When a Notice of Change is Required

A provider does not have to file a Notice of Change for changes in video programming or other programming. This is done within the provider's annual report that is due to the Commission on March 1st of each year and should reflect changes made during the previous year.

Other changes must be filed through a Notice of Change, which consists of the following:

- Applicant's name and Certificate Number should appear on the cover page and in the top right-hand corner of each page of the form.
- Complete responses to the questions on the form regarding the applicable change(s)
- *For changes in the legal or assumed name*, a copy of the Certificate of Authority from the Indiana Secretary of State.
- *For changes to the size of one or more existing DSA:*
 - a map showing both the existing DSA territory and the new DSA territory; and

- an updated DSA table of all counties, townships, local units, and zip codes within the DSA. Increases to an existing service territory must be contiguous to an existing DSA.
- The Certificate Number on the Notice of Change shall reflect the Certificate Number with the appropriate extension(s).

The Notice of Change must be filed with the Commission at least ten (10) days prior to the effective date of the change. In the case of a DSA change that requires notice to the Unit, the Notice of Change must be filed with the Commission simultaneously with notice to the Unit (i.e., ten [10] days prior to providing service in the Unit).

Filing Applications and Notices of Change

Submit Applications and Notices of Change through the Commission's electronic filing system at <https://iurc.portal.in.gov>.

Notice of the receipt of Applications and Notices of Change will be posted to the Commission's website at <https://www.in.gov/iurc/2337.htm>, under "Pending Cases and Filings".

Commission Review of Applications

The Commission will assign a Cause Number to the application, which will include the designation of "VSP" ("video service provider") and an extension. That Cause Number will become the Certificate Number upon approval. Applications to add additional DSAs should reference the original Certificate Number and the chronological extension. The extension shall be a number that reflects the number of Applications filed by the applicant to date.

Commission Review of Notices of Change

The Commission will add a letter in alphabetical order representing the number of Notices of Change filed with the Commission under the given Certificate Number and extension.
