

# IOT Data Exchange - 2023

**Who We Are:**

A team that provides data transfer management using GoAnywhere and MuleSoft platforms.

**Our Mission:**

To provide high-quality, innovative data transfer solutions using standardized enterprise applications and industry best practices.

**Department:** 493021

**Manager:** Mark Giblin

**When We Were Formed:**

The IOT Data Exchange Team was formed September 2019 to replace the IOT BizTalk Services Team.

**What We Do:**

Data Exchange is responsible for managing the systems along with the safe and secure exchange of data between core systems both inside and outside the State of Indiana.

**Our Products:**

1226	MuleSoft API Management
1227	GoAnywhere MFT

**Our Tools:**

GoAnywhere Managed File Transfer  
MuleSoft API Management

**Our Metrics:**

A Project Charter accepted by our department and our customer drives our metrics. Within the Project Charter, we define such elements as timeline, scope, and cost. We also offer optional software maintenance and support.

**Our Customers:**

All state agencies. The most active customers include BMV, DCS, DWD, FSSA and IDOH.

**Our Budget:**

Varies depending on partners utilizing the standardized platforms.

**Our Growth:**

The number of users varies but has shown steady growth in 2022.

**Current Projects:**

- MuleSoft C4E
- GoAnywhere C4E
