

2024 Energy Assistance Program Progress

The Energy Assistance Program (EAP) is a federally funded program through the U.S. Department of Health and Human Services (HHS). EAP provides a one-time annual benefit that can assist you with the high cost of home energy and can help if you are disconnected or are about to become disconnected.

Indiana households that make 60% of the state median income (60 SMI) or less may qualify for these benefits.

You can apply for an energy assistance benefit for Program Year 2024 until May 20, 2024 here: EAP.ihcda.in.gov
