INDIANA HEALTH COVERAGE PROGRAMS BT202311 FEBRUARY 7, 2023

IHCP announces EVV explanation of benefits recoupment codes

Federal law requires personal care service and home health service providers to use an electronic visit verification (EVV) system to document services rendered and directs Medicaid programs to implement this requirement. The requirement that personal care service providers use an EVV system has been in place since Jan. 1, 2021, and will be in place for home health service providers as of Jan. 1, 2024.

The Indiana Health Coverage Programs (IHCP) previously announced in *IHCP Bulletin* [BT2022114](#) that the IHCP would begin recouping selected claims in early 2023. Providers impacted by this recoupment will see this activity identified by the following new explanation of benefits (EOB) recoupment codes:

- 8015 – *EVV Post Payment Review Recoupment – Full Recoupment (this will be applied for claims with all claim details impacted by EVV noncompliance)*
- 8016 – *EVV Post Payment Review Recoupment – Partial Recoupment (this will be applied for claims with only select, but not all, claim details impacted by EVV noncompliance)*

Providers impacted by the recoupment are encouraged to review their EVV activity and resubmit their claims upon ensuring their claims are now EVV compliant.
