, seven organizations were denied a license, fines were levied against nineteen organizations, five organizations owed additional license fees and one organization's license was revoked. Disciplinary actions are pending as the administrative appeal process continues.

ENFORCEMENT DIVISION

Kenny Rowan
Director of Enforcement

There are 150 Gaming Enforcement Agents assigned to various casinos throughout the state of Indiana. Each casino is assigned ten Agents and one Supervisor. The Agency has five Enforcement Investigators, two assigned to northern Indiana, one assigned to southern Indiana, one assigned to central Indiana, and one assigned to southeast Indiana. Three Assistant Directors are each responsible for a designated area of the state. The primary responsibility of the enforcement agents is to ensure that casino gaming is conducted in strict compliance with the laws and regulations in Indiana.

In FY 2009, the Enforcement Division experienced another busy year with the opening of the permanent facility of Indiana Live!, and the opening of Hollywood Casino in Lawrenceburg, Indiana (formerly “Argosy”).

During FY 2009, the Enforcement Division has been working to improve the Gaming Enforcement Academy. The balance between regulatory oversight and gaming and criminal investigations training has been paramount. First, during our academy classes an Enforcement Agent has been assigned to act as a liaison between the recruits and the Indiana Law Enforcement Academy staff. Second, as part of their training, agents are sent to a casino for a week to receive instruction from a Field Training Officer in table games and slot machines, as well as daily regulatory issues, gaming crimes, and criminal investigations. The Enforcement Division strives to give the recruits a better understanding of the responsibilities of an enforcement agent while they receive training at the Gaming Enforcement Academy.

Tom McCord
Assistant Director - South Units

Jim Regan
Assistant Director– North Units

The Enforcement Division has also conducted numerous regulatory and criminal investigations. In April, agents and investigators conducted an investigation of an alleged card-marking team. The team used this method of cheating at twenty-six casinos throughout the country, resulting in a loss of approximately \$500,000 to the casinos. On April 25th agents at Majestic Star casino arrested three members of the alleged team. The investigation is ongoing.

Indiana Gaming Commission 7th Class

Brad McQuitty
Assistant Director– Central/Southeast Units

GAMING CONTROL DIVISION

The Gaming Control Division conducted 160 investigations during FY 2009. The investigations led to the confiscation of 578 illegal gambling devices. Additionally, enforcement action was taken against six illegal poker establishments. Six bookmaking operations have also been raided, resulting in criminal charges filed and financial information turned over to the Internal Revenue Service, as well as the Indiana Department of Revenue. A total of 1,675 inspections were conducted at retail businesses to ensure that illegal gambling devices were not present.

Larry Rollins
Gaming Control Director

Prosecutors have successfully filed a forfeiture action on a box truck, a cargo trailer outfitted as a mobile casino, and more than \$2000.00 in cash as a result of our investigations. The box truck is now being used by the Gaming Control Division to transport evidence and by the Indiana Department of Corrections for various tasks.

Twenty-six vending and amusement machine businesses have also been interviewed. Based on these interviews, the number of illegal gambling devices that have been removed by distributors is conservatively estimated at 3,289. Combining the number of illegal gambling devices seized by the Gaming Control Division and the conservative estimate of devices removed by distributors, a total of 4,648 are no longer operating in Indiana.

The Gaming Control Division also worked with Indiana State Excise Police, Indiana State Police, and various local and sheriff police departments on thirteen different investigations. One investigation of particular interest was in Pulaski County. A Gaming Control Officer successfully assisted the sheriff's department in a murder for hire case. The individual received a thirty year sentence. Additionally, as a result of these investigations, individuals have been charged with weapons violations, drug violations, and two have been arrested on outstanding warrants.

The Division currently has thirty-six active investigations.

INFORMATION TECHNOLOGY DIVISION

Tom S. Stuper
Systems Administration Manager

In FY 2009, the Information Technology Division played a significant role in various Commission projects. The Division made several enhancements to the Occupational Licensing System to allow the system the flexibility to meet the needs of the Legal and Investigations Divisions.

The Division's design and development of a new Charity Gaming Application had started in earnest. This new application will replace an older, outdated system that the Charity Gaming Division brought with them when they transferred to the Commission from the Department of Revenue. The Division also coordinated several network changes as a result of casinos moving into new structures. These moves also required changes to systems to accommodate casino name changes and the creation of new photo ID badges for casino employees.

Robert Paugh
Application System Analyst/Programmer - Senior

Michael Stokes
Application Developer—Senior

The Division installed new software for the Gaming Control Division so that its officers now are able to issue citations directly from their laptop computers. Finally, with the assistance of central office staff, the Division conducted a study to determine document handling requirements. This study helped identify many processes that could be handled in an electronic method to eliminate the need to print documents.

LICENSE CONTROL DIVISION

The primary purpose of the License Control Division is to conduct administrative enforcement actions against licensed entities engaged in unlawful gambling. In addition, the Division assists the Gaming Control Division in its mission to investigate suspected violations of the unlawful gambling laws by providing legal support, drafting search warrants, and helping to obtain subpoenas. The Division also works as a liaison with local county prosecutors to advocate the filing of criminal and civil charges when appropriate.

Julien Agnew
Director of License Control

During FY 2009, the Division drafted several search warrants which have been successfully executed and have resulted in the confiscation of numerous illegal gambling devices and proceeds of illegal gambling activity. The Division also consulted with many of the State's elected prosecuting attorneys in furtherance of the filing of criminal charges for violations of Indiana's gambling laws, which has resulted in numerous misdemeanor and felony criminal charges being filed in appropriate circumstances.

BACKGROUND AND FINANCIAL INVESTIGATIONS

In FY 2009, the Background and Financial Investigations Divisions stayed busy with the submission of applications for ten new suppliers to Indiana Casinos. These companies provide a variety of goods and services, from slot machines to currency counters and surveillance equipment to electronic poker tables.

Garth Brown
Director of Background Investigations

Pursuant to IC 4-33-7-8, the holder of an Indiana supplier's license must submit to a complete re-investigation every three years to remain in compliance with Indiana law. During FY 2009, ten of Indiana's thirty-five supplier licensees were required to submit to a re-investigation, which included over seventy individual key person investigations.

In FY 2009, the Divisions completed a total of 191 Level 1 investigations associated with casinos, suppliers, and corporate investigations. The Divisions completed 2,744 Level 2 and 3,027 Level 3 investigations of those individuals employed at casino property. These numbers increased with the opening of larger facilities at Horseshoe Hammond and Hollywood Casino.

The Commission receives reimbursement from applicants for hours spent working on their investigations. In FY 2009, a total of 13,298 hours were logged. Keeping with efficiency standards, the Divisions maintained a billable rate of 69.1%.
