MEMORANDUM

TO: Interim Chairman James F. Huston
 Commissioners Freeman, Weber and Ziegner

FROM: Commission Technical Divisions

DATE: March 9, 2018

RE: 30-Day Utility Articles for Conference on *Wednesday March 14, 2018 @ 2:00 p.m.*

The following thirty-day filings have been submitted to the Commission. Each item was reviewed by the appropriate Commission Technical Divisions and all regulations were met in accordance with 170 IAC 1-6 Thirty-Day Administrative Filing Procedures and Guidelines. Therefore, the following filings listed below and attached hereto are recommended to be considered by the Commission at the next conference:

Attachment Number	30-Day Filing No.	Name of Utility Company	Type of Request	Date Received

Filing Party: Indiana Municipal Power Agency
30-Day Filing ID No.: 50084
Date Filed: October 19, 2017
Filed Pursuant To: 170 IAC 1-6.
Request: On behalf of its members, the municipal electric utilities of the cities of Anderson, Crawfordsville, Lebanon, Richmond, and Tipton, Indiana (“Members”), the Indiana Municipal Power Agency (“IMPA”) filed a request to the Indiana Utility Regulatory Commission (“Commission”) for approval of an Economic Development Rider (“ED Rider”). The ED Rider, barring approval, would be available to all of the Members as approved by the respective city councils of the Members.

This request is allowable pursuant to 170 IAC 1-6-3(5) because the changes to rates and charges are revenue neutral. Furthermore, the ED Rider for each municipality is identical, and is applicable to IMPA’s wholesale rate applied to the reduction in the Member’s monthly bill as a pass-thru credit to customers.

IMPA noted in its filing that Members Kingsford Heights and Knightstown are in the process of leaving, or have recently left, Commission jurisdiction. They also indicated the only remaining Member under Commission jurisdiction not included in its request is the City of Frankfort, Indiana because it received Commission approval for an ED Rider in its last municipal electric base rate case in Cause No. 44856, in which the Office of the Utility Consumer Counselor (“OUCC”) supported.

Tariff Page(s) Affected: Economic Development Rider

Staff Recommendations: The portion of the filing for the cities of Anderson, Lebanon, Richmond, and Tipton supports their request. Therefore, Staff recommends approval for these municipalities. However, Staff withholds making a recommendation for the City of Crawfordsville until they have provided updated documentation¹.

¹ Staff noted discrepancies in Lebanon and Crawfordsville’s initial filings provided on October 19, 2017. These two municipalities provided updated filings on February 21, 2018 to correct the errors. However, Crawfordsville’s ED Rider still contains one discrepancy and Staff is anticipating a revised version of the filing before it can be approved.

Filing Party: **Indiana Bell Telephone Co., Inc. (d/b/a AT&T Indiana)**

30-Day Filing ID No.: 50110

Date Filed: Originally filed on January 29, 2018. Amended cover letter and tariff sheets filed on March 2.

Filed Pursuant To: 170 IAC 1-6; IC 8-1-2.6-1.5-6(d).

Request: According to AT&T Indiana, “This filing updates the Lifeline provisions included in IURC Tariff No. 20 for compliance with the Commission’s November 21, 2017 Order in Cause No. 41052-ETC-39 S1 granting AT&T Indiana’s request for a partial relinquishment of its eligible telecommunications carrier” (“ETC”) designation.¹

Retail Customer Impact: As stated in Section 1.A. of the tariff revisions, “Effective March 16, 2018, Low-Income Program (Lifeline) service is available only to eligible AT&T Indiana customers who reside in the AT&T Indiana retained ETC designated service area², as described and shown on the census block list appearing in [the embedded pdf document on Sheet 1 of the tariff] and on the map appearing on Sheet 4...”³

Tariff Page(s) Affected: I.U.R.C. No. 20 - Part 4, Section 4, Sheets 1 – 4.

Staff Recommendations: Requirements in 170 IAC 1-6 were met. Furthermore, this tariff filing is consistent with the Commission’s Nov. 21, 2017, Order in Cause No. 41052-ETC-39S1.⁴ **Recommend APPROVAL.**

¹ Until March 16, The Commission’s ETC designation “applies to all of [AT&T Indiana’s] wire centers for its current service area.” *See*, Cause No. 41052-ETC-39, Ord. Para. No. 1 (Order, issued Dec. 23, 1997).

² The phrase “retained ETC designated service area” refers to the portion of AT&T Indiana’s existing ETC area in which it will remain an ETC after March 15 under applicable provisions of FCC rules. *See*, 47 C.F.R., Part 54, Subpart C, §§ 54.201 - 54.207.

³ “Lifeline service” is as referred to in 47 C.F.R., Part 54, Subpart E, §§ 54.400 - 54.423.

⁴ In stating that “this tariff filing is consistent with the Commission’s Nov. 21, 2017, Order in Cause No. 41052-ETC-39S1”, Staff is not expressing any opinions about whether AT&T Indiana has, or has not, fully complied with any IURC orders, docket entries, or information requests in that proceeding.

Filing Party: **Indianapolis Power and Light (IPL)**

30-Day Filing ID No.: 50112

Date Filed: February 2, 2018

Filed Pursuant To: 170 IAC 1-6

Request: IPL requests approval of a continuation of its Time-of-Use Service for Electric Vehicle Charging on Customer Premises Rate (Rate EVX). IPL currently has 120 customers on Rate EVX, which has remained relatively stable since IPL's last filing in October 2014. Under this rate, charging of customers' electric vehicles (EVs) is separately metered and charged. IPL has found the rates in the current tariff effective in encouraging off-peak EV charging.

Tariff Pages Affected: **Sheet Nos. 130, 131, and 132**

Staff Recommendation: Approval

Filing Party: **Indianapolis Power and Light (IPL)**

30-Day Filing ID No.: 50113

Date Filed: February 2, 2018

Filed Pursuant To: 170 IAC 1-6

Request: IPL requests approval of a continuation of its Public Charging of Electric Vehicles Rate (Rate EVP). Rate EVP provides for public electric vehicle (EV) charging at the rate of \$2.50 per charge. IPL currently has 20 public charging stations on Rate EVP. All 20 stations are currently removed. Twelve will be replaced or upgraded by the end of January 2018. The eight that will be permanently removed have received little to no use for several years. IPL remains committed to providing public EV charging in Indianapolis.

Tariff Pages Affected: **Sheet No. 140**
