

# Living Covers Planted After 2021 Harvest of All Crops (Acres)

**Living Cover Planted After  
2021 All Crop Harvest**

Crop acres calculated from  
2021 USDA National  
Agriculture Statistics Service  
(NASS) Cropland Data Layer

Windshield surveys were conducted no sooner than 10 days after the first predicted period of 3 consecutive daytime temperatures above 40° F, and therefore do not represent field conditions outside of that time frame. For more information about transect surveys see:
