MAKE A DAY OF IT

Many of Indiana's wineries and breweries have teamed up to create self-guided trails. For the wine trails, you can look for the grapes symbol (at right) on road signs as you travel so you know where to make your turns. And of course, have a designated driver as you taste and tour.

A WARM WELCOME TO LIFT YOUR SPIRITS

Indiana is known for corn, apples, honeybees, grapes and wheat, among other agriculture specialties. The destinations listed here have a very special use for those harvests, and they heartily welcome you to taste their reds, whites and brews! Many offer tours along with their tastings, and all have an interesting story of how they brought their passions and dreams to life so they could open their doors to you.

Indiana's soil and topography are well suited to growing grapes, and we also have lots of local berries, fruits and honeybees. That means the wines, ciders and meads you taste will often be made with the vintners' own harvest.

Likewise, Indiana's craft brewers have brought back some historic brands and also created their own, bringing a unique personality to each brewery. And no matter the brand, there's always a warm welcome brewing.

Meanwhile, Indiana's distilleries craft and bottle whiskeys, gins, vodkas, rums, moonshines, brandies and liqueurs. Again, their friendly tasting rooms allow you to try before you buy as you tour the state's specialists in all things shaken, stirred and sipped.

Destinations worth toasting.

That's Honest-to-Goodness Indiana.
