## **Fountaintown Gas Rate Case: Consumer Comments Invited**

If you want to comment on Fountaintown Gas Company's proposed rate increase, you are invited to do so.

The Indiana Office of Utility Consumer Counselor (OUCC), the state agency representing consumer interests in cases before the Indiana Utility Regulatory Commission (IURC), is reviewing the utility's request and is scheduled to file its recommendations on Feb. 6, 2023.

Current base rates for Fountaintown Gas – a natural gas utility providing service to more than 3,500 customers in Decatur, Hancock, Henry, Rush, and Shelby Counties - received IURC approval in 2013.

According to its filing, the utility is seeking the rate increase due to higher operating and maintenance costs, and to pay for infrastructure improvements including new meters, main replacements, automated pressure monitoring, improved mapping, and additional improvements. Its proposal would raise monthly residential bills as follows:

Monthly Usage	Current Gas Bill	Proposed Gas Bill
20 Therms	\$32.87	\$38.25
50 Therms	\$66.51	\$75.00
100 Therms	\$122.58	\$136.24

Base distribution rates comprise approximately 50 percent of a typical Fountaintown Gas residential bill. They cover "non-gas" costs such as operating and maintenance expenses and capital infrastructure improvements. The remaining 50 percent of a typical monthly bill pays for the natural gas itself, which the utility recovers on a dollar-for-dollar basis subject to OUCC review and IURC approval every three months.

Fountaintown Gas Co. has filed this case through the IURC's Small Utility Filing Procedure, which is designed to reduce the time and expense involved with regulatory filings for utilities with fewer than 8,000 customers. Savings are gained by allowing utility staff to use standardized forms and forego a technical evidentiary hearing. This is designed to result in utilities needing less assistance from rate consultants or attorneys, leading to fewer expenses to be passed on to customers.

The OUCC uses the same standard to review a utility's operations and records whether it seeks a rate increase through the Small Utility Filing Procedure or a traditional case. Conducting its analysis on behalf of all utility consumers, the OUCC will present the results of its review through a report to the IURC, including formal testimony. The IURC's review is conducted on behalf of the public interest (a balancing of utility and customer interests); it is responsible for resolving any factual disputes that may arise and issuing a final order establishing new rates.

A settlement agreement is possible in any legal proceeding; such an agreement, if reached, would require IURC approval.
