## CEB 9 - County Election Report for

Answer to #12:

Before election day we knew there were problems with our program in our computer software, however when we reported this to ES&S, they said it was because we had 3 iivotronic and 3 optical scan machines which were being shared by two precincts each. Needless to say I was not very happy with ES&S and I complained to them constantly about their below average service to our county. However, I also knew we were running out of time to get anything changed. We knew we were going to have to insert by hand candidate totals from certain precincts into our computer software at the office from the machine tapes, we were also told by ES&S that we would not be able to run precinct by precinct reports as usual, we needed to wait until all precincts came in. However, by 10:00 pm we were aware that something was very wrong with our program in the computer software. ES&S along with my staff were trying to figure out what the problem was. After much aggravation, it was finally discovered that ES&S had not sent us the correct program. This problem was finally resolved the next day around 3:00 p.m.
