

PY2024 Energy Assistance Progress by County

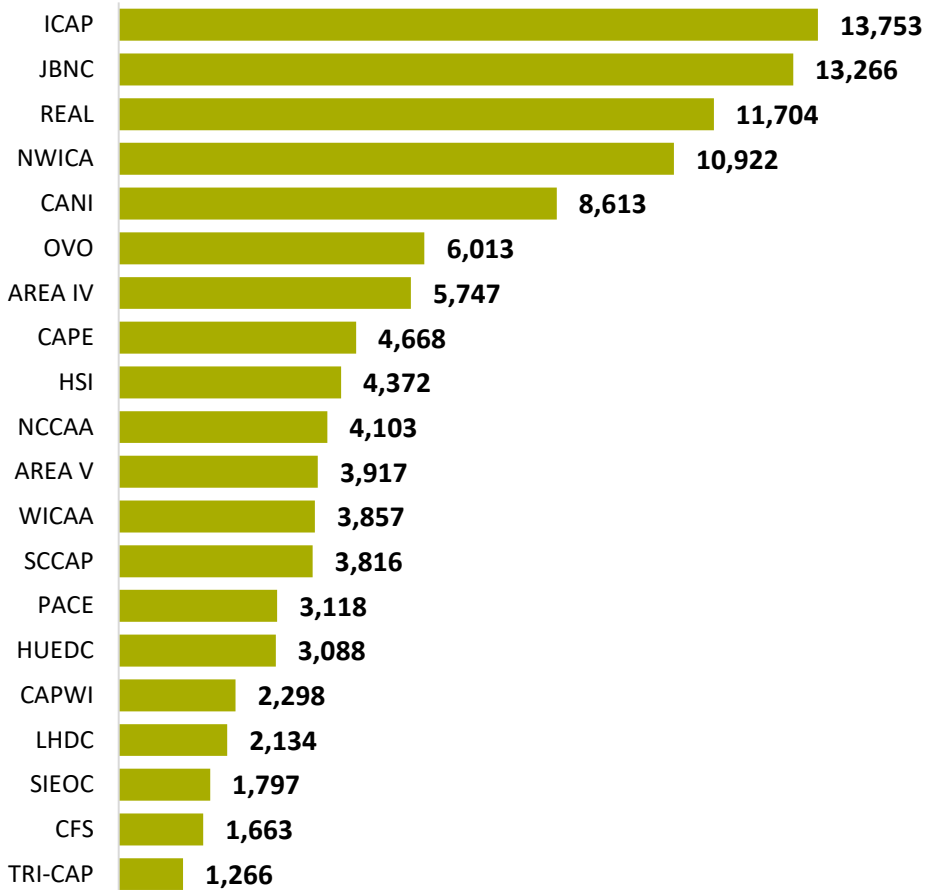

As of April 1, 2024

Number of Households Approved for EAP

The number of households approved varies between counties and reflects the population size. More populous counties have more applicants which leads to more approved households.

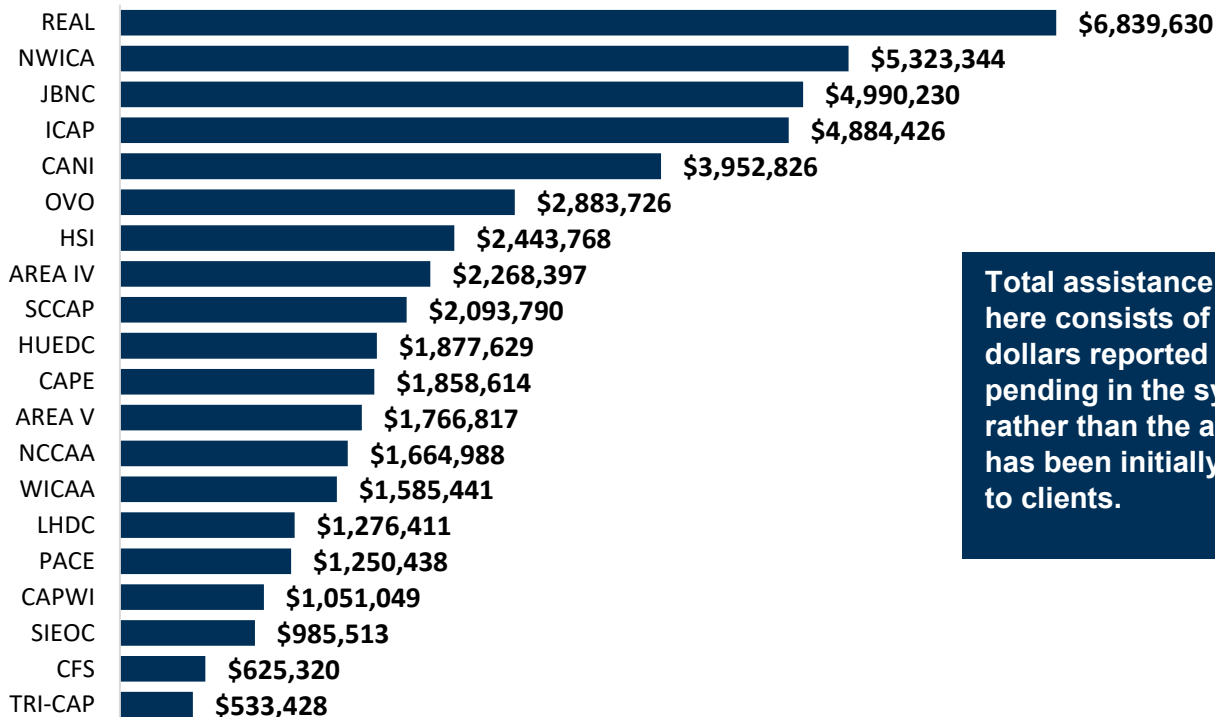

Households Assisted by Agency

The **Energy Assistance Program (EAP)** is a federally funded program through the U.S. Department of Health and Human Services (HHS) called the Low-Income Home Energy Assistance Program (LIHEAP). EAP provides a one-time annual benefit that can assist homeowners and renters with the high cost of home energy and can help if utilities are disconnected or are about to get disconnected.

The EAP program is administered in partnership with local service providers (LSPs). LSPs process all applications; to apply in-person or request a paper application form, applicants must contact their Local Service Provider. For more information on which LSP serves your county and the link to apply online, visit <http://eap.ihcda.in.gov>.

Total Assistance Awarded by Agency

Total assistance reported here consists of the total dollars reported claimed or pending in the system rather than the amount that has been initially obligated to clients.

To find out more about the EAP program and the local service providers (LSPs) that serve each county, go to [IHCDA's EAP page](#).
