RE: 30-Day Utility Articles for Conference on *Wednesday, June 14, 2023 @ 10:00 a.m.*

The following thirty-day filings have been submitted to the Commission. Each item was reviewed by the appropriate Commission Technical Divisions and all regulations were met in accordance with 170 IAC 1-6 Thirty-Day Administrative Filing Procedures and Guidelines. Therefore, the following filings listed below and attached hereto are recommended to be considered by the Commission at the next conference:

Attachment Number	30-Day Filing No.	Name of Utility Company	Type of Request	Date Received
1	50650	Communications Corporation of Indiana	Revisions to the company's concurrence and exceptions as well as the check sheets of the JSI Interstate Tariff F.C.C. No. 1	5/4/2023
2	50651	West Point Telephone Company, Inc.	Revisions to the company's concurrence and exceptions as well as the check sheets of the NECA Interstate Tariff F. C.C. No. 5.	5/4/2023

Filing Party: Communications Corporation of Indiana, d/b/a TDS Telecom (“CCI”)

30-Day Filing ID No.: 50650

Date Filed: May 4, 2023

Filed Pursuant To: IC 8-1-2-88.6 & 8-1-32.5-11(c); 170 IAC 1-6; and Cause No. 45733.

Request: CCI currently participates in the JSI interstate tariff filed at the FCC, along with approximately 225 other small ILECs across the country. When JSI updates the interstate tariff, CCI must update its intrastate access tariff on file with this Commission to either concur in, or take an intrastate exception to, the JSI interstate update, even if the JSI interstate update applies to CCI only on an interstate basis but not on an intrastate basis, and even if the JSI interstate tariff change applies exclusively to an ILEC in another state but does not affect CCI at all.

The changes requested in this intrastate tariff filing would eliminate the need for CCI to make an intrastate access tariff filing under any of the above scenarios. If approved, in the future, CCI would only need to update its intrastate access tariff when a JSI interstate tariff change directly affects, or corresponds to, a CCI intrastate access rate, charge, term, condition, and/or rate element.

This filing also adds a list of seven other TDS ILECs that concur in CCI’s intrastate access tariff (the “Concurring Carriers”). If approved, the changes requested by CCI will exempt each Concurring Carrier from having to maintain its own separate intrastate access tariff in the future, unless it needs to introduce or modify an intrastate exception to the CCI Tariff I.U.R.C. No. 6.

Staff Recommendations: Requirements in 170 IAC 1-6 and IURC Cause No. 45733 were met. Pursuant to IC 8-1-32.5-11(c), this filing became effective upon filing. However, under IC 8-1-88.6, the Commission must still review the tariff to determine its reasonableness. Staff has performed such a review and believes the requested relief to be reasonable. Accordingly, Staff recommends approval of 30-Day Filing # 50650.

Filing Party: West Point Telephone Company (“West Point”)
30-Day Filing ID No.: 50651
Date Filed: May 4, 2023
Filed Pursuant To: IC 8-1-2-88.6 & 8-1-32.5-11(c); 170 IAC 1-6; and Cause No. 45733.

Request: West Point currently participates in the NECA interstate tariff filed at the FCC, along with over 950 other small ILECs across the country. When NECA updates the interstate tariff, West Point must update its intrastate access tariff on file with this Commission to either concur in, or take an intrastate exception to, the NECA interstate update, even if the NECA update applies to West Point only on an interstate basis but not on an intrastate basis, and even if the NECA interstate tariff change applies exclusively to an ILEC in another state but does not affect West Point at all.

The changes requested in this intrastate tariff filing would eliminate the need for West Point to make an intrastate access tariff filing under any of the above scenarios. If approved, in the future, West Point would only need to update its intrastate access tariff when a NECA interstate tariff change directly affects, or corresponds to, a West Point intrastate access rate, charge, term, condition, and/or rate element.

This filing also designates S & W Telephone, Inc. (a TDS ILEC affiliate of West Point) as a “Concurring Carrier” in West Point’s intrastate access tariff. If approved, the West Point filing will exempt S & W from having to maintain its own intrastate access tariff in the future, unless it needs to introduce or modify an intrastate exception to the West Point Tariff I.U.R.C. No. 1.
