MANAGEMENT PERFORMANCE HUB

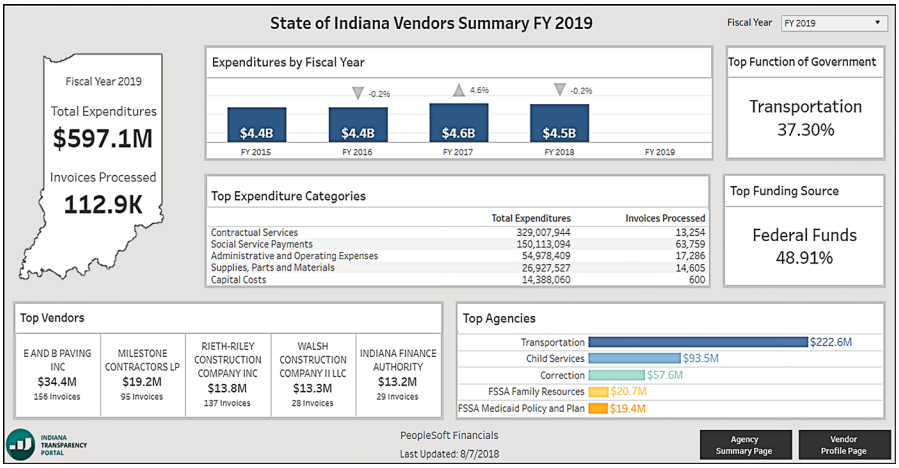
INDIANA TRANSPARENCY PORTAL

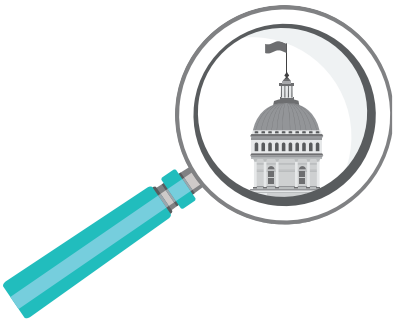
INDIANA TRANSPARENCY PORTAL

The Indiana Transparency Portal (ITP) is an online repository of Indiana's budgets, expenditures, revenues and contracts related to the operation of the State. The Auditor of State and MPH have teamed up to enhance the visibility and user experience of the portal.

Utilizing the latest in data analytics technology, Auditor of State, Tera Klutz, worked closely with MPH and IOT to develop and implement new features to the site. State finance information can be extremely complex.

Enhancements to the site are designed to assist the user by summarizing the data into easy to understand sections. These dashboards are organized by topic and can be filtered by agency, fiscal year, and many others.





Phase I of this project was completed in June 2018. It successfully addressed the majority of the data users' anticipated needs, also known as user stories. Phase II and Phase III are planned over the next year.

Those phases will address topics such as employee compensation, fund balances, contracts, and federal grants. Some of these topics are much more complex and will require more time to ensure that the final product provides valuable insight into government finance.

CONTINUOUS IMPROVEMENT
