Process Flow

Recovery Works Funding

It is...

- A funding source for treatment for those involved with the criminal justice system
- A supplement to community supervision strategies that will decrease recidivism
- Access to individualized treatment and recovery services

It is not...

- A Diversion or Re-entry Program
- A stand-alone solution to community placement for forensic populations
- A punitive measure as discipline for criminal acts

Recovery Works Program Development, Rollout & Ramp-up

- Provided training and webinars to DMHA Certified Providers and Criminal Justice Partners
- Began services November 3, 2015
- Began with small pool of providers in select Counties with paper voucher
- Began electronic voucher system (WITS) January, 2016

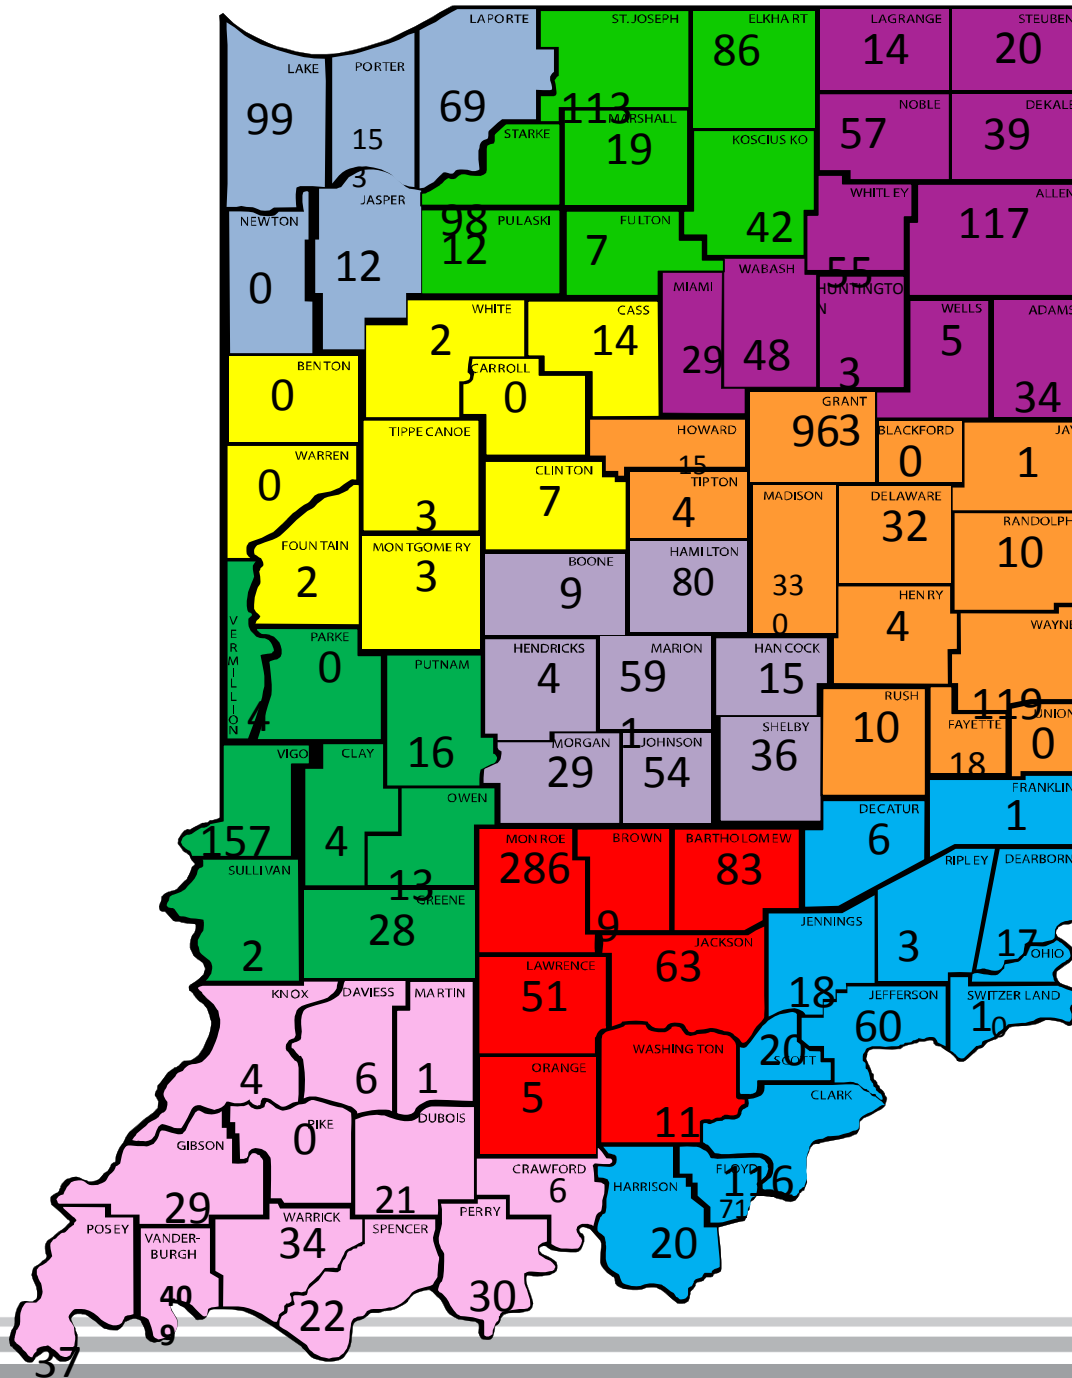

Recovery Works Program Development, Rollout & Ramp-up

- Ongoing Statewide Training:
 - County stakeholder meetings on referral process and collaboration between providers
 - Provide support, education, and Technical Assistance for Designated Treatment Agencies
- Adding services, removed participant cap and medication PA, increasing rates
- Focus Group with Designated Recovery Works Providers

- Serving 92 counties
- 64 Designated Providers
- Over 4800+ Individuals enrolled
- 2.5mil in vouchered services

Next Steps

- Continued JRAC discussions and developments
- Minimize administrative burden
- Grow provider pool
- Continued support and training for Criminal Justice Partners w/targeted TA
- Jail Re-entry Services
- Independent program evaluation
