

# Percent Change in No-till Acreage from Spring to Fall 2017

## Percent Increase

Acerages are based on the 2017 NASS Cropland Data Layers.

\*Windshield surveys were conducted between November 2017 and April 2018 (Fall 2017) and March 2017 and June 2017 (Spring 2017), and therefore may not reflect cover crops or cereal grains that emerged beyond said timeframe.

Hamilton and Ohio county data are not included at this time, but will be updated in time.

Marion County does not conduct Tillage and Cover Crop Transects due to heavy urbanization.
