Howard County has ES&S as our vendor for voting machines. We had coding errors on our ballots and after three printings finally received ballots the machines would read. We received our ballots on Saturday, April 29, 2006.

We have the new Auto Mark and there were also problems with audio files and the set up of machines to read infrared ballots. The set up was fixed the week before the election, but we never received the corrected audio files.

The State Voter Registration System was not accurate. Many times two voters living in the same house would be assigned different precincts.
