

# 2017 Fall Living Covers Planted After Soybeans

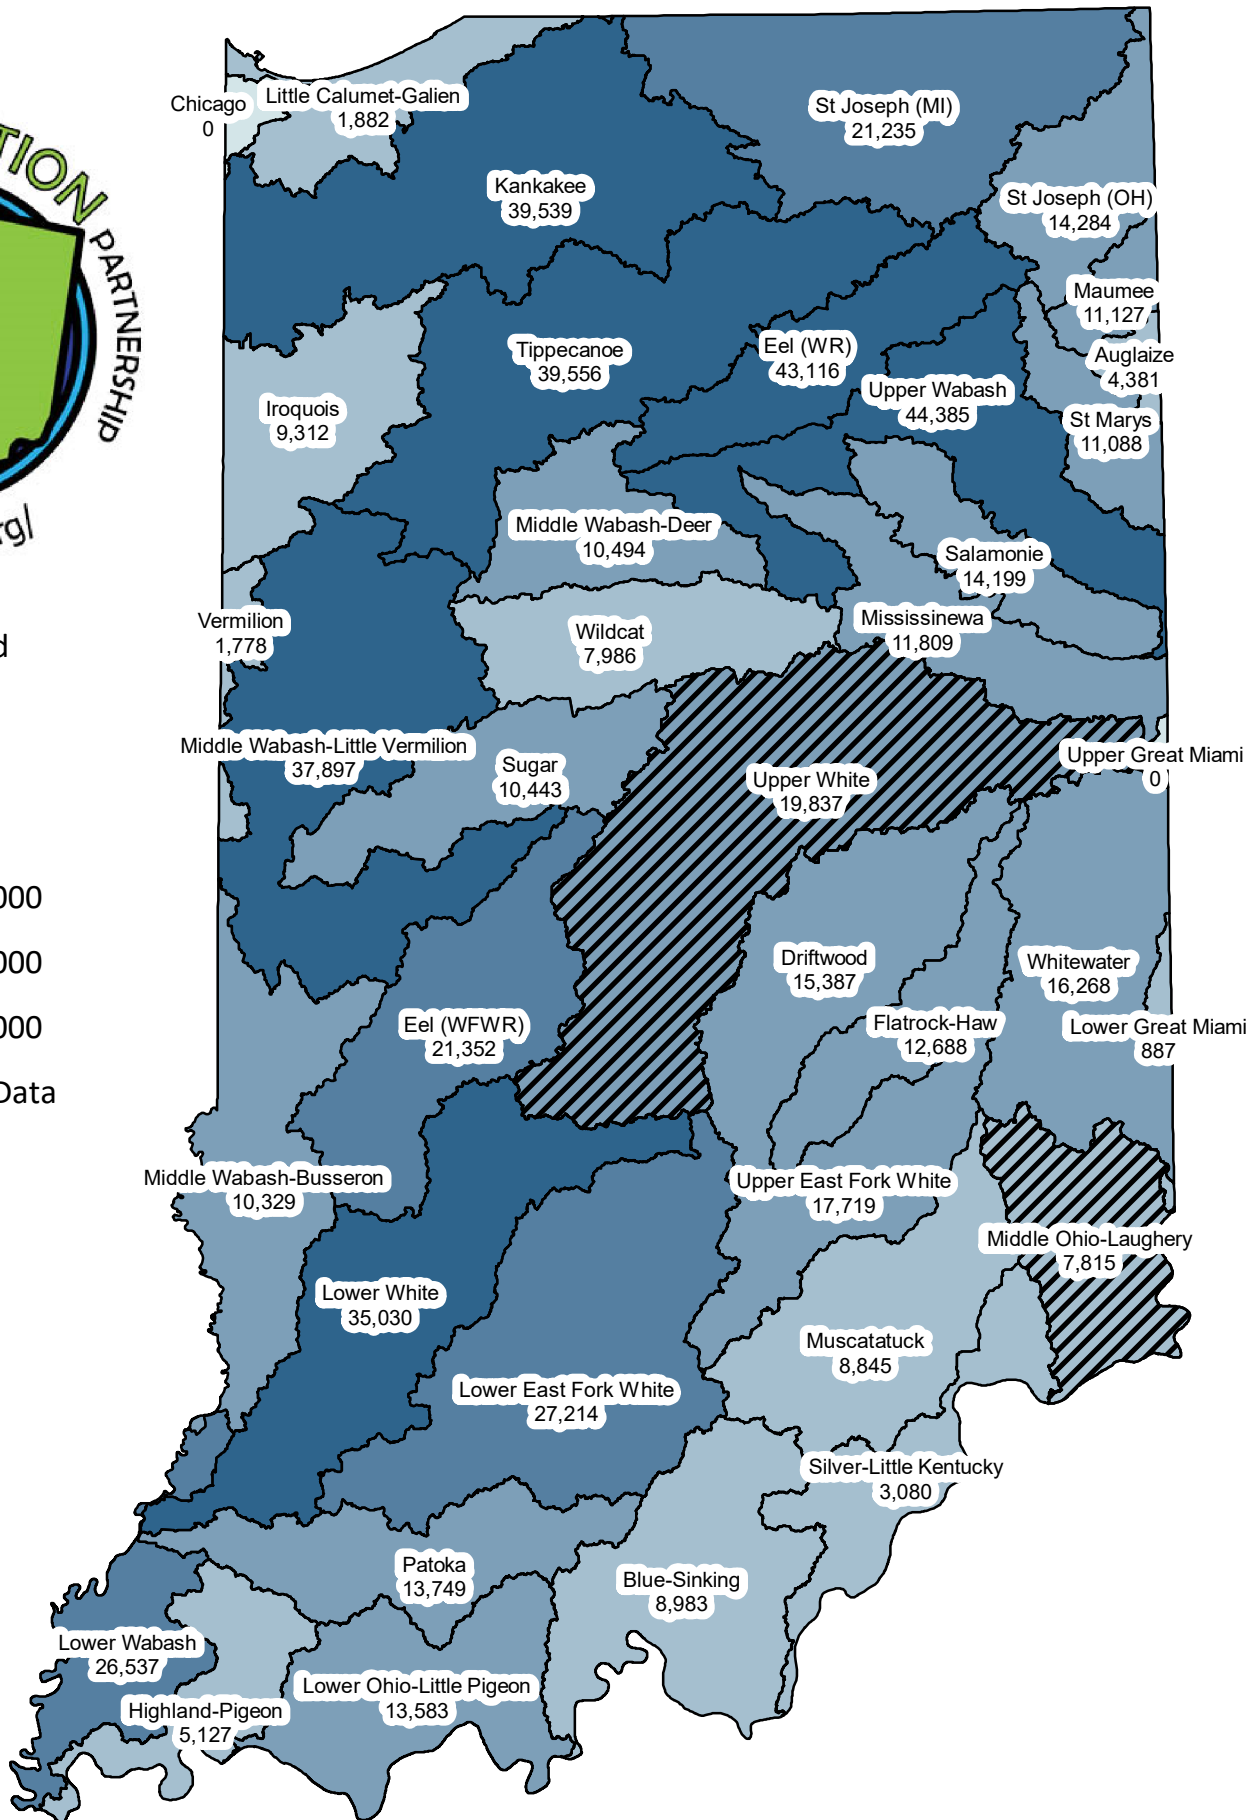

## Living Covers Planted

### Acres

Acres are based on the 2017 NASS Cropland Data Layers

\*Windshield surveys were conducted between November 2017 and April 2018, and therefore may not reflect cover crops or cereal grains that emerged beyond said timeframe. Hamilton and Ohio county data are not included at this time, but will be updated in time. Marion County does not conduct Tillage and Cover Crop Transects due to heavy urbanization.
