Mr. Michael Cline, Commissioner
Indiana Department of Transportation
100 North Senate Avenue
Indianapolis, IN 46204

Dear Commissioner. Cline:

On June 20, 2011, the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) received the Indiana Department of Transportation's (INDOT's) FY 2012-2015 Statewide Transportation Improvement Program (STIP). The INDOT is proposing to incorporate the following Metropolitan Planning Organizations' (MPOs') Transportation Improvement Programs (TIPs) into the new STIP:

<u>Metropolitan Planning Organization</u>	<u>TIP COVERAGE</u>
Madison County Council of Governments *	2012-2015
Bloomington/Monroe County Metropolitan Planning Organization	2010-2013
Columbus Area Metropolitan Planning Commission	2012-2016**
Evansville Metropolitan Planning Commission *	2010-2013
Northeastern Indiana Regional Coordinating Council *	2012-2015
Indianapolis Metropolitan Planning Organization *	2012-2015
Kokomo-Howard County Governmental Coordinating Council	2011-2014
Area Plan Commission of Tippecanoe County	2012-2015
Kentuckiana Regional Planning and Development Agency *	2011-2015
Delaware-Muncie Metropolitan Plan Commission *	2012-2015
Northwestern Indiana Regional Planning Commission *	2009-2013
Michiana Area Council of Governments *	2012-2015
West Central Indiana Economic Development District *	2012-2015
Ohio-Kentucky-Indiana Regional Council of Governments *	2012-2015

* *FHWA-FTA conformity findings have been issued for these TIPs per 40 CFR 93*

** *FY 2016 projects shown in the Columbus Area's TIP are beyond the timeframe of the FY 2012-2015 STIP and therefore are not included.*

Air quality conformity has been found to be acceptable and funding targets used for financial constraint were reviewed in advance of the STIP being submitted for approval. The federal agencies appreciate the opportunity to have this advanced review. In the area of public involvement, INDOT continued to use its web-site to be a primary method to collect public comments on the STIP. INDOT continues to receive more comments than in previous years. These comments are being summarized and included in the final STIP document.

This year, INDOT also approved many of the MPOs' TIPs on the same State fiscal years as the STIP. This helps to communicate fiscal constraint and helps to manage public expectations. However, new TIPs for the Bloomington Monroe County Metropolitan Planning Organization and the Northwest Indiana Regional Planning Commission areas have recently been adopted by their respective policy boards. These are not yet included in the FY 2012-2015 STIP. INDOT is reminded to take action on these documents within a reasonable time.

As you know, FHWA and FTA are both required to certify the State is in substantial compliance with all federal planning requirements when taking action to approve a STIP document. The last time the STIP document was approved, the federal agencies conditionally approved the FY 2010-2013 STIP document pending a corrective action. That corrective action was for effective planning procedures and agreements between the MPOs, transit operators, and the INDOT offices to clearly identify how key planning tasks are to be coordinated and completed, and who internally at INDOT is responsible for these activities.

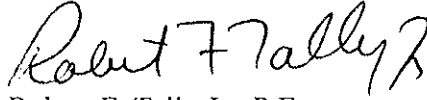

INDOT provided a status of its efforts to update its planning procedures. However, FHWA notified INDOT on March 10, 2011 that steps taken to date were incomplete and the corrective action would remain until the following final documents are provided:

- New State/MPO/Transit Planning Agreements;
- INDOT's "MPO Manual" or handbook that describes how key products (i.e. Metropolitan Transportation Plans, Transportation Improvement Programs, Annual Listings of Obligated Projects, etc.) are developed in cooperation with INDOT, and which identifies with whom these documents are prepared and when they will be approved by the State;
- Revisions to the Local Public Agencies Manual to address the role of MPOs in the LPA project development process.

Until final procedures are completed, FHWA and FTA are conditionally approving the FY 2012-2015 STIP with this pending corrective action. Please contact Joyce Newland, Planning Program Manager, at 317-226-5353/ joyce.newland@dot.gov, to schedule a meeting no later

than the end of this month to discuss the timeline of the remaining corrective actions.

Sincerely,

**BMCMPPO FY 2012-2015 TIP is currently under review and will be incorporated upon approval*

*** CAMPO projects in FY 2016 will not be incorporated into the FY 2012-2015 STIP*

**** NIRPC's FY 2012-2015 TIP will be incorporated upon its approval*

In regards to the corrective action that was issued with the approval of the 2010-2013 STIP, and the subsequent extension of the corrective action via communication from your office, dated March 10, 2011, we believe all issues and concerns have been addressed. In April of this year the Annual Program Development Process (APDP) addressed comments and observations provided to INDOT by your staff. This document will now be posted on the INDOT website. The status of other documents and processes outside the APDP are as follows:

Program Guidance Update & Review

- Round 1 of updates was completed and utilized under the most recent set of project Notices of Funding Availability (formerly project calls).
- Round 2 of updates to gain consistent formatting as well as further updates to applications will take place in preparation for the next set of calls set to commence in July 2011.
- A final round of revisions is expected to implement minor adjustments needed to the documents.
- It is anticipated that on-going adjustments will be made to the program guidance, applications and scoring documents.

LPA Guidance Document Update

- The Guidance Document update is finalizing adjustments to layout, order and chapter headings.
- Next steps will be to engage the newly established LPA Policy & Procedures Leadership Team to identify and establish working groups/task forces to make technical revisions to the document.
- All proposed adjustments will be taken to an Industry Advisory County and LPA Advisory Council for comment before full adoption by the LPA Policy & Procedures Leadership Team.
- Completion of the revision is expected by the end of the calendar Year.

INDOT LPA Standard Operating Procedures

- The INDOT LPA Standard Operating Procedures will be developed through the LPA Policy & Procedures Leadership Team and with the utilization of task forces, much like the guidance document revisions.
- There will not be external vetting of the procedures laid out in the LPA Standard Operating Procedures, but procedures will be developed in a means to complement the guidance document. Completion is expected with the LPA Guidance Document updates at the end of the calendar year.

MPO Local Guidance Document Incorporation

- The final review of this chapter within the guidance document is going through committee review and then will be passed along for review by the LPA Policy & Procedures Leadership Team for incorporation into the revised guidance document.

MPO – INDOT Coordination Manual

- Early chapters of the manual are under preliminary review.
- Continued development of the manual will resume in mid-July once the early, introductory chapters have completed review.
- The manual is currently expected to be complete by September 30, 2011

MPO Agreements

- Draft of MPO boilerplate is with legal staff for review.
- Post legal review will have a final review by the MPO Agreement Task Force
- Upon their approval, it will be distributed to the MPO Council and negotiation of individual MPO agreements will begin.
- Negotiations are expected to begin by early July.

We greatly appreciate you and your staff's support in this process and look forward to working together to achieve our mutual goals.

If you have any questions concerning this document, please do not hesitate to contact the Office of Capital Program Management staff directly. Thank you for your consideration.

Sincerely,

Michael B. Cline

Dear Mr. Swanson:

The Indiana Department of Transportation has completed its review of the 2009-2013 Transportation Improvement Program (TIP) for the Northwest Indiana Regional Planning Commission Metropolitan Planning Area. State and locally initiated transportation projects were reviewed for accuracy and compliance under the Safe, Accountable, Flexible, Efficient Transportation Equity Act, a Legacy for Users (SAFETEA-LU) and the Clean Air Act Amendments of 1990. The Federal Highway Administration and the Federal Transit Administration issued a conformity finding on February 4, 2009 that the 2009-2013 TIP is consistent with the approved 2030 Transportation Plan for Lake, Porter, and LaPorte County.

Based on our review and the above conformity finding, it is my pleasure to inform you that on behalf of Governor Mitchell E. It is my pleasure to inform you that on behalf of Governor Mitchell E. Daniels Jr., I approve your FY 2012-2015 Transportation Improvement Program. This document will serve as support for the local and INDOT projects in your area that fall within the FY 2012-2015 timeline and will be included by reference in the FY 2012-2015 Indiana Statewide Improvement Program. However, projects not shown by reference will be amended into the INSTIP upon request.

If you should have any questions, please feel free to contact Audra Blasdel at 317-234-5142.

Sincerely,
